
**UNITED STATES
SECURITIES AND EXCHANGE COMMISSION**
Washington, D.C. 20549

FORM 20-F

REGISTRATION STATEMENT PURSUANT TO SECTION 12(b) OR (g) OF THE SECURITIES EXCHANGE ACT OF 1934

OR

ANNUAL REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the fiscal year ended March 31, 2014

OR

TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

OR

SHELL COMPANY REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

Date of event requiring this shell company report:

For the transition period from _____ to _____

**GLOBAL-TECH ADVANCED INNOVATIONS
INC.**

(Exact Name of Registrant as Specified in its charter and Translation of Registrant's Name into English)

British Virgin Islands

(Jurisdiction of incorporation or organization)

12/F., Kin Teck Industrial Building, 26 Wong Chuk Hang Road, Aberdeen, Hong Kong

(Address of principal executive offices)

Attn: John C.K. Sham

12/F., Kin Teck Industrial Building

26 Wong Chuk Hang Road

Aberdeen, Hong Kong

Tel.: (852) 2814 0601

Fax: (852) 2873 0591

(Name, Telephone, E-Mail and/or Facsimile number and Address of Company Contact Person)

Securities registered or to be registered pursuant to Section 12(b) of the Act:

Title of each class:
Common Shares, par value \$0.04 per share

Name of each exchange on which registered:
The NASDAQ Stock Market LLC

Securities registered or to be registered pursuant to Section 12(g) of the Act:

Not Applicable

Securities for which there is a reporting obligation pursuant to Section 15(d) of the Act:

Not Applicable

Indicate the number of outstanding shares of each of the issuer's classes of capital or common stock as of the close of the period covered by the annual report:

3,044,227 Common Shares, par value \$0.04 per share

Indicate by check mark if the registrant is a well-known seasoned issuer, as defined in Rule 405 of the Securities Act. Yes No

If this report is an annual or transition report, indicate by check mark if the registrant is not required to file reports pursuant to Section 13 or 15(d) of the Securities Exchange Act of 1934. Yes No

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes No

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T (§232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files). Yes No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, or a non-accelerated filer. See definition of "accelerated filer" and "large accelerated filer" in Rule 12b-2 of the Exchange Act. (Check one):

Large accelerated filer Accelerated filer Non-accelerated filer

Indicate by check mark which basis of accounting the registrant has used to prepare the financial statements included in this filing:

U.S. GAAP International Financial Reporting Standards as issued by the International Accounting Standards Board Other

If "Other" has been checked in response to the previous question, indicate by check mark which financial statement item that the registrant has elected to follow. Item 17 Item 18

If this is an annual report, indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act). Yes No

The terms “Global-Tech,” “we,” “the Company,” the “Group,” “us” and “our” as used in this annual report on Form 20-F, or annual report, refer to Global-Tech Advanced Innovations Inc. (formerly known as Global-Tech Appliances Inc.), a British Virgin Islands corporation, and its consolidated subsidiaries, except where the context requires otherwise. The terms “China,” “Hong Kong” and “Macau” as used in this annual report refer to the People’s Republic of China (the “PRC”), the Hong Kong Special Administrative Region of China and the Macau Special Administrative Region of China, respectively.

“Discontinued operation(s)” refers to our home appliance and EMS business segments, which were discontinued in January 2012 and December 2013, respectively.

References throughout this annual report to a fiscal year refer to the fiscal year ended on March 31 of that year. “Fiscal 2014,” for example, refers to the fiscal year ended March 31, 2014.

Our financial statements are reported in U.S. dollars (see Note 3(q) of Notes to Consolidated Financial Statements) and in accordance with generally accepted accounting principles in the United States, or U.S. GAAP. All references to “dollars” or “\$” in this annual report are to U.S. dollars. All references to “HK\$” are to Hong Kong dollars and “RMB” are to Chinese Renminbi.

CAUTIONARY STATEMENT REGARDING FORWARD-LOOKING STATEMENTS

This annual report contains forward-looking statements that are made under the safe harbor provisions of the Private Securities Litigation Reform Act of 1995. These statements relate to our future plans, objectives, expectations and intentions and involve inherent risks and uncertainties. We use words such as “expect,” “anticipate,” “project,” “believe,” “plan,” “intend,” “seek,” “should,” “estimate,” “future,” or variations of such words and other similar expressions to identify forward-looking statements. You should not place undue reliance on these forward-looking statements. Forward-looking statements contained herein (including future cash contractual obligations, liquidity, cash flow, orders, results of operations, and trends, among other matters) or in other statements made by us are made based on management’s expectations and beliefs concerning future events impacting us and are subject to uncertainties and factors relating to our operations and business environment, all of which are difficult to predict and many of which are beyond our control, that could cause our actual results to differ materially from those matters expressed or implied by forward-looking statements. We believe that the following factors, among others (including those described in Item 3.D. “Risk Factors”), could affect our future performance and the liquidity and value of our securities and cause our actual results to differ materially from those expressed or implied by forward-looking statements made by us or on our behalf:

- a determination that we are a Passive Foreign Investment Company;
- operations strategy;
- the cyclicity of the markets which we serve and the vulnerability of those markets to economic downturns;
- impairment charges and other charges related to discontinued operations;
- our exit from the home appliance and EMS businesses;
- the loss of, or a significant reduction or delay in purchases by our customers;
- competition in our markets;
- financial distress of third parties;
- general economic, political, business and market risks associated with our global operations;
- fluctuations in foreign currency exchange and interest rates;
- our ability to control our costs while maintaining customer relationships and core business resources;
- litigation and disputes involving us, including the extent of product liability, warranty, pension, employment and other similar claims asserted against us;
- labor costs and disputes and the deterioration of our relations with our employees;
- additional liabilities related to taxes;
- our ability to continue our technical innovation in our product lines;
- our ability to protect our intellectual property and know-how;
- claims that our products or processes infringe intellectual property rights of others;
- fluctuations in the price of our stock; and
- other factors described in this annual report.

All forward-looking statements attributable to us or persons acting on our behalf apply only as of the date of this annual report and are expressly qualified in their entirety by the cautionary statements included in this annual report. We undertake no obligation to update or revise forward-looking statements which may be made to reflect events or circumstances that arise after the date made or to reflect the occurrence of unanticipated events.

Item 3. Key Information

A. Selected financial data.

The selected consolidated statement of operations data for the fiscal years ended March 31, 2012, 2013 and 2014 and the selected consolidated balance sheets data as of March 31, 2013 and March 31, 2014 set forth below have been prepared in accordance with U.S. GAAP and are derived from our consolidated financial statements and notes thereto included elsewhere in this annual report. The selected consolidated statement of operations data for the fiscal years ended March 31, 2010 and 2011 and the selected consolidated balance sheets data as of March 31, 2010, 2011 and 2012 set forth below have been prepared in accordance with U.S. GAAP and are derived from our consolidated financial statements and notes thereto not included elsewhere in this annual report. The selected consolidated financial data set forth below should be read in conjunction with “Item 5—Operating and Financial Review and Prospects,” the consolidated financial statements and the notes thereto and other financial information which appear elsewhere in this annual report.

	Fiscal Year Ended March 31,				
	2010 ⁽²⁾	2011 ⁽²⁾	2012 ⁽²⁾	2013 ⁽²⁾	2014
	(In thousands, except for per share data)				
Statement of operations data:					
Net sales	\$ 39,049	\$ 42,727	\$ 55,213	\$ 66,827	\$ 62,693

⁽¹⁾ In January 2012 and December 2013, the Company discontinued the operation of its home appliance and EMS business segments, respectively.

⁽²⁾ Comparative figures have been reclassified to conform with current year's presentation.

	At March 31,				
	2010	2011	2012	2013	2014
	(In thousands)				
Balance sheets data:					
Working capital ⁽¹⁾	\$ 51,870	\$ 45,170	\$ 54,000	\$ 45,383	\$36,343
Total assets	111,087	119,936	109,040	108,226	99,667
Net assets ⁽²⁾	77,736	76,512	80,259	76,534	66,174
Total debt ⁽³⁾	—	12,585	4,000	4,826	7,280
Shareholders' equity	77,736	76,337	80,091	76,258	65,790

⁽¹⁾ Working capital is the excess of current assets over current liabilities.

⁽²⁾ Net assets are the excess of total assets over total liabilities and non-controlling interests.

⁽³⁾ Total debt is the summation of short-term borrowings, current portion of long-term bank borrowings and non-current portion of long-term bank borrowings.

B. Capitalization and indebtedness.

Not applicable.

C. Reasons for the offer and use of proceeds.

Not applicable.

D. Risk factors.

Passive foreign investment company. Based on our financial statements, the valuation of our assets and the interpretation that rental income from our non-US based factories and equipment is considered passive, we believe that it may be determined in the future that we are a passive foreign investment company ("PFIC"). We have experienced recent changes in the composition of our income and assets resulting from the discontinuation of our home appliance and EMS businesses, and could experience further changes that may result from increases in the Company's cash reserves and/or the generation of rental income from the lease of portions of our facilities. If we become a passive foreign investment company, such characterization could result in adverse U.S. tax consequences to our investors if they are a U.S. investor. For example, if we become a PFIC, our U.S. investors will become subject to increased tax liabilities under U.S. tax laws and regulations and will become subject to burdensome reporting requirements.

If we are a PFIC for any taxable year during which a U.S. investor holds our common shares, unless the U.S. investor made a mark-to-market election, the U.S. investor would be subject to special tax rules with respect to any "excess distribution" received and any gain realized from a sale or other disposition, including a pledge, of common shares. Distributions received in a taxable year that are greater than 125% of the average annual distributions received during the shorter of the three preceding taxable years or a U.S. investor's holding period for the common shares will be treated as excess distributions. Under these special tax rules:

- the excess distribution or gain will be allocated ratably over the U.S. investor's holding period for the common shares,
- the amount allocated to the current taxable year, and any taxable year prior to the first taxable year in which we were a PFIC, will be treated as ordinary income, and
- the amount allocated to each other year will be subject to tax at the highest tax rate in effect for that year and the interest charge generally applicable to underpayments of tax will be imposed on the resulting tax attributable to each such year.

In addition, non-corporate U.S. investors will not be eligible for reduced rates of taxation on any dividends received from us in taxable years beginning prior to January 1, 2015, if we are a PFIC in the taxable year in which such dividends are paid or in the preceding taxable year.

The determination of whether or not we are a PFIC is made on an annual basis and depends on the composition of our income and assets from time to time. Specifically, we will be classified as a PFIC for U.S. tax purposes if either: (i) 75% or more of our gross income in a taxable year is passive income, or (ii) the average percentage of our assets (which include cash) by (determined on a quarterly average) value in a taxable year which produce or are held for the production of passive income (which includes cash) is at least 50%. The calculation of the value of our assets will be based, in part, on the then prevailing market value of our common shares, which is subject to change. We have calculated our position for fiscal 2014 and our plan for 2015 and believe we are not currently a PFIC and do not expect to be in fiscal 2015. See "Item 10. Additional Information—E. Taxation—Material United States Federal Income Tax Consequences."

Downturns in economic and financial conditions. Demand for our products depends in large part upon worldwide consumers of telecom products. While general economic conditions have shown improvement in many parts of the world, there has been continued economic weakness in many key markets. Additionally, growth in the PRC has slowed and government policies continue to evolve. A downturn in economic conditions in the PRC or elsewhere may reduce the willingness or ability of our customers and prospective customers to commit funds to purchase our products and services, and may reduce their ability to pay for our products and services after purchase. Economic conditions that could impact our business include, but are not limited to, recessionary conditions, slow or negative economic growth rates, the impact of state and sovereign debt defaults. Similarly, our suppliers may not be able to supply us with needed raw materials or components on a timely basis, may increase prices or go out of business, which could result in our inability to meet customer demand, or fulfill our contractual obligations or could affect our gross margins. If the economy or markets in which we operate deteriorate or financial markets weaken, our business, financial condition and results of operations could be adversely impacted.

Operations Strategy. In recent years the Company has experienced inflationary pressures that have severely impacted its ability to operate a manufacturing enterprise in the location in the PRC that was originally established for that purpose in 1995. The government has consistently changed the rules to provide a better living standard for migrant workers, de-emphasized low value added export industries and increased energy costs to try and reduce pollution. Additionally, there is a shortage of technical talent and retaining such talent is a major challenge for management.

The net effect is that government sponsored/supported high technology enterprises can better flourish in this environment. We are not one of them. Our primary goal therefore is to secure the best use for the real estate we have and this will require cooperation from the local government. To date the government has approved our program including our rental arrangements but there is no assurance that they will continue to do so.

At present our rental income, assuming our tenants are financially viable, is nearly sufficient to cover the costs of the facility but if we do not develop an appropriate use of our land and buildings in the future, that is approved and supported by the local authorities, our financial position will be adversely impacted.

Under Chinese laws and regulations, a landlord can be held responsible to pay past due wages, social insurance and severance in the event any tenant becomes financially insolvent. If any of our tenants become insolvent, particularly our start-up EMS lessee, and the government holds us responsible, our overall cost could materially exceed the deposits we hold from our tenants. In such an occurrence our results of operations and financial condition would be adversely effected.

Inflation and increased labor costs. The economy in China has grown significantly over the past 20 years, which has resulted in an increase in inflation and the average cost of labor, especially in the coastal cities. China's overall economy and the average wage in the PRC are expected to continue to grow. Increases in China's inflation and material increases in the cost of labor would diminish our competitive advantage and, unless we are able to pass on these increased labor costs to our customers by increasing prices for our products and services, our profitability and results of operations could be materially and adversely affected.

Additional Land Use Rights Payments. Following our exit from the home appliance and EMS businesses, approximately 122,000 square meters of production space and 10,000 square meters of dormitories were no longer needed for our operation. We began leasing a portion of this space to independent third parties in fiscal 2013 and, as of the date of this annual report, we had leased 76,000 square meters of former production space to be used as warehouse space. In addition, in April 2014, we entered into two five-year lease agreements to rent out our former EMS production facility and equipment plus office space which totalled 26,453 square meters.

The land use right certificates obtained by the Company for the land where the leased facilities are located include a statement as to the approved use of the land. The Dongguan City local government retains the right to demand additional fees from the Company in the event that it is deemed that the Company's leasing of certain of its facilities is inconsistent with the approved use of the land stated on the land use right certificates. No formal fee schedule exists; thus the Company cannot quantify the amount of such fees, should the local government elect to demand the payment of such fees. No accruals have been made as these fees are neither probable nor quantifiable. In the event that we are required to pay additional land use rights, it would have an adverse effect on our financial condition and operations.

Conflict Minerals. In August 2012, under the Dodd-Frank Wall Street Reform and Consumer Protection Act of 2010 ("Dodd-Frank"), the SEC adopted new requirements for companies that use certain minerals and derivative metals (referred to as "conflict minerals", regardless of their actual country of origin) in their products. These new requirements will require companies to investigate, disclose and report whether or not such metals originated from the Democratic Republic of Congo or adjoining countries. In October 2012, the National Association of Manufacturers and the U.S. Chamber of commerce filed a petition for review in the U.S. Court of Appeals for the District of Columbia in response to a section of Dodd-Frank regulation that requires public companies to disclose whether their products have been manufactured with these conflict minerals in countries where the sale of these minerals fuel humanitarian violence. In April 2014, the Court found that certain aspects of the requirements violated the first Amendment. In January 2013, the SEC's conflict minerals disclosure rules were to become effective, requiring companies to make their first conflict minerals disclosures on or before May 31, 2014 for the 2013 calendar year. However, the SEC issued a Partial Stay of the Conflict Mineral Rules on May 2, 2014 and we will continue evaluating the disclosure requirements in order to comply with the SEC rules, as they are ultimately prescribed.

As there may be only a limited number of suppliers offering “conflict free” metals, we cannot be certain that our suppliers will be able to obtain necessary metals in sufficient quantities or at competitive prices. Also, since our supply chain is complex and some suppliers will not share their confidential supplier information, we may face challenges with our customers and suppliers if we are unable to sufficiently verify that the metals used in our products are “conflict free”. Some customers may choose to disqualify us as a supplier and we may have to write off inventory in the event that it becomes unsalable as a result of these regulations.

Credit terms in the PRC. Some of the Company’s major customers in the PRC are granted credit terms of up to 210 days; however, receivables for some of the Company’s customers may extend beyond the stated credit terms. An increase in receivables that extend beyond stated credit terms or a customer’s refusal or inability to pay would have a material adverse effect on our profitability and results of operations.

Dependence on major customers. Our five largest Electronic Components customers represent approximately 60% of consolidated net sales for continuing operations in fiscal 2014. We have no contractual arrangements with these customers and only sell to them based on purchase orders received. We expect that a limited number of customers will continue to represent a substantial portion of our sales for the foreseeable future. The loss of any of our major customers or a decrease or delay in orders or anticipated spending by such customers could materially reduce our revenues and profitability. Our largest customers could also engage in business combinations, which could increase their size, reduce their demand for our products as they recognize synergies or rationalize assets and increase or decrease the portion of our total sales concentration to any single customer.

Penalties for workforce reductions. In June 2007, the National People’s Congress of the PRC enacted new labor law legislation called the Labor Contract Law, which became effective on January 1, 2008. It formalizes workers’ rights concerning overtime hours, pensions, layoffs, employment contracts and the role of trade unions. Considered one of the strictest labor laws in the world, among other things, this new law requires an employer to conclude an “open-ended employment contract” with any employee who either has worked for the employer for 10 years or more or who has had two consecutive fixed-term contracts. An “open-ended employment contract” is in effect a lifetime, permanent contract, which is terminable only in specified circumstances, such as a material breach of the employer’s rules and regulations, or for a serious dereliction of duty. Under the new law, downsizing by 20% or more of an individual entity may occur only under specified circumstances, such as a restructuring undertaken pursuant to China’s Enterprise Bankruptcy Law, or where a company suffers serious difficulties in production and/or business operations. Also, in the event of a layoff of more than 20 employees at one time, the entity is required to communicate with its labor union and report to the District Labor Bureau. We complied with all of the requirements when discontinuing our home appliance and EMS businesses at significant cost. Any further workforce reductions would have a material impact on our financial results.

Security of bank accounts in the PRC. The Company has a number of bank accounts in the PRC to satisfy lines of credit, exchange regulations and banking facilities and to support its operations. None of these accounts are government-insured. There is considerable uncertainty over the long-term effects of the expansionary monetary and fiscal policies adopted by PRC banks and financial authorities and it remains unclear whether the stimulus plans and other measures implemented by the Chinese government will be enough to avert an economic downturn. The People’s Bank of China (“PBoC”) has recently expressed its intentions not to support the interbank market and its desire for tighter monetary policies. In the event of a credit crisis, our accounts would be vulnerable to loss, which would have a material adverse effect on our business and financial condition.

PRC Social Insurance Law. In October 2010, China promulgated the Social Insurance Law of the People’s Republic of China (the “Social Insurance Law”), which became effective as of July 1, 2011. Before its promulgation, China’s social insurance policies were implemented through a web of rules and regulations at both national and local levels. The Law unifies previous, scattered laws that relate to social insurance matters. The Social Insurance Law expressly clarifies that the social insurance system in China includes pension insurance, medical insurance, unemployment insurance, work-related injury insurance and maternity insurance, all of which are mandatory for employees of companies operating in the PRC. Both employers and employees are required to make contributions for pension, medical and unemployment insurance, while only employers are required to make contributions for work-related injury insurance and maternity insurance. Additionally, under certain circumstances, employers must provide housing subsidies for its workers.

The Social Insurance Law does not specify the contribution rates or the basis for calculating each kind of social insurance, which leaves room for local governments to implement the Social Insurance Law based upon their local economic realities and consistent with the national policy. Currently, contribution rates are determined at the provincial or municipal level and many local governments have not yet established contribution rates.

Previously, the Company adhered to a policy of accruing and expensing social insurance premiums equivalent to two years of such costs at published rates, without regard to actual payments. The Company has assessed the potential for retroactive application of the Social Insurance Law and concluded that such retroactive application is neither likely nor calculable. In prior years, new accruals were offset by a resulting reversal of accruals made two years prior. However, should the local government rates or applicability ultimately differ from those used by the Company, it could have a material adverse effect on our financial results and financial condition.

In fiscal 2012 and fiscal 2014, in connection with our exit from the home appliance and EMS businesses respectively, previous accruals for the social insurance expenses for their segments were reversed to offset severance and other costs relating to the termination of employees previously assigned to their respective businesses.

Cost and availability of labor. There is an emerging trend of a shortage of supply of migrant workers in China, particularly in Guangdong Province where our factory is located. Both in numbers and in skill, the labor force in China cannot keep up with the current speed of economic development and labor organizations have begun to initiate industrial action to raise wages. We continually adjust salaries and fringe benefits in order to attract and retain an adequate labor force. This trend of labor shortages is expected to continue and will likely result in further increases in wages as companies seek to retain their existing work forces. In the coming year, we expect that both a potential shortage of labor and increasing costs will impact our manufacturing operations, which has affected and will continue to adversely affect gross margins.

Cancellation or delays in purchase orders placed by our customers. Sales to our customers are primarily based on purchase orders and forecasts we receive. We generally purchase and stock components upon receiving orders; however, we will purchase components for certain customers based on their rolling forecasts. We are required to purchase components on an occasional or continuous basis in the expectation of receiving purchase orders for products that use such components. In the event the actual orders are delayed or cancelled, we would have increased inventory levels or possible write-downs of our inventory that could materially and adversely affect our business and results of operations.

Foreign sales, operations and assets. Substantially all of our products are currently manufactured in China and over 99% of the net book value of our total long-lived assets is located there. We sell products to companies based principally in China and Asia. Consequently, our international operations and sales may be subject to the following risks, among others:

- political and economic risks, including political instability, currency controls and exchange rate fluctuations;
- changes in import/export regulations;
- changes in the rate of inflation;
- changes in tariff and freight rates; and
- changes in tax rates.

In particular, changes in tariff structures or other trade policies could adversely affect our customers or suppliers or decrease our competitors' costs of production.

Governmental regulation. Our operations and assets in China are subject to significant political, economic, legal and other uncertainties. Any of the followings could result from policy changes by the Chinese government and could have a material adverse effect on our business, results of operations and financial condition:

- legal or regulatory changes, or changes in interpretation of current laws or regulations;
- new labor laws restricting flexibility in employment and added social security costs;
- confiscatory or increased taxation;
- restrictions on currency conversion, imports and sources of supply;
- import duties;
- currency devaluations; or
- expropriation of private enterprise.

Under its current leadership, the Chinese government has been pursuing economic reform policies, including the encouragement of private economic activity and greater economic decentralization. In 2001, China was admitted to the World Trade Organization ("WTO"), and is now entitled to the full trading rights afforded a WTO member country. There can be no assurance, however, that China will continue to pursue and implement favorable economic reform policies, that such policies will be successful if pursued or that such policies will not be significantly altered from time to time without prior notice.

The municipal authorities in each township in China have a certain amount of discretion to impose or waive a large number of fees and taxes including value-added tax, real estate tax, stamp duty, licenses and permits. In the Company's manufacturing location, it is subject to the laws and regulations of the township of Dongguan, Guangdong Province and the PRC. To the extent the government authorities decide to exercise their discretion to increase or impose new fees, our operations could be materially affected.

Change in PRC taxation. Under PRC tax law before 2008, the Company was subject to a lower overall effective tax rate than some U.S. domiciled corporations because of the location of its business operations. However, on March 16, 2007, the Chinese government enacted a unified enterprise income tax law or EIT, which became effective on January 1, 2008. Prior to the EIT, as a foreign invested enterprise, or “FIE”, some of our subsidiaries enjoyed preferential tax treatment. Under the EIT, most domestic enterprises and FIEs are subject to a single PRC enterprise income tax rate of 25%. One of our subsidiaries in China is qualified as a High and New Technology Enterprise (“HNTE”) and subject to a preferential tax rate of 15% effective January 1, 2012 as long as it retains its HNTE classification. We base our tax position upon the anticipated nature and conduct of our business and upon our understanding of the tax laws of the various administrative regions and countries in which we have assets or conduct activities. However, our tax position is subject to review and possible challenge by the tax authorities and to possible changes in law, which may have retroactive effect. We cannot determine in advance the extent to which some jurisdictions may require us to pay taxes or make payments in lieu of taxes, which could have a material impact on our financial position and results of operations.

PRC taxation on deemed income. The PRC tax authorities could determine that any inter-company payable account in accordance with PRC GAAP could be deemed income if such inter-company payables cannot be settled and are therefore income subject to taxation. In accordance with FASB ASC 740, we evaluated our position and determined that such inter-company payables will be settled, and particularly, since prior year tax assessments have been confirmed with the PRC tax authorities, deeming such inter-company payables as income is not likely. However, if the PRC tax authorities deem the inter-company payables of our PRC subsidiaries as income, it would have a material impact on our financial position and results of operations.

PRC taxation on worldwide income. We may be deemed a PRC resident enterprise under the EIT Law and be subject to PRC taxation on our worldwide income. The EIT Law provides that enterprises established outside of China whose “de facto management bodies” are located in China are considered “resident enterprises” and are generally subject to the uniform 25% enterprise income tax rate on their worldwide income. Under the implementation regulations for the EIT Law issued by the PRC State Council, “de facto management body” is defined as a body that has material and overall management and control over the manufacturing and business operations, personnel and human resources, finances and treasury, and acquisition and disposition of properties and other assets of an enterprise. Also, on April 22, 2009, the State Administration of Tax (“SAT”) issued a Tax Circular, *Guoshuifa (2009) No. 82, Notice on the Recognition of Overseas Incorporated Domestically Controlled Enterprises as PRC Resident Enterprises Based on the Place of Effective Management Criteria*, or Circular 82, with retrospective effect from 1 January 2008. According to Circular 82, any enterprise established under the law of a country or region other than the PRC but whose main investor is a PRC enterprise or Group shall be recognized as a resident enterprise for PRC tax purposes if all the following criteria are met: (i) the senior executives responsible for its daily production or business operations and the place where such responsibilities are carried out are mainly located in China; (ii) decisions about its finances (such as borrowing, lending, financing and managing financial risk) and human resources (such as staff recruitment, termination, and remuneration policies) are made or approved by organizations or individuals located in China; (iii) its major properties, accounting books and records, company seal, board minutes and resolutions, shareholders’ meeting minutes, etc. are kept in China; and (iv) 50% or more of its voting directors or its senior executives habitually reside in China. The principle of “substance over form” applies when determining the place of effective management. Although Circular 82 was issued to regulate the PRC tax resident judgment of companies established overseas and controlled by PRC companies, which is not applicable in our case, the criteria in Circular 82 should be used as a reference to the SAT’s view on this issue. We believe the risk of being recognized as a PRC resident enterprise under the EIT Law is very low. If we are treated as a resident enterprise for PRC tax purposes, we will be subject to PRC tax on our worldwide income at the 25% uniform tax rate, which could have an impact on our effective tax rate and an adverse effect on our results of operations.

Potential taxes on dividends and sale of our stock. Under the EIT Law and implementation regulations issued by the State Council, PRC income tax at the rate of 10% is applicable to dividends payable to investors that are “non-resident enterprises” which do not have an establishment or place of business in the PRC, or which have such establishment or place of business but the relevant income is not effectively connected with the establishment or place of business, to the extent that such dividends have their sources within the PRC. Similarly, any gain realized on the transfer of shares by such investors is also subject to 10% PRC income tax if such gain is regarded as income derived from sources within the PRC. If we are considered a PRC “resident enterprise,” it is unclear whether dividends we pay with respect to our common shares, or the gain our investors may realize from the transfer of our common shares, would be treated as income derived from sources within the PRC and be subject to PRC tax. If we are required under the EIT Law to withhold PRC income tax on dividends payable to our non-PRC investors that are “non-resident enterprises,” or if our investors are required to pay PRC income tax on the transfer of our common shares, the value of their investment in common shares may be materially and adversely affected.

Unsecured cash, cash equivalents and short-term investments. We have cash and short-term cash equivalent instruments, available-for-sale investments which are invested with third party financial institutions that may not be insured or exceed the insurance limits of the Federal Deposit Insurance Corporation (“FDIC”) or other government insurance agencies. While we make an effort to monitor the cash balances in our operating accounts and adjust the cash balances as appropriate, these cash balances could be impacted if the underlying financial institutions fail or become subject to other adverse conditions in the financial markets. Additionally, there are restrictions in the PRC concerning transfer of funds outside the PRC. We have not experienced any loss in our cash and cash equivalents to date or lack of access to cash in our operating accounts. We also invest excess cash in immediately available and short-term interest bearing cash equivalent instruments. If a commercial bank or financial institution in which we have our funds deposited should become insolvent or be taken over by the FDIC or other governmental insurance agencies, we could have significant unrecoverable cash deposits. A loss in cash deposits would have an adverse impact on our business, results of operations and financial condition.

New products and rapid technological change. The technology incorporated in many of our products, particularly consumer electronics, is characterized by rapid change in the marketplace. In addition, the emergence of new technologies can quickly render existing products obsolete or unmarketable. Our ability to anticipate changes in technology and industry standards or consumer demand and successfully develop and introduce new or enhanced products that gain market acceptance will be a critical factor in our ability to grow and remain competitive. There can be no assurance that we will timely or successfully complete the development of new or enhanced products or successfully manage the transition from one product release to the next, or that our future products will achieve market acceptance. The failure to realize such goals could have a material adverse effect on our business, results of operations and financial condition.

Proprietary technology; patent protection. We rely on a combination of internal procedures, nondisclosure agreements, intellectual property rights assignment agreements, as well as licenses, patents, trademarks and copyright law to protect our intellectual property and know-how. Our intellectual property rights may not be successfully asserted in the future or may be invalidated, circumvented or challenged. For example, we frequently explore and evaluate potential relationships and projects with other parties, which often requires that we provide the potential partner with confidential technical information. While confidentiality agreements are typically put in place, there is a risk the potential partner could violate the confidentiality agreement and use our technical information for its own benefit or the benefit of others or compromise the confidentiality. In addition, the laws of certain foreign countries in which our products may be sold or manufactured do not protect our intellectual property rights to the same extent as the laws of the United States. For example, laws in China may not protect our intellectual property rights to the same extent as in the United States. Failure or inability to protect our proprietary information could result in a decrease in our sales or profitability. The protection of our intellectual property may require expensive investment in protracted litigation and the investment of substantial management time and there is no assurance we ultimately would prevail or that a successful outcome would lead to an economic benefit that is greater than the investment in the litigation. In addition, we may be unable to prevent third parties from using our intellectual property rights and know-how without our authorization or from independently developing intellectual property that is the same as or similar to ours, particularly in those countries where the laws do not protect our intellectual property rights as fully as in the United States. We compete in a number of industries that are small or specialized, which makes it easier for a competitor to monitor our activities and increases the risk that ideas will be stolen. The unauthorized use of our know-how by third parties could reduce or eliminate any competitive advantage we have developed, cause us to lose sales or otherwise harm our business or increase our expenses as we attempt to enforce our rights.

Potential patent infringement or similar claims. Although it is our intention to avoid infringing or otherwise violating the intellectual property rights of others, third parties may nevertheless claim (and in the past have claimed) that our processes and products infringe their intellectual property and other rights. We compete with other companies for contracts in some small or specialized industries, which increases the risk that the other companies will develop overlapping technologies leading to an increased possibility that infringement claims will arise. Whether or not these claims have merit, we may be subject to costly and time-consuming legal proceedings, and this could divert our management’s attention from operating our businesses. In order to resolve such proceedings, we may need to obtain licenses from these third parties or substantially re-engineer or rename our products in order to avoid infringement. In addition, we might not be able to obtain the necessary licenses on acceptable terms, or at all, or be able to re-engineer or rename our products successfully.

Product liability. We may be subject to substantial product liability costs if claims arise out of problems associated with our products. We provide a warranty for limited manufacturing defects to certain of our customers. We do not provide warranties, however, that extend to the ultimate consumers of the product. Nevertheless, there can be no assurance that we will not be subject to a suit by a consumer who uses one of our products if the product causes an injury to any person or does not perform properly. We maintain product liability insurance in an amount we believe is sufficient. There can be no assurance, however, that our insurance coverage will be adequate or that all product liability claims will be covered by our current product liability insurance. In addition, these policies must be renewed annually. To date, we have not been subject to any material product liability claim. While we have been able to obtain product liability insurance in the past, premiums continue to increase in cost and may not be available in the future on terms acceptable to us, if at all. The failure to maintain insurance coverage, or a successful claim against us not covered by or in excess of the insurance coverage, could have a material adverse effect on our business, results of operations and financial condition. In addition, product liability claims, regardless of their merit or eventual outcome, may have a material adverse effect on our business reputation.

Product safety; delays in regulatory approval. Prior to the commercial introduction of our products into the market, we always obtain approval of our products by at least one of the organizations engaged in testing product safety and/or other appropriate agencies. The application process for securing these approvals requires a significant commitment of time and resources by our technical staff and could delay the introduction of our products. Our inability to obtain regulatory approval within the projected timeframe for commercial introduction of our products or other product introduction delays could have a material adverse effect on our business, results of operations and financial condition.

Risks of manufacturing in China; property damage. All of our products are manufactured at our factory complex located in Dongguan, China. In addition to the political and economic risks of operations in China, firefighting and disaster relief assistance in China is not as sophisticated as in certain Western countries. We currently maintain property damage insurance in the aggregate of approximately \$135 million which covers our inventory, furniture, equipment, machinery and buildings and also maintain business interruption insurance in the aggregate of approximately \$20.7 million for losses relating to our factory. Material damage to, or the loss of, our facilities due to fire, severe weather, flood, force majeure or other act of God or cause, even if insured against, would have a material adverse effect on our business, results of operations and financial condition.

Impact of environmental regulations. We are subject to Chinese laws that regulate environmental quality, the utilization of natural resources and the reduction of pollution. Environmental regulation in China is currently evolving and could become more stringent or more stringently enforced in the future, which could require us to make substantial additional capital expenditures in the future to maintain compliance. As a manufacturer, we are subject to annual inspections by the local branch of the State Environment Protection Administration (“SEPA”). Although compliance with environmental regulations has not had a material adverse effect on us in the past, failure to comply with these laws or to pass an inspection in the future could have a material adverse effect on our business, results of operations and financial condition.

Dependence on distributions from operating subsidiaries and currency fluctuation. We have no direct business operations, other than our ownership of our subsidiaries. If we decide to pay dividends in the future, as a holding company, our ability to pay dividends and meet other obligations would depend upon the receipt of dividends or other payments from our operating subsidiaries and our other holdings and investments. In addition, our operating subsidiaries may also be subject to restrictions on their ability to make distributions to us, including, among others, restrictive covenants in loan agreements, restrictions on the conversion of local currency into U.S. dollars or other hard currency and other regulatory restrictions, particularly as it relates to our PRC subsidiaries. Since we do not engage in hedging or other similar transactions, extraordinary currency fluctuations could have a material adverse effect on our business, results of operations and financial condition.

Concentration of ownership. Wing Shing Holdings Company Limited, a British Virgin Islands company (“Wing Shing Holdings”), directors and family members of directors of the Company beneficially own approximately 67.3% of our outstanding common shares (issued net of treasury shares). The share ownership of Wing Shing Holdings is held 44.0% by the estate of Kwong Ho Sham who, prior to his passing, served as the Chairman of the Company’s Board of Directors, and 56.0% by our Chief Executive Officer, John Sham, who currently serves as a director. Voting control of Wing Shing Holdings is effectively held by John Sham. As a result, Wing Shing Holdings and its shareholders and their family members are in a position to control our activities and policies, including possessing the voting power to elect our board of directors and approve all matters requiring shareholder approval and the ability to generally direct our affairs. In June 2011, Kwong Ho Sham established a trust that is intended to own his portion of Wing Shing Holdings’ shares in the Company. Upon his passing, 303,070 shares currently owned by Wing Shing Holdings are intended to go into this trust and 385,727 shares owned by Wing Shing Holdings would be transferred to John C.K. Sham. As of June 2014, the transfers had not yet taken place but are expected to occur when his estate is settled. John C.K. Sham, as a trustee of his father’s charitable trust, declines beneficial ownership of any of the trust’s shares.

Unexpected loss of our C.E.O. or other key personnel. Our continued success requires us to hire, retain and develop our leadership bench and other highly skilled personnel. The unexpected loss of our Chief Executive Officer, John C.K. Sham, turnover in key personnel, or our failure to develop and implement an adequate succession plan to backfill current leadership could deplete our institutional knowledge base, erode our competitive advantage and jeopardize our continued viability.

Service and enforcement of legal process. We are organized under the laws of the British Virgin Islands. All but one of our directors and executive officers reside outside the United States, and most of our assets are located outside the United States. As a result, it may be difficult or impossible for investors to effect service of process on these persons within the United States or to enforce against these persons judgments obtained in U.S. courts, including judgments predicated on the civil liability provisions of the federal securities laws of the United States. In particular, judgments of U.S. courts predicated upon the civil liability provisions of the federal securities laws of the United States may be difficult to enforce in British Virgin Islands courts and it is uncertain whether British Virgin Islands courts will enter judgments in original actions brought in British Virgin Islands courts predicated solely upon the civil liability provisions of the federal securities laws of the United States.

British Virgin Islands company. Our corporate affairs are governed by our memorandum and articles of association and by the International Business Companies Act of the British Virgin Islands. Principles of law relating to such matters as the validity of corporate procedures, the fiduciary duties of management and the rights of our shareholders may differ from those that would apply if we were incorporated in the United States or another jurisdiction. The rights of shareholders under British Virgin Islands law are not as clearly established as are the rights of shareholders in many other jurisdictions. Thus, our shareholders may have more relative difficulty protecting their interests against certain actions by our board of directors or principal shareholders than similarly situated shareholders of a corporation incorporated in another jurisdiction. Please see details under “Item 10—Additional Information.”

Director actions without shareholder approval. Under our memorandum and articles of association and the laws of the British Virgin Islands, our memorandum and articles of association may be amended by our board of directors without shareholder approval. This includes:

- increasing or reducing our authorized capital;
- authorizing the issuance of different classes of shares, including preference shares; and
- increasing or reducing the par value of our shares.

Our ability to amend our memorandum and articles of association by a resolution of directors or a resolution of members could have the effect of delaying, deterring or preventing a change in control of the Company without any further action by the shareholders including, but not limited to, a tender offer to purchase our common shares at a premium over then current market prices.

Our status as a foreign private issuer. We are a foreign private issuer within the meaning of rules promulgated under the Securities Exchange Act of 1934 as amended (the “Exchange Act”). As such, we are exempt from certain of the reporting requirements under the Exchange Act and corporate governance standards of the Nasdaq Stock Market (“Nasdaq”). Because of these exemptions, investors are not afforded the same protection or information generally available to investors holding shares in public companies organized in the United States or traded on the Nasdaq. However, Nasdaq does not exempt foreign private issuers from independent audit committee requirements and we are required to disclose any significant ways our current corporate governance practices differ from those followed by domestic companies under Nasdaq listing standards. In addition, our Chief Executive Officer must notify Nasdaq if one of our executive officers becomes aware of any material non-compliance with any applicable Nasdaq corporate governance listing standards to Nasdaq. Please see “Item 16G—Corporate Governance” for more information.

Reciprocal enforcement of foreign judgments. No treaty exists between Hong Kong and the United States providing for the reciprocal enforcement of foreign judgments. Accordingly, Hong Kong courts might not enforce judgments predicated on the federal securities laws of the United States, whether arising from actions brought in the United States or, if permitted, in Hong Kong.

Delisting of our common shares. Our Common Stock is currently quoted on the Nasdaq Global Market. The Company must satisfy certain minimum listing maintenance requirements to maintain such quotation, including a series of financial tests relating to shareholders equity or net income or market value, public float, number of market makers and shareholders, market capitalization, and maintaining a minimum bid price of \$1.00 per share for the Common Stock. If our Common Stock is delisted from the Nasdaq Global Market, then our Common Stock may trade on the Over-the-Counter-Bulletin Board, which is viewed by most investors as a less desirable and less liquid market place. Delisting from the Nasdaq Global Market could make trading our Common Stock more difficult and increase expenses for the Company to raise additional capital and may have an adverse impact on the overall value of our Common Stock.

Inherent limitation on Internal Control. Internal control over financial reporting cannot provide absolute assurance of achieving financial reporting objectives because of its inherent limitations. Internal control over financial reporting is a process that involves human diligence and compliance and is subject to lapses in judgment and breakdowns resulting from human failures. Internal control over financial reporting also can be circumvented by collusion or improper management decision. Because of such limitations, there is a risk that material misstatements may not be prevented or detected on a timely basis by internal control over financial reporting. However, these inherent limitations are known features of the financial reporting process. Therefore, it may be possible to design into the process safeguards to reduce, though not eliminate, this risk.

Inherent uncertainty in preparation of financial statements. The consolidated and condensed consolidated financial statements included in the periodic reports we file with the SEC are prepared in accordance with U.S. GAAP. The preparation of financial statements in accordance with U.S. GAAP involves making estimates, judgments and assumptions that affect reported amounts of assets, liabilities and related reserves, revenues, expenses and income. Estimates, judgments and assumptions are inherently subject to changes in the future, and any such changes could result in corresponding changes to the amounts of assets, liabilities, revenues, expenses and income. Any such changes could have a material adverse effect on our financial position and results of operations.

Increased global IT security threats. Increased global IT security threats and more sophisticated and targeted computer crime pose a risk to the security of our systems and networks and the confidentiality, availability and integrity of our data. While we attempt to mitigate these risks by employing a number of measures, including employee training, comprehensive monitoring of our networks and systems, and maintenance of backup and protective systems, our systems, networks, products, solutions and services remain potentially vulnerable to advanced persistent threats. Depending on their nature and scope, such threats could potentially lead to the compromising of confidential information, improper use of our systems and networks, manipulation and destruction of data, defective products, production downtimes and operational disruptions, which in turn could adversely affect our reputation, competitiveness and results of operations.

Item 4. Information on the Company

A. History and development of the Company.

Our legal name is Global-Tech Advanced Innovations Inc. (formerly known as Global-Tech Appliances Inc.). The Company was organized as an international business company under the laws of the British Virgin Islands on May 2, 1991 and became a publicly traded entity on April 7, 1998. The address of our registered office in the British Virgin Islands is TrustNet Chambers, P.O. Box 3444, Road Town, Tortola, British Virgin Islands, and the telephone number at that address is (284) 494-5296.

The address of our principal place of business, and the location of our executive and administrative offices, is 12/F., Kin Teck Industrial Building, 26 Wong Chuk Hang Road, Aberdeen, Hong Kong, and the telephone number at that address is (852) 2814-0601. Our e-mail address is investorrelations@global-webpage.com. Our website is located at <http://www.global-webpage.com>. The information contained on our website does not constitute a part of this annual report.

B. Business overview.

Historically, the Company's primary business was the export of a wide range of small electrical appliances to North American and European markets. However, the Company's continuing efforts to diversify its business, together with the discontinuation of our home appliance business, resulted in all of our revenues from continuing operations for fiscal 2014 being derived from the Chinese domestic telecommunications market. It is anticipated that the majority of the Company's future business is likely to be focused on opportunities in the PRC.

In fiscal 2014, we reported our results of operations in two segments: (i) electronic components and (ii) others. Through December 2013 we had a third reportable segment: electronic manufacturing services ("EMS") and through December 2011 a fourth reportable segment: home appliances. These segments were managed separately and were characterized by different originations, processes and locations. As a result of our exit from the home appliance business in January 2012 and EMS in December 2013, we began reporting these operations as discontinued operations as of March 31, 2012 and March 31, 2014, respectively. Because our segment results are reported on a continuing operations basis, we have two remaining reportable segments for fiscal 2014: (i) electronic components and (ii) others.

The electronic components and EMS businesses became reportable segments in fiscal 2007 and fiscal 2010, respectively, as a result of the separation of management functions for the businesses. The "others" segment is comprised of a number of product lines/units, which individually are not yet material and have not met the quantitative thresholds for a reportable segment, and development programs that have not materialized to date into full product businesses. The results of each segment are routinely evaluated in assessing performance and allocating resources amongst the segments.

As discussed more fully under "Discontinued Operations" below and in Note 18, "Discontinued Operations", in the accompanying consolidated financial statements, our home appliance and EMS businesses are reported as discontinued operations.

Recent Developments

Discontinued Operations

As previously disclosed and discussed elsewhere in this annual report, the Company completed its exit from the EMS business in December 2013.

Prior to its exit from the EMS business, the Company performed electronic manufacturing services for its PRC telecom customers. Using Surface Mount Technology ("SMT") equipment, we produced printed circuit boards utilizing the telecom provided chip and then assembled the whole mobile phone for them using customer supplied materials. Initial pricing for producing printed circuit boards was sufficient to invest in the necessary equipment and clean room. However, due to competition and the economic clout of the customers, pricing deteriorated in fiscal 2012 and further in fiscal 2013. At the same time our labor and utility costs were increasing by 15 to 20% per annum.

The assembly process was primarily offered to our telecom customers to encourage them to increase their subcontracting of printed circuit boards to us where our operation was profitable. Assembly was marginally profitable on a stand alone basis assuming reasonable productivity at the time we established this operation. However not only did labor costs rise but constant labor turnover caused productivity issues to the extent that assembly losses exceeded any contribution from SMT. In the year preceding the Company's exit from the EMS business, significant losses were incurred primarily due to labor cost inflation and deteriorating productivity from excessive labor turnover. Due to competition and the dominance of the Company's PRC based telecom customers, no pricing relief was likely and costs were likely to continue increasing. With no opportunity to raise prices, the only solution was to shut down the operation. Due to impairment charges and severance, a substantial charge related to the discontinuance of the EMS business was incurred in fiscal 2014.

Even if the labor productivity could be resolved, the EMS business could not be competitive in the long run when operated in Dongguan, a high cost area in China and relocating to a less costly area was not likely to generate sufficient margins to cover the cost of the move.

Lease of Former Home Appliance and EMS Facilities

With the discontinuation of the home appliance segment, certain portions of our facilities in Dongguan, PRC were no longer needed for our operation. We began leasing the space to independent third parties during fiscal 2013 and as of March 31, 2014, 76,000 square meters of production space had been leased. The average rent is RMB10 per square meter per month and the net rental income exceeded the depreciation and maintenance of the idle facilities in fiscal 2014.

With the discontinuation of the EMS segment, the surface mount and assembly equipment, clean rooms, offices and dormitories totaling 26,453 square meters were offered for lease to an independent third party to operate. Subsequent to our fiscal year end we entered into a five year lease totaling RMB63.4 million, equivalent to US\$10.2 million.

While we received a two months deposit and there are severe early termination penalties in the contract, we still rely on our lessee being successful in their business to continue receiving rental income. In the event their business is not successful they could enter bankruptcy or liquidate their company and we would have to terminate the lease and seek alternative uses for the facility.

Electronic Components

We continue to acquire new technologies in an effort to expand our capabilities in manufacturing finished products and components. These transactions are part of our long-term business strategy to gradually diversify and transform a portion of our manufacturing facility into a facility capable of producing higher-value, technology-oriented products that will allow us to leverage our existing research and development and technical management staff in Hong Kong, as well as our manufacturing infrastructure in China.

Initially we acquired Lite Array, Inc. a U.S. based technology company involved in thin film electroluminescent ("TFEL") and organic light emitting diode ("OLED") displays. We sold Lite Array's TFEL factory in China in 2003, but maintained its OLED program which we subsequently abandoned. Due to declining retail prices for OLED displays, revisions to our OLED strategy became necessary. We combined our efforts with Anwell Technologies Limited ("Anwell"), a public company in Singapore, by establishing a jointly controlled entity to develop a more cost effective process for producing OLED equipment, rather than just marketing OLED displays. Our main interest in developing OLED displays was focused on cellular phone displays, and as a result of our business contacts in the telecommunications industry in the PRC, we determined that making camera modules for cell phones was a promising business opportunity for us.

In late fiscal 2005, we established a new entity, Global Optics Limited, to produce and market complementary metal oxide semiconductor ("CMOS") camera modules ("CCMs") to cell phone manufacturers in China and to develop other products incorporating optical systems. In fiscal 2014, our net sales of CCMs and other electronic products were \$60.6 million, which represents a 7.1% decrease over fiscal 2013 net sales of \$65.2 million.

We believe the opportunity to sell CCMs and other electronic components to cellular phone and tablet computer manufacturers in the PRC continues to be a viable business for us, albeit currently at commodity-type margins and subject to intense competition. Up to last year we sourced the sensors and lenses exclusively so that we could apply our resources to the operation of a top quality clean room in our manufacturing facility in the PRC for low-cost assembly and concurrently concentrate on software development, customer integration design and product enhancements, particularly higher pixel count cameras and improved optics. We also continued developing products that incorporate CCMs for non-telecommunication applications, our primary focus being on document photo scanners, security products and medical instruments. During fiscal 2013, we invested in chip-on-board ("COB") equipment to produce existing sensors and higher pixel sensors more cost effectively. High yields are critical in this process and our initial results have been mixed primarily due to labor turnover, increased overhead and a steeper learning curve than anticipated.

All of our customers for electronic components are presently in the PRC or Hong Kong and we sell in Renminbi or U.S. dollars.

Strategy

Our primary strategy for electronic components is to provide our telecom manufacturing customers in the PRC and other Asian countries with superior cameras for their cell phones. As more consumers, both in Asia and the export markets our customers serve, require increasingly sophisticated products with enhanced features, we must develop the software and camera modules necessary to satisfy these demands. Additionally our sales of CCMs to tablet computer and PC manufacturers are growing and we continue incorporating CCMs into finished products we design and market.

Partnership with vendors. The sensors and lenses utilized in CMOS cameras are highly specialized and are only available from a small number of vendors. While the Company has no binding agreements with its vendors, we have established a long-standing and mutually beneficial relationship with a major sensor company that views our PRC based operations as an opportunity to access many of the PRC cellular phone manufacturers. It is by virtue of this relationship, as well as relationships with other vendors, that the Company receives valuable technical support essential to the business and product development programs. These relationships are critical to the development of new products and the expansion of existing product lines.

Innovative product development. Each CCM application requires its own software and integration programs. We submit multiple samples to our customers to test and evaluate. This process ensures application effectiveness and superior optical performance are achieved. We also concentrate on developing higher pixel count and clearer resolution CCMs as customer demands for such features continue to rise. Recently, we have begun designing and selling a range of security devices and photo scanners incorporating CCMs that we market primarily in the PRC.

Superior quality PRC based manufacturing. Utilizing our clean room expertise derived from OLED production, we have been able to produce high quality CCMs that demonstrate excellent reliability. This allows our PRC based customers to purchase CCMs in the PRC rather than importing them from Korea or Taiwan, and remain confident in the quality of the products they are receiving.

Expansion of manufacturing capabilities. We have invested in all of the equipment necessary to assemble modules in a Class 1000 clean room. We have added precision mounting equipment and a full range of testing apparatus to support and maintain high quality production. We continually expanded our facility from inception through fiscal 2014 as demand for CCMs continued to grow, and now have sufficient capacity to support steady growth in this business with limited additional investment. Our primary CMOS technology is CSP, or chip scale packaging, that supplies us with an integrated sensor and lens. In late fiscal 2013, we began investing in COB, or chip-on-board technology. This required construction of a class 10 clean room and investment in new equipment and processes. The investment enables us to produce higher pixel CCMs more efficiently.

Products

We started manufacturing CCMs early in fiscal 2006 primarily utilizing 0.3 megapixel CMOS sensors. Sales in fiscal 2014, 2013 and 2012 were \$60.6 million, \$65.2 million and \$54.4 million, respectively. As pricing for VGA cell phone cameras continued to decline at a rate exceeding 20% per annum, we developed higher pixel count camera modules and introduced 1.3 and 2.0 megapixel versions in fiscal 2009, 3.0 and 5.0 megapixel versions in fiscal 2010 and 8.0 megapixel versions in fiscal 2013. The original VGA camera has developed into a low margin commodity, which adversely impacts unit revenues and overall profitability. However, we will continue to provide our customers with these products as well as developing higher pixel units in fiscal 2015. Our aim in fiscals 2012 and 2013 was to reduce the share of 0.3 megapixel units to less than 50% of our unit volume, which we achieved. In fiscal 2014, we concentrated on growing our 5.0 and 8.0 pixel cameras with limited success as the market price for 2.0 units dropped sufficiently to make them very attractive for our customers to reduce costs for their basic mobile phones. We expect continuing price erosion in fiscal 2015 as capacity in the PRC exceeds demand but will continue our efforts to market more complex camera modules to improve margins.

Product Design and Development

The development group for electronic components consists of a dedicated team of software and optical engineers supported by a large number of process, electronic and clean room engineers in our factory in Dongguan. We also rely extensively on our principal sensor supplier for new technology and expanded features.

Our expenditures for design and development of electronic components were \$0.3 million, \$0.2 million and \$0.1 million in fiscal 2014, 2013 and 2012, respectively.

Manufacturing

We operate clean rooms in two of the buildings in our manufacturing complex in Dongguan. We built one class 1000 clean room in 2007 and have expanded every year since including building a 669 square meters class 10 clean room for COB production in fiscal 2013. Our production area for Guangdong Lite Array Company Limited (“DGLAD”) which includes our SMT production area with a maximum of class 1000 total is 4,886 square meters and the other working area is 2,436 square meters of which production and working areas for CCMs are 2,949 and 373 square meters respectively.

We have in place the capacity to produce up to 3 million CCMs using CSP and 1.5 million using COB per month which is sufficient to support anticipated demand for peak periods in the near term. We currently operate three COB lines whereas some of our larger competitors operate thirty. Major customers can be concerned about capacity constraints but, we have the space and necessary financial resources to expand quickly if profitable opportunities arise.

We ship our CCMs directly to our PRC customers, most of whom are located in Guangdong province, or ship to export customers from our warehouse in Hong Kong. Title for sales to PRC customers is transferred when the delivery note is “acknowledged” by the customer. Title for shipments to export customers from our warehouse passes when the customer takes physical delivery of the goods.

Quality Control

Superior quality control procedures are essential for the manufacture of electronic components. The average life expectancy of cell phones requires that each critical component performs reliably for many years. We test every CCM before shipment and our customers test every one during their assembly process. Any rejects are returned to us for further inspection, and if appropriate, rework. This is considered as a standard operating procedure in the industry. Any sensors that are defective, such that the CCM cannot be repaired, are returned to the vendor.

Suppliers

We obtain lenses, connectors and other components from a number of different vendors in Taiwan, Korea and the PRC and are not reliant on any one vendor. However, we have developed a close relationship with one vendor and purchase a majority of our CMOS sensors from them. We have preapproved and certified alternative vendors who could satisfy all of our demand if necessary at minimal additional cost.

Major customers

Sales to our largest CCMs customer Lenovo Mobile Communication Technology Ltd. amounted to \$21.7 and \$26.8 million or 33.0% and 33.0% of consolidated net sales in fiscals 2014 and 2013, respectively. Shenzhen ZTE Mobile Tech Co., Ltd. was our largest CCMs customer in fiscal 2012 and its sales accounted for \$24.2 million or 34.8% of consolidated net sales in fiscal 2012.

Our top five customers represented 60.7% of our consolidated net sales in fiscal 2014 and 65.7% of segment net sales.

Marketing

Marketing is designed to provide widespread exposure to our innovative, high-quality products and cost-effective production capabilities. Generally, we emphasize personal contact with our customers and potential customers in our facilities. While our customers rely on us for high-quality products, the ultimate consumers of the products rely on the customers’ brand name and generally do not know the identity of the manufacturer. The primary concern of our customers in maintaining a relationship with us is buying better performing products at competitive prices. We believe that innovation is the key for both our customers and us in this regard.

While price and production capacity are still the main criteria in securing sales, our software and integration capabilities are still significant to our telecom customers and this helps to offset some of the commodity nature of this business. Additionally, as a result of technical advances in our development programs, we are now able to market our products to top tier consumer electronic brands in China as well as governmental and financial agencies. We continue upgrading our scanning software to enable bureaucracies to record a wider variety of documents and script and are attempting to obtain local and national government accreditation for our products.

Competition

Competition in the electronic components market is intense and growing with many new well financed entrants. However, since the market for cellular phone cameras continues to expand in China and its export markets, we believe that in the future demand will continue to meet or exceed our capacity; provided, however, that margins may not remain at current levels without productivity improvements. As we become a more significant supplier to certain large PRC cell phone manufacturers, expand our software and integration capabilities and continue expanding our capacity, we are realizing small competitive advantages which we hope will improve our margins.

Competition is also intense in the security devices market. We hope to take advantage of our relationships with certain real estate companies to gain a competitive edge in this market.

While competition is strong in the scanner market, especially given the number of products already on the market, we believe our software incorporates a number of superior features. Growth in this business will be somewhat dependent on the specifications reflected in government procurement practices.

Intellectual Property Rights

We currently hold 102 patents, primarily registered in the PRC. We rely primarily upon a combination of trademark, copyright, know-how, trade secrets and contractual restrictions to protect our intellectual property rights. There can be no assurance that steps taken by us to protect these proprietary rights will be adequate to prevent misappropriation of the technology or the independent development of similar technology by others.

Others

The primary emphasis in Others over the previous three fiscal years has been to develop a medical instrument business for the PRC domestic market. We also continue to experiment and carry out modest development work in other areas.

Dongguan Microview Medical Technology Company Limited was incorporated in China to provide an operating entity to house our medical instrument business, which has moved from the development stages into an operational business. This business requires a manufacturing environment certified by Chinese FDA authorities and all medical products are subject to numerous approval processes. Our initial product, a disposable cannula incorporating a CMOS camera along with an integrated workstation, recently received Chinese FDA approval. Our product is now used in over 213 hospitals in China and in nine provinces (Guangxi, Hebei, Jiangsu, Shandong, Guangdong, Xinjiang, Anhui, Chongqing and Shanghai), the official hospital reimbursement rate has been established which is required for any medical product for system wide use. Two further products have recently received Chinese FDA approval. Growth in this business depends on the number of doctors trained to use our instruments and we currently are increasing the number of physician trainers we retain. We also have developed three additional medical instruments currently undergoing field trials as part of the Chinese FDA certification process.

Late in fiscal 2012 we established a subsidiary, Joke Media Limited, with the intent to install media displays for developing and distributing advertising and entertainment content for use in shopping centers, restaurants and hotels. We installed a trial system during fiscal 2013.

We determined from this trial that the economics were not favorable compared to traditional billboard advertising and have therefore refocused the business on billboards at recreational facilities. Initial results have been positive and generated an immaterial cash flow in fiscal 2014.

Strategy

The market for medical instruments in China is growing substantially but entry into the market is restricted by established hospital and distributor systems and product and procedure pricing is subject to approval of the provincial government where each hospital is located. Additionally, securing PRC FDA approval of our products requires extensive trials, which can be time consuming and expensive. To date our disposable cannula and workstation have received the necessary PRC FDA approvals and we are slowly achieving entry into the Guangdong Province market. We intend to expand our product offerings, all of which will be compatible with the workstation developed for our initial cannula. As with the cannula, governmental approval and acceptance by distributors and provincial approval of product pricing will dictate the success of future products. Our growth will also depend on the willingness of consumers in the PRC and elsewhere to pay a premium for products that improve the safety of existing procedures.

Our strategy for our media business is to install traditional billboard advertising in recreational facilities.

Product Design and Development

The principle development work in “Others” over the last two years has been devoted to medical instruments and some solar devices. Development expenses for “Others” were approximately \$160,000, \$174,000 and \$182,000 in fiscal 2012, 2013 and 2014, respectively.

Discontinued Operations

Home Appliances. The home appliance segment became a discontinued operation in fiscal 2012. The operation was closed down in January 2012 and any remaining contractual product obligations were subcontracted to alternate manufacturers. Most of the equipment was fully depreciated or written down to scrap value which is minimal. The equipment is being stored and available for sale. In the event any such equipment was sold, the Company would recognize a gain in discontinued operations. Due to the high cost of labor and the continuing migration of PRC manufacturing, the Company is not competitive and therefore will not re-establish the business.

EMS. Prior to its discontinuation of the EMS segment, the Company performed electronic manufacturing services for its PRC telecom customers. Using surface mount technology (“SMT”) equipment, we produced printed circuit boards utilizing the telecom provided chip and then assembled the whole mobile phone for them using customer supplied materials. Initial pricing for producing printed circuit boards was sufficient to invest in the necessary equipment and clean room. However, due to competition and the economic clout of the customers, pricing deteriorated in fiscal 2012 and fiscal 2013. At the same time labor and utility costs were increasing by 15 to 20% per annum.

The assembly process was primarily offered to our telecom customers to encourage them to increase their subcontracting of printed circuit boards to us where our operation was profitable. Assembly was marginally profitable on a standalone basis assuming reasonable productivity at the time we established this operation. However not only did labor costs rise but constant labor turnover caused productivity issues to the extent that assembly losses exceeded any contribution from SMT. With no opportunity to raise prices, the only solution was to shut down the operation. Due to impairment charges and severance, a substantial charge was incurred in fiscal 2014.

Both home appliance and EMS were businesses that could not be competitive in the long run, when operated from Dongguan, a high cost area in China. Relocating to a less costly area was not likely to generate sufficient margins to cover the cost of the move.

Rental Operation

Following the discontinuation of the home appliance and EMS businesses, a determination as to the future use of the facilities that previously housed these operations was necessary. At the time these facilities were originally constructed, they were located on the periphery of Qingxi City, an almost exclusively industrial area. Since this time, the areas surrounding these facilities have seen slow but continual development and a shift away from traditional manufacturing.

Based on the shift in the property use of the surrounding areas, the continued use of a number of these facilities for traditional manufacturing operations was no longer appropriate. Accordingly, these facilities were leased to a number of independent entities as storage space. Typical leases are for one year at approximately RMB120 (US\$19) per square meter per annum.

In early fiscal 2015, we entered into five-year lease agreements with an independent third party that will operate our EMS facility including offices, clean rooms, equipment and production areas. The terms of the lease protect us in the case of any default. (See Exhibit 4-16 and 4-17 for details of the leases.) However, in the event of the bankruptcy or financial liquidation of the lessee company, we may not be able to collect damages and the deposit we retain may not be sufficient to cover the cost of recovering our facility.

The facilities housing our remaining operations occupy a small contiguous area in one corner of the compound and will not preclude the future development when such a determination is made.

Managements short term plans are to generate sufficient rental income at the property to cover maintenance, depreciation, local taxes and common charges associated with the leased space. At present we have no plans to develop the property further but expect at some time in the future opportunities will arise to get more profitable use of the significant contiguous land area we occupy.

Foreign Issuer Considerations

Because we are a foreign issuer incorporated in the British Virgin Islands and we conduct our operations and own assets primarily in China and Hong Kong, our operations and assets are subject to significant political, economic, legal and other uncertainties in China, Hong Kong and, in some instances, the British Virgin Islands. These uncertainties include the following:

Chinese government regulation. Our operations and assets in China are subject to significant political, economic, legal and other uncertainties. Changes in policies by the Chinese or local governments resulting in:

- changes in laws and regulations, or the interpretation and enforcement of existing laws and regulations,
- confiscatory or increased taxation,
- restrictions on currency conversion, imports and sources of supply,
- import duties,
- currency revaluation, or
- the expropriation of private enterprise

The occurrence of any of the events listed above could have a material adverse effect on our business, results of operations and financial condition. Under its current leadership, the Chinese government has been pursuing economic reform policies, including the encouragement of private economic activity and greater economic decentralization. There can be no assurance, however, that the Chinese government will continue to pursue such policies, that such policies will be successful if pursued or that such policies will not be significantly altered from time to time without notice. Following the Chinese government's program of privatizing many state-owned enterprises, the government has attempted to augment its revenues through increased tax collection. Continued efforts to increase tax revenues could result in increased taxation expense being incurred by us. Economic development may be limited as well by:

- the imposition of austerity measures intended to reduce inflation, increase taxes or reform unprofitable state owned enterprises,
- the inadequate development of infrastructure, and
- the potential unavailability of adequate power and water supplies, transportation, communications and raw materials and parts.

The Chinese government regulates the import into China of certain raw materials used by us in our manufacturing process and taxes the importation of certain capital equipment. The approval of imports by the government is based to some extent on the lack of qualified domestically produced products and strategic plans for the development of local Chinese industry. There can be no assurance that the government's policies will continue to allow the raw materials we require to be imported into China. There also can be no assurance that the government's policies will not impose import fees, which would raise the cost of raw materials or capital equipment. Imposing such fees could have a material adverse effect on our business, results of operations and financial condition.

Chinese legal system. China's legal system is a civil law system that is based on written statutes and in which decided legal cases have little precedential value. China does not have a well-developed, consolidated body of laws governing foreign investment enterprises. As a result, the administration of laws and regulations by government agencies may be subject to considerable discretion. As legal systems in China develop, foreign business entities may be adversely affected by new laws, changes to existing laws or interpretations of existing laws and preemption of provincial or local laws by national laws. In circumstances where adequate laws exist, it may not be possible to obtain swift and equitable enforcement of the laws.

Chinese environmental law. Environmental protection in China is regulated in accordance with the Environmental Protection Law of the People's Republic of China, which became effective on December 26, 1989. The law sets national standards for environmental quality and monitoring, as well as the utilization of natural resources and the reduction of pollution. As a manufacturer, we are subject to annual inspections by the local branch of the SEPA. We have passed our most recent inspection and believe that we are in material compliance with all applicable environmental laws. There can be no assurance, however, that we will continue to pass future inspections or that we will continue to be in material compliance with all applicable environmental laws in the future. Environmental regulation is evolving in China and the imposition of additional or more stringent environmental laws by China, or more stringent enforcement of existing laws, could cause us to have to make substantial additional capital expenditures to maintain compliance in the future. The necessity to make such additional capital expenditures could have a material adverse effect upon our results of operations and financial condition.

Conditions in Hong Kong. Hong Kong, the jurisdiction of incorporation of six of our subsidiaries and the location of our headquarters, was restored to China on July 1, 1997. We conduct marketing, administration and other activities in Hong Kong. Accordingly, we may be adversely affected by factors affecting Hong Kong's political situation and its economy or its international political and economic relations.

No treaty exists between Hong Kong and the United States providing for the reciprocal enforcement of foreign judgments. Accordingly, Hong Kong courts might not enforce judgments predicated on the federal securities laws of the United States, whether arising from actions brought in the United States or, if permitted, in Hong Kong.

C. Organizational structure.

The following chart sets forth the significant subsidiaries owned, directly or indirectly, by the Company as of June 30, 2014.

Name	Abbreviation	Principal Activities	Place of Incorporation	Percentage of Equity Interest Held
Global Display Holdings Limited	GDH	Investment Holding	British Virgin Islands	100.0
Kwong Lee Shun Trading Company Limited	KLS	Leasing of a property	Hong Kong	100.0
GT Investments (BVI) Limited	GTI	Investment Holding	British Virgin Islands	100.0
Consortium Investment (BVI) Limited	CIBL	Investment Holding	British Virgin Islands	100.0
Global Optics Limited	GOL	Trading of raw materials and electronic and optical components	Hong Kong	100.0
Dongguan Wing Shing Electrical Products Factory Company Limited	DWS	Factory complex rental and maintenance	China	100.0
Guangdong Lite Array Company Limited (formerly known as Dongguan Lite Array Company Limited)	DGLAD	Developing, manufacturing and marketing of electronic and optical components	China	100.0
Dongguan Microview Medical Technology Company Limited	DMC	Manufacturing and distribution of medical instruments	China	100.0
Joke Media Limited	SLD	Media services	China	100.0
Lite Array Holdings Limited	LAH	Investment Holding	British Virgin Islands	30.0
Litewell Technology (HK) Limited	LWH	Design and trading of OLED production equipment and corresponding materials	Hong Kong	30.0
Dongguan Litewell (OLED) Technology Limited	DLW	Research & Development of OLED equipment	China	30.0
Global Household Products Limited	GHP	Inactive	Hong Kong	100.0
Pentalpha Medical Limited	PEL	Inactive	Hong Kong	100.0
Pentalpha Hong Kong Limited	PHK	Inactive	Hong Kong	100.0
Global-Tech USA, Inc.	GTU	Provision of consultation services	United States	100.0
Global Lite Array (BVI) Limited	GLA	Investment Holding	British Virgin Islands	76.75
Lite Array, Inc.	LAI	Inactive	United States	76.75

Global-Tech (“GAT”) is a holding company, which does not engage in daily business operations other than owning subsidiaries and holding investments in operating and trading companies. GT Investments (BVI) Limited is the immediate holding company of Pentalpha Hong Kong Limited, Pentalpha Medical Limited and Global Household Products Limited.

Consortium Investment (BVI) Limited is the immediate holding company of Lite Array Holdings Limited and Kwong Lee Shun Trading Company Limited. On March 17, 2006, CIBL entered into an agreement with Anwell, a publicly listed company in Singapore, to form a joint venture company which Anwell invested in by purchasing a 70% interest in LAH. LAH is the holding company of Litewell Technology (HK) Limited and Dongguan Litewell (OLED) Technology Limited. LAH and its subsidiaries’ fiscal year end is December 31, which is different from the Company.

Global Display Holdings Limited is the immediate holding company of Global Optics Limited and Dongguan Microview Medical Technology Company Limited.

Global Lite Array (BVI) Limited is the immediate holding company of Lite Array, Inc.

Wing Shing Overseas Limited and Global Appliances Holdings Limited were dissolved on May 28, 2013 and September 12, 2013, respectively.

Guangdong Lite Array Company Limited was formerly known as Dongguan Lite Array Company Limited.

D. *Property, plant and equipment.*

China

Our manufacturing facility located in Dongguan, China has a land use area of 207,300 square meters. We have the right to use such land, which we acquired from the Dongguan local government.

We have obtained a land use right certificate for a substantial portion of land with an aggregate area of 183,900 square meters as well as the related property ownership certificates for our production premises. The formal grant of land rights is required should we decide to sell this property. Although we presently have no intention to pursue this option, the local government still has the right to demand additional transfer fees before issuance of any land use right certificates. The application for the remaining portion of land is currently in process with the appropriate governmental agencies in China. Upon expiration of the 50-year lease term of the land, we have the right to extend the lease for an additional 20 years upon payment of a fee of approximately \$23.00 per square meter for the whole land use right extension. The land use rights lease for the Dongguan facility between the Company and the People's Government of Qingxi Township, Dongguan City, Guangdong Province is for a term of 50 years ending August 7, 2043.

The manufacturing complex includes 40 buildings, of which 12 buildings are dormitories with accommodation for up to 4,500 employees and cafeterias and recreational areas. The remaining buildings used to house manufacturing, quality control, warehousing, product development and administrative functions. We have obtained a portion of the property ownership certificates for buildings (29 out of total of 40 properties) and have freely transferable land use rights for a period of 50 years for the land upon which our buildings and facilities are located. Excluding dormitories, cafeterias and recreation areas, roads and a portion of land reserved for future expansion, our completed production area is approximately 174,000 square meters.

As a result of our exit from the home appliance and EMS businesses, approximately 122,000 square meters of production space and 10,000 square meters of dormitories were no longer needed for our operation. We began leasing a portion of this space to independent third parties in fiscal 2013 and as of March 31, 2014, we had leased 76,000 square meters of production space to be used as warehouse space. In addition, in April 2014, we entered into a five-year lease agreement to rent out our former EMS production facility and equipment plus office space which totalled 26,453 square meters. It is expected that our net rental income after depreciation, maintenance, taxes and common charges will contribute significantly to reduce our overall facility costs in fiscal 2015.

We purchased office space of approximately 1,000 square meters for RMB27.7 million (equivalent to US\$4.5 million) in Shenzhen and relocated our electronic components sales staff and administrative personnel from a leased office in Shenzhen in August 2013.

We also rent an office in Guangzhou, the PRC of approximately 235 square meters at an annual rent of approximately US\$32,000.

Hong Kong

In April 2008, we entered into three renewal lease agreements with Wing Shing Products Company Limited ("Wing Shing Products"), a company owned in part by our Chief Executive Officer, John Sham, with a total area of 25,690 square feet of space leased for our executive offices, administrative group and warehouse at a rate of approximately \$173,000 per annum. On January 1, 2012, we amended the lease agreement with Wing Shing Products that reduced the total area to 11,010 square feet at a rate of approximately \$70,786 per annum. In April 2012, we amended the lease agreement with Wing Shing Products to increase the rent to \$113,043 per annum. For the period beginning in February 2013 through March 2014, we reduced the space we leased to 7,340 square feet at an annual rent of \$75,420 per annum. Effective April 1, 2014, Wing Shing Products increased the annual rent to US\$92,800 per annum which represents the fair market value for such space.

We believe that our administrative office space in Hong Kong and China will be adequate for the operation of our business for the foreseeable future. We believe that our manufacturing facility in Dongguan will also be adequate for the operation of our business for the foreseeable future. We anticipate that any further expansion of our Electronic Component business could increase utilization at the Dongguan facility and eventually require us to renovate one of the buildings formerly used in the operation of our home appliance business.

Item 4A. Unresolved Staff Comments.

Not applicable.

Item 5. Operating and Financial Review and Prospects.

Except for statements of historical facts, this section contains forward-looking statements such as “expect,” “anticipate,” “project,” “believe,” “plan,” “intend,” “seek,” “should,” “estimate,” “future” or variations of such words and other similar expressions to identify forward looking statements. You should not place undue reliance on these forward-looking statements. Forward-looking statements are not a guarantee of our future performance or results and our actual results could differ materially from those anticipated in these forward-looking statements as a result of certain factors, including those set forth under the sections of this Report entitled Item 3D—“Risk factors” and Item 4B—“Business overview.” This section should be read in conjunction with our Consolidated Financial Statements included in Item 18 of this annual report.

Management’s Discussion and Analysis of Financial Condition and Results of Operations.**A. Operating Results.****Fiscal Year Ended March 31, 2014 Compared with Fiscal Year Ended March 31, 2013**

In fiscal 2014, we reported our results of operations in two segments: (i) electronic components and (ii) others. Through December 2013, we had a third reportable segment: EMS. As a result of our exit from the EMS business in December 2013, we began reporting the operation as discontinued operations as of March 31, 2014. The segment was managed separately and was characterized by different originations, processes and locations. Through December 2011 we had a fourth reportable segment: home appliances. As a result of our exit from the home appliance business in January 2012, we began reporting this operation as a discontinued operation as of March 31, 2012. Because our segment results are reported on a continuing operations basis, we have two remaining reportable segments for fiscal 2014: (i) electronic components; and (ii) others.

The following discussion of our financial condition and results of operations excludes the results of our discontinued operations unless otherwise noted. See Note 18, “Discontinued Operations” in the accompanying consolidated financial statements for further discussion of these operations.

Electronic Components segment

	<u>Fiscal Years Ended March 31,</u>		
	<u>2014</u>	<u>2013</u>	<u>2012</u>
Net sales	100.0%	100.0%	100.0%
Cost of goods sold	(92.4)	(86.2)	(87.9)
Gross profit	7.6	13.8	12.1
Selling, general and administrative expenses	(10.8)	(8.6)	(7.5)
Operating income	<u>(3.2%)</u>	<u>5.2%</u>	<u>4.6%</u>

Net sales. Our net sales include sales of electronic components (primarily CCMs), products incorporating CCMs and raw materials for customer prototypes. Net sales consist of gross amounts invoiced less discounts and VAT, if applicable. Sales are typically denominated in RMB for sales in the PRC and denominated in US\$ for export sales. Our most significant material costs are typically denominated in dollars but all our other costs are in local currency.

The CCM business, which constitutes the bulk of our net sales of electronic components, was established in mid-fiscal 2006, and expanded rapidly until the worldwide economic slowdown in the fall of 2008. Recently, the business had seen gradual improvement as the Chinese telecommunication market resumed growth but pricing continued to deteriorate. Net sales in fiscal 2014 decreased by 7.1% to \$60.6 million from net sales of \$65.2 million in fiscal 2013 primarily due to a less favorable mix of business as well as price reductions.

Unit sales in fiscal 2014 increased by 8.0% to 24.6 million units of which 31% were commodity type VGA units and approximately 14% were produced using our new chip on board process.

Despite our efforts to promote our higher pixel camera modules for laptops and note pads, our telecom business was still responsible for the majority of sales revenue, where competition continues to be intense.

While we expect volume to increase significantly in fiscal 2015, the mix of the business will be critical to improving profitability.

Our product sales of scanners and security device incorporating CCMs did not meet our expectations in fiscal 2014, but amounted to \$3.7 million of business compared to \$3.8 million in the prior year. We expect a modest increase in this business in fiscal 2015 primarily from our range of document scanners, but establishing a more effective distribution network will be essential for this business to grow materially.

Gross profit. Gross profit in fiscal 2014 was \$4.6 million or 7.6% of net sales compared to \$9.0 million or 13.8% of net sales in fiscal 2013. Gross profit in the CSP process is directly related to the mix of business since unit labor and overhead is the same for each type of CCM. Therefore, the higher the pixel count (and thus a higher price), the greater the contribution which is why improving the mix of the business has a major impact on gross profit. In the COB process yields and productivity are key to profitability.

In the CSP process, sensors and lenses are the key components. Their prices have declined at a similar rate to our core prices and material costs as a percentage of sales were similar in fiscal 2014 and 2013 at approximately 76% of sales.

In the COB process chip yield is critical to reducing material cost. Fiscal 2014 was our first full fiscal year of COB production thus productivity and yields were less than expected particularly after Chinese New Year as there was significant employee turnover.

Our labor cost increased by 50% over the prior year, overhead by 21% and depreciation doubled over the prior year, most of the increases being associated with the establishment of the COB operation. These increased costs, along with declining prices seriously impacted our gross margin. With competition continuing to drive down prices to get more business, we have to reduce our costs by improving productivity and continue bringing innovation to our product line.

For this segment to regain profitability in fiscal 2015, we have to increase volume production with no further increase in costs, improve yields and the mix of the business. Plans have been developed to achieve these goals but further price deterioration beyond what we anticipate would have a adverse impact on our plans.

Selling, general and administrative expenses. SG&A expenses in fiscal 2014 were \$6.5 million or 10.8% of net sales compared to \$5.6 million or 8.6% of net sales in fiscal 2013. The primary components of SG&A are personnel costs, occupancy costs for our PRC staff where the entire CCM operation is located, and development and prototyping expense. Our personnel costs rose primarily due to the impact of continuing wage inflation. We spent \$0.3 million on development programs in fiscal 2014 and do not expect it to increase significantly in fiscal 2015.

Operating income (loss), net. Operating loss in fiscal 2014 was approximately \$1.9 million or 3.2% of net sales compared to an operating income of approximately \$3.4 million or 5.2% in fiscal 2013.

Additionally our overhead increased much more than plan as indirect labor was added to help improve productivity.

Other income (expenses), net. Other income (expense), net in fiscal 2014 was a gain of approximately of \$1.0 million compared to a gain of \$0.4 million in fiscal 2013. The primary component of other income (expenses), net in both years was government grants that support "high-tech" activities in the PRC domestic market.

Segment income (loss). Segment loss in fiscal 2014 was \$1.1 million compared to a segment profit of \$3.7 million in fiscal 2013.

Others segment

Net sales of other products in fiscal 2014 were approximately \$2.1 million, and were primarily from sales of disposable medical devices, motors and small appliances. Net sales of other products in fiscal 2013 were approximately \$1.6 million, which were primarily from sales of disposable medical devices, motors and small appliances.

We generated a gross profit of approximately of \$99,000 in fiscal 2014, compared to approximately \$1.0 million in fiscal 2013.

The operating loss in fiscal 2014 was approximately \$3.1 million, compared to approximately \$1.4 million in fiscal 2013. Selling, general and administrative expenses increased \$0.7 million from 2013 due to the accounting for many of our common charges in our Dongguan facility that had previously been absorbed by the home appliance business as well as added personnel for our medical device business and an increase in government fees and taxes. The segment loss in fiscal 2014 was \$1.5 million, compared to \$1.2 million in fiscal 2013. In both years the primary cause for losses was our initial development and distribution programs for medical products and in fiscal 2014 the additional common charges further increased the loss.

Corporate

Selling, general and administrative expenses. Non-allocated corporate expenses were \$3.5 million in fiscal 2014 compared to \$4.3 million in fiscal 2013. The primary reason for the decline was due to a decrease in stock compensation expenses in fiscal 2014.

Interest income, net. Interest income, net was approximately \$0.8 million in fiscal 2014 and \$1.6 million in fiscal 2013, including \$84,000 and \$0.8 million reversal of potential interest related to potential tax adjustments. In fiscal 2014, we had an average invested fund balance, which includes cash and cash equivalents, restricted cash, time deposits and available-for-sale investments, of approximately \$39.2 million, with an average rate of return of 2.0% as compared to an average invested balance of approximately \$48.0 million, with an average rate of return of 1.75% in fiscal 2013.

Other income (expenses), net. In fiscal 2014, other income (expenses), net from continuing operations was \$2.4 million compared to \$0.6 million in fiscal 2013. Rental income in fiscal 2014 was \$1.3 million compared to \$0.2 million in the prior year and government grants were \$0.8 million in fiscal 2014 compared to \$0.4 million in fiscal 2013. In fiscal 2014, we incurred a foreign exchange loss of \$0.1 million compared to an immaterial gain in fiscal 2013. (See Note 16—Other income (expenses), net of Notes to Consolidated Financial Statements for a detailed breakdown of the components of Other income (expenses), net).

Income tax. Our financial statements include a provision for income tax benefit of approximately \$0.2 million in fiscal 2014 which mainly represents a reversal of potential tax provisions, compared to a benefit of \$0.8 million in fiscal 2013 which also primarily represents a reversal of potential tax provisions.

We are not subject to taxation in the British Virgin Islands, however we are subject to income tax in each jurisdiction where our subsidiaries do business. Certain of our income is earned in China, where the standard tax rate is 25.0%, and in Hong Kong, where the corporate tax rate is 16.5% for both fiscal 2014 and 2013, on income from operations but excluding interest, dividend income and capital gains. In Hong Kong, estimated taxes for each fiscal year are paid during the year based on the prior year's taxable earnings from operations. An adjustment in the form of additional taxes paid or refunds to us is then made in the following fiscal year based on actual taxable earnings. Therefore, in each fiscal year, our statement of operations and comprehensive income reflects a provision for estimated taxes for the current fiscal year and adjustments for over- or under-provision with respect to the prior fiscal year.

Our Chinese subsidiaries are subject to income tax based upon the taxable income as reported in the statutory financial statements prepared under Chinese accounting regulations. During the 5th Session of the 10th National People's Congress of the PRC, which was concluded on March 16, 2007, a unified enterprise income tax law, or EIT, was approved and became effective on January 1, 2008. The EIT Law introduced a wide range of changes which included the unification of income tax rates for domestic-invested and foreign-invested enterprises at 25%. Subsequently, Guangdong Lite Array qualified as a High and New Technology Enterprise ("HNTE") which entitles it to pay a preferential tax rate of 15% so long as it remains classified as an HNTE. Taxes in China are based upon the financial statements of our four PRC subsidiaries based upon their preparation in accordance with PRC GAAP. Certain inter-company transactions could be interpreted by the local authorities as taxable transactions. In accordance with the provisions of FASB ASC 740, such transactions have been assessed and reflected in the computation of income taxes payable. To the extent that we have income effectively connected with the conduct of a U.S. trade or business in any fiscal year, we would be subject to U.S. taxes at an effective rate up to 55%. We do not believe that our current method of operations subjects us to U.S. taxes.

Loss from continuing operations. The loss from continuing operations in fiscal 2014 was \$5.0 million compared to income of \$0.6 million in fiscal 2013.

Loss from discontinued operations. Loss from discontinued operations, net of tax was \$5.5 million in fiscal 2014 compared to \$2.6 million in fiscal 2013. Discontinued operations represent the home appliance and EMS segments that ceased operation in January 2012 and December 2013, respectively.

Net loss. Net loss for the group for fiscal 2014 was approximately \$10.6 million, or \$3.47 per share, as compared to a net loss of \$2.0 million, or \$0.65 per share for fiscal 2013.

A. Operating Results.

Fiscal Year Ended March 31, 2013 Compared with Fiscal Year Ended March 31, 2012

In fiscal 2013, we reported our results of operations in three segments: (i) electronic components; (ii) electronic manufacturing services ("EMS"); and (iii) others. These segments were managed separately and were characterized by different originations, processes and locations. Through December 2011 we had a fourth reportable segment: home appliances. As a result of our exit from the home appliance business in January 2012, we began reporting this operation as discontinued operations as of March 31, 2012. Because our segment results are reported on a continuing operations basis, we have three remaining reportable segments for fiscal 2013: (i) electronic components; (ii) electronic manufacturing services ("EMS"); and (iii) others.

The following discussion of our financial condition and results of operations excludes the results of our home appliance business unless otherwise noted. See Note 18, “Discontinued Operations” in the accompanying consolidated financial statements for further discussion of these operations.

Electronic Components segment

	<u>Fiscal Years Ended March 31,</u>		
	<u>2013</u>	<u>2012</u>	<u>2011</u>
Net sales	100.0%	100.0%	100.0%
Cost of goods sold	(86.2)	(87.9)	(88.8)
Gross profit	13.8	12.1	11.2
Selling, general and administrative expenses	(8.6)	(7.5)	(7.1)
Operating income	<u>5.2%</u>	<u>4.6%</u>	<u>4.1%</u>

Net sales. Our net sales include sales of electronic components (primarily CCMs), products incorporating CCMs and raw materials for customer prototypes. Net sales consist of gross amounts invoiced less discounts and VAT, if applicable. Sales are typically denominated in RMB for sales in the PRC and denominated in US\$ for export sales. Our most significant material costs are typically denominated in dollars but all our other costs are in local currency.

The CCM business, which constitutes the bulk of our net sales of electronic components, was established in mid-fiscal 2006, and expanded rapidly until the worldwide economic slowdown in the fall of 2008. Recently, the business has seen gradual improvement as the Chinese telecommunication market has resumed growth. Net sales in fiscal 2013 increased by 19.8% to \$65.2 million from net sales of \$54.4 million in fiscal 2012.

Unit sales in fiscal 2013 increased by 11.2% to 22.8 million units of which 34% were commodity type VGA units and the balance higher pixel units. However, one of our most significant customers downgraded from 5.0 megapixels to 3.0 megapixels in their primary export cellphones and our high value 5.0 CCMs only accounted for 10% of units, considerably below expectations. Unit prices declined 20% for VGA units and 25% for the other units during the year as supply in China continued to exceed demand.

We expect unit sales will increase marginally in fiscal 2014, but we expect a better mix and are optimistic that pricing will remain stable. Additionally with our investment in COB, we will be able to market 5.0 and 8.0 megapixel CCMs for tablets and 4G phones at more competitive prices.

Our product sales of scanners and security device incorporating CCMs did not meet our expectations in fiscal 2013, but amounted to \$3.8 million of incremental business. We expect a modest increase in this business in fiscal 2014 primarily from our range of document scanners, but establishing a more effective distribution network will be essential for this business to grow materially.

Gross profit. Gross profit in fiscal 2013 was \$9.0 million or 13.8% of net sales compared to \$6.6 million or 12.1% of net sales in fiscal 2012. Gross profit is directly related to the mix of business since unit labor and overhead is the same for each type of CCM. Therefore, the higher the pixel count (and thus a higher price), the greater the contribution which is why improving the mix of the business has a major impact on gross profit.

Sensors and lenses, the key components in CCMs, continue to decline in cost at a similar rate as the camera modules themselves. Material costs as a percentage of sales have been gradually improving over the last three years and were at 75% in fiscal 2013 versus 78% in fiscal 2012. The improvement in 2013 was primarily due to achieving better yields from slightly lower grade VGA sensors.

The labor content for each CCM is the same regardless of pixel count but direct labor costs continue to escalate due to inflation in pay rates and benefits in excess of 10% per annum. Direct labor and overhead in fiscal 2013 were 3.6% and 7.3% of net sales respectively compared to 3.5% and 5.4%, respectively, in fiscal 2012. Overhead increased by \$1.9 million to \$4.8 million in fiscal 2013 due primarily to significant increases in social insurance rates and utilities, both of which are likely to increase again in fiscal 2014.

There is an indication that our cost increases may be more manageable as the growth rate in China is slowing, so volume growth and an improving mix of business along with cost savings from COB production will remain critical to improving profitability in 2014.

Selling, general and administrative expenses. SG&A expenses in fiscal 2013 were \$5.6 million or 8.6% of net sales compared to \$4.0 million or 7.5% of net sales in fiscal 2012. The primary components of SG&A are personnel costs, occupancy costs for our PRC staff where the entire CCM operation is located, and development and prototyping expense. Our personnel costs rose primarily due to the impact of continuing wage inflation. We spent \$0.2 million on development programs in fiscal 2013 and do not expect it to increase significantly in fiscal 2014.

Operating income, net. Operating income in fiscal 2013 was approximately \$3.4 million or 5.2% of net sales compared to an operating income of approximately \$2.5 million or 4.6% in fiscal 2012.

Other income (expenses), net. Other income (expense), net in fiscal 2013 was a gain of approximately of \$0.4 million compared to a gain of \$0.5 million in fiscal 2012. The primary component of other income (expenses), net in both years was government grants that support “high-tech” activities in the PRC domestic market.

Segment income (loss). Segment profit in fiscal 2013 was \$3.7 million compared to a segment profit of \$2.9 million in fiscal 2012.

EMS segment

EMS consists of two allied functions: SMT automated processing for printed circuited board assembly and final assembly and testing of cell phones. Both functions serve telecommunication customers in the PRC. While assembly is a low margin business, offering this service to our telecom customers has helped secure their business for our more profitable CCM and SMT business.

This business became a separate segment in fiscal 2010.

	<u>Fiscal Years Ended March 31,</u>		
	<u>2013</u>	<u>2012</u>	<u>2011</u>
Net revenues	100.0%	100.0%	100.0%
Operating costs	(98.0)	(73.6)	(82.8)
Gross profit	2.0	26.4	17.2
Selling, general and administrative expenses	(27.1)	(24.8)	(21.4)
Operating income (loss)	<u>(25.1)%</u>	<u>1.6%</u>	<u>(4.2)%</u>

Net revenues. Our net revenues include fees for SMT processing and assembly of mobile phones. Revenues in fiscal 2013 were \$14.3 million compared to \$14.4 million in fiscal 2012.

At the revenue levels achieved in fiscal 2013, we were still operating at less than optimal production. Delays in securing key new customers, due primarily to general slowing of export markets, continued to impact the business. Expansion of this business will continue to depend on our ability to attract new customers, particularly from outside the PRC.

As discussed previously in this annual report, we have made significant capital investments in the expansion of the EMS business in order to establish an efficient level of production capacity. We have the capacity to generate up to \$25 million in annual revenue, with no further significant investment in capital but do not expect to achieve this level of business in the immediate future.

Gross profit. Gross profit in fiscal 2013 was approximately \$0.3 million or 2.0% of revenues compared to a gross profit of \$3.8 million or 26.4% in fiscal 2012. Gross profit in fiscal 2013 was impacted materially by major labor issues. Turnover was high which led to poor productivity and the quality of the labor and supervision available in Dongguan was not acceptable even though wages and benefits were increased to a very competitive level. Unless labor productivity is improved significantly in the near future, certain EMS assembly services will no longer be offered to our customers. Direct labor was \$5.9 million and overhead excluding depreciation was \$7.4 million or 41.4% and 51.9% respectively of net revenues compared to \$4.2 million and \$5.8 million in fiscal 2012 or 28.8% and 40.0% of net revenues respectively. The principal elements of overhead are supervisory labor of \$2.4 million, utilities, software testing charges and PRC social insurance for labor. Depreciation in fiscal 2013 was approximately \$972,000 compared to \$918,000 in fiscal 2012.

Selling, general & administrative expenses. SG&A expenses in fiscal 2013 were \$3.9 million or 27.1% of revenues and were \$3.6 million or 24.8% of revenue in fiscal 2012. The primary components of SG&A are personal and travel and entertainment costs for the sales and marketing group. The compensation programs for our sales staff are currently being amended to focus on adding new customers and achieving price increases. Included in SG&A in fiscal 2013 were development costs of \$0.4 million compared to \$0.3 million in 2012.

Operating income (loss), net. Operating loss in fiscal 2013 was approximately \$3.6 million or 25.1% of net revenues compared to an operating income of approximately \$0.2 million or 1.6% of net revenues in fiscal 2012. In 2014, we will reduce our overhead and SG&A staff levels to reflect changes in our EMS business.

Other income (expenses), net. Other income, net in fiscal 2013 was approximately \$262,000, whereas, in fiscal 2012, this comprised of other expenses, net of approximately \$8,200. In fiscal 2013 the primary other income was a handling fee related to procuring materials for a customer and paying the associated VAT.

Segment income (loss). Segment loss in fiscal 2013 was approximately \$3.3 million compared to segment income of approximately \$0.2 million in fiscal 2012.

Others segment

Net sales of other products in fiscal 2013 were approximately \$1.6 million, and were primarily from sales of disposable medical devices, motors and small appliances. Net sales of other products in fiscal 2012 were approximately \$0.8 million, which were primarily from sales of disposable medical devices.

We generated a gross profit of approximately of \$1.0 million in fiscal 2013, compared to approximately \$0.3 million in fiscal 2012.

The operating loss in fiscal 2013 was approximately \$1.4 million, compared to approximately \$0.7 million in fiscal 2012. Selling, general and administrative expenses increased \$1.5 million from 2012 due to the accounting for many of our common charges in our Dongguan facility that had previously been absorbed by the home appliances business as well as added personnel for our potential medical device business and an increase in government fees and taxes. The segment loss in fiscal 2013 was \$1.2 million, compared to \$0.6 million in fiscal 2012. In both years the primary cause for losses was our initial development and distribution programs for medical products and in fiscal 2013 the additional common charges have further increased the loss.

Corporate

Selling, general and administrative expenses. Non-allocable corporate expenses were \$4.3 million in fiscal 2013 compared to \$2.0 million in fiscal 2012. Expenses in fiscal 2013 included non-cash stock compensation expenses of approximately \$267,000 compared to \$34,000 in the prior year. Corporate expenses in fiscal 2013 reflected an increase of approximately \$2.3 million mainly due to an increase of stock compensation expenses, insurance premiums and corporate salaries costs. Many of these costs are reflected in discontinued operations in prior years. The primary components of corporate expenses are audit fees and legal and professional fees (approximately \$627,000 in fiscal 2013 as compared to approximately \$673,000 in fiscal 2012) and the cost of senior management and administrative staff of \$1.7 million compared to \$0.9 million in fiscal 2012 (also \$1.7 million in fiscal 2011).

Other operating income (expenses), net. Other operating income in fiscal 2012 of \$29,000 related to proceeds from the settlement of a lawsuit. No such proceeds are recorded in other operating income (expenses) in fiscal 2013.

Interest income, net. Interest income, net was approximately \$1.6 million in fiscal 2013, including \$0.8 million reversal of potential interest related to potential tax adjustments, compared to \$0.2 million which reflected an accrual for interest related to potential tax adjustments of \$0.2 million in fiscal 2012. In fiscal 2013, we had an average invested fund balance, which includes cash and cash equivalents, restricted cash and available-for-sale investments, of approximately \$48.0 million, with an average rate of return of 1.75% as compared to an average invested balance of approximately \$47.4 million, with an average rate of return of 0.8% in fiscal 2012.

Other income (expenses), net. In fiscal 2013, the major components of other income (expenses), net, in corporate included foreign exchange gains of approximately \$225,000, a tax penalty of \$258,000, rental income of \$178,000 and a loss on the disposal of fixed assets of approximately \$44,000. In fiscal 2012, the major components of other income (expenses), net, in corporate included foreign exchange gains of approximately \$167,000, loss on disposal of fixed assets of \$86,000 and a reversal of an accrual for potential litigation of US\$500,000. (See Note 16—Other income (expenses), net of Notes to Consolidated Financial Statements for a detailed breakdown of the components of Other income (expenses), net).

Income tax. Our financial statements include a provision for income tax benefits of approximately \$0.8 million in fiscal 2013 which mainly represents a reversal of potential tax provisions, compared to a provision of \$1.3 million in fiscal 2012 primarily for EIT profit tax in the PRC.

We are not subject to taxation in the British Virgin Islands, however we are subject to income tax in each jurisdiction where our subsidiaries do business. Certain of our income is earned in China, where the standard tax rate is 25.0%, and in Hong Kong, where the corporate tax rate is 16.5% for both fiscal 2013 and 2012, on income from operations but excluding interest, dividend income and capital gains. In Hong Kong, estimated taxes for each fiscal year are paid during the year based on the prior year's taxable earnings from operations. An adjustment in the form of additional taxes paid or refunds to us is then made in the following fiscal year based on actual taxable earnings. Therefore, in each fiscal year, our statement of operations and comprehensive income reflects a provision for estimated taxes for the current fiscal year and adjustments for over- or under-provision with respect to the prior fiscal year.

Our Chinese subsidiaries are subject to income tax based upon the taxable income as reported in the statutory financial statements prepared under Chinese accounting regulations. During the 5th Session of the 10th National People's Congress of the PRC, which concluded on March 16, 2007, a unified enterprise income tax law, or EIT, was approved and became effective on January 1, 2008. The EIT Law introduced a wide range of changes which included the unification of income tax rates for domestic-invested and foreign-invested enterprises at 25%. Subsequently, Guangdong Lite Array qualified as a High and New Technology Enterprise ("HNTE") which entitles it to pay a preferential tax rate of 15% so long as it remains classified as an HNTE. Taxes in China are based upon the financial statements of our two PRC subsidiaries based upon their preparation in accordance with PRC GAAP. Certain inter-company transactions could be interpreted by the local authorities as taxable transactions. In accordance with the provisions of FASB ASC 740, such transactions have been assessed and reflected in the computation of income taxes payable. To the extent that we have income effectively connected with the conduct of a U.S. trade or business in any fiscal year, we would be subject to U.S. taxes at an effective rate up to 55%. We do not believe that our current method of operations subjects us to U.S. taxes.

Income (loss) from continuing operations. The loss from continuing operations in fiscal 2013 was \$2.8 million compared to income of \$43,000 in fiscal 2012 due to the significant deterioration in income from operations.

Income (loss) from discontinued operations. Income from discontinued operations, net of tax was \$0.7 million in fiscal 2013 compared to \$1.4 million in fiscal 2012. Discontinued operations represent the home appliances segment that ceased operation in January 2012. Income in fiscal 2013 was generated from the sale of machines, materials and parts from inventory previously written off in prior years. Income from discontinued operations in fiscal 2012 represented nine and a half months of the home appliances segment.

Net income (loss). Net loss for the group for fiscal 2013 was approximately \$2.0 million, or \$0.65 per share, as compared to a net income of \$1.4 million, or \$0.46 per share for fiscal 2012.

B. *Liquidity and Capital Resources.*

Our primary source of financing historically has been cash generated from operating activities. During fiscal 2014 we did not generate cash from operating activities due primarily to the discontinuance of the EMS business and the fact that the electronic components business was operating at a loss. Additionally, we purchased an office in Shenzhen, the PRC for RMB27.7 million (equivalent to US\$4.5 million) to accommodate our administrative and marketing personnel.

Working capital as of March 31, 2014 was \$36.3 million compared to \$45.4 million as of March 31, 2013. Cash and cash equivalents, time deposits, restricted cash and short-term investments decreased \$7.8 million. Our cash and cash equivalents, time deposits and restricted cash amounted to \$38.2 million as of March 31, 2014. Of this \$16.4 million (of which \$15.0 million was originally denominated in RMB, equivalent to RMB93.0 million) was in banks in the PRC, \$13.9 million in banks in Hong Kong and the balance with financial institutions in the US. Our short-term bank loans in the PRC amounted to RMB38.9 million and RMB30.0 million (equivalent to \$6.3 million and \$4.8 million respectively) as of March 31, 2014 and 2013, respectively. As of March 31, 2014, we had short-term bank loans in Hong Kong amounted to \$1.0 million (equivalent to HK\$8.0 million). Our borrowing capacity is limited to the amount of cash we have on deposit so we have not effectively been extended credit and we are not likely to be extended credit in the PRC in the future. All of our cash and related short-term deposits and short-term investments are in very short-term safe securities.

Accounts and bills receivable were \$21.2 million at the end of fiscal 2014, compared to \$19.7 million at the end of fiscal 2013. Receivables at March 31, 2014 represented 118 days of net sales compared to 89 days of sales from continued and discontinued operations at March 31, 2013. Accounts and bills receivable for electronic components represented 128 days of sales in fiscal 2014. Our large CCM customers in China are granted credit terms and as is customary in the PRC, the bills they issue typically mature after 90 days, therefore we expect our domestic receivables to continue increasing in fiscal 2015 as sales in the PRC increase.

Our aggregate capital expenditures during fiscal 2014 and 2013 were \$6.0 million and \$7.6 million, respectively. Capital expenditures in fiscal 2014 consisted mainly of our purchase of an office in Shenzhen for RMB27.7 million and in fiscal 2013 primarily included expansion of existing clean room space and purchase of equipment and machinery, most of which was related to our COB production facility. Our capital commitments as of March 31, 2014 and 2013 were approximately \$126,792 and \$4,211,595, respectively. The significant commitment as of March 31, 2013 was for the purchase of the office in Shenzhen.

Our revolving credit facilities are provided by Standard Chartered Bank, Industrial and Commercial Bank of China Ltd. and China Construction Bank Corporation with an aggregate facilities limit of approximately \$13.2 million, as of March 31, 2014. The amounts payable each month on the revolving credit facilities varies depending upon the amounts drawn at the time. Our outstanding borrowings traditionally vary according to our seasonal working capital requirements but as of March 31, 2014, banking facilities of HKD8.0 million (equivalent to US\$1.0 million) and RMB38.8 million (equivalent to US\$6.3 million) were utilized. (See Note 14—Short-term bank loans and Banking Facilities of Notes to Consolidated Financial Statements.)

We are in compliance with all of the covenants entered into with our banks in connection with the revolving credit agreements and have been in compliance during all periods presented. In addition, we have not entered into any cross-default provision in our debt agreements with our banks. However, since the agreements are subject to periodic review by our banks, which may result in changes of their terms and conditions, there can be no assurance that our agreements will not be subject to cross-default provisions in the future.

We anticipate that cash from operating activities and our quick assets will be adequate to satisfy our capital requirements for at least the next two years.

Inflation. For the last five years inflation in Hong Kong has ranged from (1.6%) to 7.9% (approximately 4.3% during calendar 2013 and 4.1% for the first four months of 2014). Currently inflation in Hong Kong has little effect on our operations as much more of our costs are fixed and wage increases are discretionary.

While the appreciation of the Renminbi in prior years has had an impact on the Company's competitiveness, we also have been impacted by wage and utility inflation in China, particularly in the last two years. While the official inflation rate has abated recently due to the slowdown in manufacturing, it is still reported as approximately 5% per annum.

Currency and exchange rates. The functional currency of the Company is the U.S. dollar. The functional currencies of our subsidiaries in locations outside the U.S. are either the respective local currencies or the U.S. dollar. Most of our sales are denominated in RMB since only our export sales are made in US\$. With the growth of our PRC Telecom business and the discontinuance of home appliance business, most of our revenues in the future will be in RMB. The majority of our expenses, including salaries and wages and other production and administrative costs are denominated in Hong Kong dollars and RMB. Certain raw materials and capital equipment are purchased using a variety of currencies including the U.S. dollar, RMB, Japanese yen and the EURO, but the majority of purchases are made in RMB. In prior years, we have not been significantly affected by exchange rate fluctuations and therefore have not needed to hedge our positions. However, in the event that the Renminbi continues to appreciate against the U.S. dollar we may need to reconsider whether hedging our positions is appropriate. (See Note 3(q) of Notes to Consolidated Financial Statements.)

Application of Critical Accounting Policies. The Company believes the following critical accounting policies and estimates used in the preparation of its consolidated financial statements can affect its results of operations. The policies set forth below require management's most subjective or complex judgments, often as a result of the need to estimate the effect of matters that are inherently uncertain.

- **Valuation of long-lived assets.** The Company evaluates long-lived assets, such as property, plant and equipment or any other asset group, for impairment whenever events or changes in circumstances (such as a significant adverse change to market conditions that will impact the future use of the assets) indicate that the carrying amount of an asset or a group of long-lived assets may not be recoverable in accordance with FASB ASC 360 "Property, Plant and Equipment". When these events occur, the Company evaluates the impairment by comparing the carrying amount of the assets to future undiscounted net cash flows expected to result from the use of the assets and their eventual disposition. If the sum of the expected undiscounted cash flows is less than the carrying amount of the assets, the Company would recognize an impairment loss based on the excess of the carrying amount of the assets over their recoverable amount. During the fiscal years ended March 31, 2014, 2013 and 2012, impairment losses of US\$2,103,780, nil and \$1,230,727, respectively relating to property, plant and equipment were recognized in the consolidated statements of operations and comprehensive income.

- Warranty cost. The Company estimates the warranty cost for defective products based on various factors including the likelihood of defects, an evaluation of our quality controls over the manufacturing processes, technical analysis, industry information on comparable companies and our history. Based on the above criteria, the Company has accrued for warranty costs of US\$869,734, \$403,627 and \$729,528 as of March 31, 2014, 2013 and 2012, respectively. The basis and the amount of the warranty accrual are reviewed and adjusted to reflect actual experience.
- Deferred tax valuation allowance. The Company accounts for income taxes in accordance with FASB ASC 740 “Income Taxes”, using the liability method. Under this method, deferred tax assets and liabilities are determined based on the difference between the financial reporting and tax bases of assets and liabilities using enacted tax rates that will be in effect in the year in which the differences are expected to reverse. The Company records a valuation allowance to offset deferred tax assets if based on the weight of available evidence, it is more-likely-than-not that some portion, or all, of the deferred tax assets will not be realized. The effect on deferred taxes of a change in tax rates is recognized as income or loss in the period that includes the enactment date. For financial reporting purposes, the Company established valuation allowances by tax jurisdiction for deferred tax assets which management believes it is more likely than not that the deferred tax assets will not be realized in the foreseeable future. As of March 31, 2014 and 2013, the Company had tax losses carried forward of \$25,530,406 and \$23,591,422 respectively, which included tax losses of \$5,591,707 and \$4,114,021 respectively that are available indefinitely for offsetting future taxable income of the companies in which these losses arose. Tax losses of \$19,938,699 and \$19,477,401 as at March 31, 2014 and 2013, respectively, may be carried back for 2 years or carried forward for 20 years from the year the tax losses arose. Since tax returns have to be filed for each subsidiary in the jurisdiction in which it operates, management has to assess whether transfer pricing or expense allocations could be challenged by the authorities based on the technical merits of the tax positions taken and probable outcome of a tax assessment. Based on an evaluation of these uncertain tax positions, we have to estimate the potential income tax expense and any related penalties and interest. This has resulted in significant income tax expense being accrued in previous loss years since not all subsidiaries are in a loss position for tax purposes and there is no off-setting allowed between subsidiaries in the PRC and Hong Kong.
- Inventory reserves. Inventories are stated at the lower of cost or market value. Cost, calculated on the weighted average basis, comprises direct materials and, where applicable, direct labor and an appropriate proportion of production overheads. For the fiscal years ended March 31, 2014, 2013 and 2012, write-downs of inventories to fair market value of \$804,256, \$867,312 and \$932,848, respectively, were recognized in the consolidated statements of operations and comprehensive income.
- Allowance for doubtful accounts. The Company maintains allowances for doubtful accounts for estimated losses resulting from the inability of our customers to make required payments. Whenever it is clear that the amounts are deemed to be uncollectible, receivables are written off against the allowance for doubtful accounts.
- Contingencies. The Company accounts for various uncertain events, or contingencies in accordance with FASB ASC 450 “Contingencies”. Under FASB ASC 450, contingent losses must be accrued if available information indicates it is probable that the loss has been or will be incurred given the likelihood of the uncertain event, and the amount of the loss can be reasonably estimated. Management judgment is required in deciding the amount and timing of any accrual for a contingency. For example, legal proceedings are inherently uncertain, and in order to determine the amount of any reserves required, the Company assesses the likelihood of any adverse judgment or outcomes in any litigation, as well as potential ranges of probable losses. However, the actual results may differ from such estimates and the difference may be material.
- Uncertain tax provision. As of March 31, 2014, the Company has recognized \$4,454,069 of liabilities for unrecognized tax benefits and, in addition, \$436,920 of related interest and penalties. The unrecognized tax benefits relate mainly to potential transfer pricing arrangements reflected in the Hong Kong and PRC income tax returns of certain subsidiaries of the Company. The final outcome of these tax uncertainties is dependent upon various matters including tax examinations, legal proceedings, certain authority proceedings, changes in regulatory tax laws and interpretations of those tax laws, or expiration of statutes of limitation. However, based on the number of jurisdictions, the uncertainties associated with litigation, and the status of examinations, including the protocols of finalizing audits by the relevant tax authorities, which could include formal legal proceedings, there is a high degree of uncertainty regarding the future cash outflows associated with these tax uncertainties. As of March 31, 2014, the Company classified \$4,454,069 of its liabilities for unrecognized tax benefits and \$436,920 of interest and penalties as current liabilities.

Recent accounting pronouncements

- (i) The FASB has issued Accounting Standards Update (“ASU”) No. 2014-08, Presentation of Financial Statements (Topic 205) and Property, Plant, and Equipment (Topic 360): Reporting Discontinued Operations and Disclosures of Disposals of Components of an Entity. The amendments in the ASU change the criteria for reporting discontinued operations while enhancing disclosures in this area. It also addresses sources of confusion and inconsistent application related to financial reporting of discontinued operations guidance in U.S. GAAP.

Under the new guidance, only disposals representing a strategic shift in operations should be presented as discontinued operations. Those strategic shifts should have a major effect on the organization’s operations and financial results. Examples include a disposal of a major geographic area, a major line of business, or a major equity method investment.

In addition, the new guidance requires expanded disclosures about discontinued operations that will provide financial statement users with more information about the assets, liabilities, income, and expenses of discontinued operations.

The new guidance also requires disclosure of the pre-tax income attributable to a disposal of a significant part of an organization that does not qualify for discontinued operations reporting. This disclosure will provide users with information about the on-going trends in a reporting organization’s results from continuing operations.

The amendments in this ASU enhance convergence between U.S. GAAP and International Financial Reporting Standards (“IFRS”). Part of the new definition of discontinued operation is based on elements of the definition of discontinued operations in IFRS 5, Non-Current Assets Held for Sale and Discontinued Operations.

The amendments in the ASU are effective in the first quarter of 2015 for public organizations with calendar year ends. For most nonpublic organizations, it is effective for annual financial statements with fiscal years beginning on or after December 15, 2014. Early adoption is permitted.

The Company believes that its adoption of the ASU will not have any material impact on its consolidated financial statements.

- (ii) The FASB has issued ASU No. 2013-11, Income Taxes (Topic 740): Presentation of an Unrecognized Tax Benefit When a Net Operating Loss Carryforward, a Similar Tax Loss, or a Tax Credit Carryforward Exists (a consensus of the FASB Emerging Issues Task Force).

U.S. GAAP does not include explicit guidance on the financial statement presentation of an unrecognized tax benefit when a net operating loss carryforward, a similar tax loss, or a tax credit carryforward exists. The amendments in this ASU state that an unrecognized tax benefit, or a portion of an unrecognized tax benefit, should be presented in the financial statements as a reduction to a deferred tax asset for a net operating loss carryforward, a similar tax loss, or a tax credit carryforward, except as follows. To the extent a net operating loss carryforward, a similar tax loss, or a tax credit carryforward is not available at the reporting date under the tax law of the applicable jurisdiction to settle any additional income taxes that would result from the disallowance of a tax position or the tax law of the applicable jurisdiction does not require the entity to use, and the entity does not intend to use, the deferred tax asset for such purpose, the unrecognized tax benefit should be presented in the financial statements as a liability and should not be combined with deferred tax assets.

This ASU applies to all entities that have unrecognized tax benefits when a net operating loss carryforward, a similar tax loss, or a tax credit carryforward exists at the reporting date. The amendments in this ASU are effective for fiscal years, and interim periods within those years, beginning after December 15, 2013. For nonpublic entities, the amendments are effective for fiscal years, and interim periods within those years, beginning after December 15, 2014. Early adoption is permitted. The amendments should be applied prospectively to all unrecognized tax benefits that exist at the effective date. Retrospective application is permitted.

The Company believes that its adoption in fiscal 2015 of the ASU will not have any material impact on its consolidated financial statements.

C. Research and development, patents and licenses, etc.

We spent approximately \$0.8 million, \$0.8 million and \$0.7 million, respectively, on product design and development in each of the fiscal years 2014, 2013 and 2012. These expenses were primarily attributable to salaries and wages for technical staff and prototyping and cost of samples. For a more complete description of our research and development, patents and licenses, etc., see “Item 4.B—Business Overview.”

D. Trend information.

See “Item 5.—“Management’s Discussion and Analysis of Financial Condition and Results of Operation” for discussion of the most significant recent trends in our business since the last fiscal year.

E. Off-balance sheet arrangements.

The Company has no off-balance-sheet arrangements such as guarantees, derivative securities, retained interests or variable interests that have, or are reasonably likely to have, a material effect on the Company’s financial condition, revenue and expenses, results of operations, liquidity, capital expenditures and capital resources.

F. Tabular Disclosure of Contractual Obligations:

The following is a schedule reflecting our aggregate financial commitments as of March 31, 2014:

<u>Contractual Obligations</u>	<u>Total</u>	<u>Less than</u>	<u>1-3 years</u>	<u>4-5 years</u>	<u>More than</u>
	<u>US\$</u>	<u>1 year</u>	<u>US\$</u>	<u>US\$</u>	<u>5 years</u>
	<u>US\$</u>	<u>US\$</u>	<u>US\$</u>	<u>US\$</u>	<u>US\$</u>
Capital Commitments ⁽¹⁾	126,792	126,792	—	—	—
Operating Lease Commitments ⁽²⁾	10,362,955	381,394	704,580	704,580	8,572,401
Total Contractual Obligations	10,489,747	508,186	704,580	704,580	8,572,401

⁽¹⁾ Our capital commitments are for the purchase of property, plant and equipment.

⁽²⁾ The Company has various operating lease agreements for parking lots, motor vehicles, equipment and real estate that extend through 2043.

Item 6. Directors, Senior Management and Employees.

A. Directors and senior management.

Our directors and senior management at March 31, 2014 are set forth below:

<u>Name</u>	<u>Age</u>	<u>Position</u>
John C.K. Sham ⁽¹⁾	51	Chairman, Chief Executive Officer, Acting Chief Financial Officer and Director
Brian Yuen ⁽¹⁾⁽²⁾	58	Chief Executive Officer, Global-Tech USA, Inc. and Director
Patrick Po-On Hui ⁽²⁾⁽³⁾	56	Director
Ken Ying-Keung Wong ⁽³⁾	65	Director
Barry J. Buttifant ⁽³⁾	69	Director

⁽¹⁾ Member of the finance committee.

⁽²⁾ Member of the compensation committee.

⁽³⁾ Member of the audit committee.

John C.K. Sham has served as our Chairman since September 2012 and our President and Chief Executive Officer since June 1992. He has served as a director of Global-Tech since July 1991. Effective April 1, 2011 Mr. Sham assumed the role of Acting Chief Financial Officer following the termination of Mr. Leung. Mr. Sham was our Chief Financial Officer from June 1992 through January 2002. Mr. Sham joined us in 1984 as managing director of Kwong Lee Shun Trading Company Limited, a wholly owned subsidiary of ours. From 1982 to 1984, Mr. Sham served as President of Wesi Corp., a New York corporation which specialized in the marketing and distribution of household goods. Mr. Sham is the son of our founder, Mr. Kwong Ho Sham.

Brian Yuen joined us in January 1997, was elected to our Board of Directors in August 1997 and became the Chief Executive Officer of our subsidiary Global-Tech USA, Inc. in October 1997. Mr. Yuen serves as the chairman of the finance committee of our Board of Directors and was a consultant to us from March 1994 to December 1996. Prior to joining us, Mr. Yuen served as purchasing manager of Magla Products, Inc., a manufacturer, importer and distributor of household products, from December 1992 to December 1996.

Patrick Po-On Hui has served as a director of Global-Tech since March 2000. Mr. Hui is a practicing attorney and has been a partner at Messrs. Iu, Lai & Li since June 2011. From June 1988 to 2008, he was a consultant to, and then appointed as a partner of Robin Bridge & John Liu in 2008, a law firm based in Hong Kong. Mr. Hui was an Associate Partner of the law firm of Johnson Stokes & Master from March 1996 to May 1998 and an Assistant Solicitor of that firm from September 1989 to February 1996.

Ken Ying-Keung Wong has served as a director of Global-Tech since June 2001. Dr. Wong is a medical doctor who, since 1995, has maintained a medical practice in Hong Kong. Dr. Wong previously practiced family medicine in Canada from 1977 to 1995.

Dr. Barry John Buttifant has served as a director of Global-Tech since November 2003.

Dr. Buttifant is currently an independent adviser to MCL Financial Group Ltd and an independent non-executive director of Giordano International Limited and Daiwa Associate Holdings Limited, all of which are listed on the Stock Exchange of Hong Kong. Dr. Buttifant also serves as a non-executive director of China Nephstar Chain Drugstore Ltd., which is New York Stock Exchange listed public company.

Dr. Buttifant has been an executive director of Hsin Chong Construction Group Ltd. (“HCCG”), and a non-executive director of Synergis Holdings Limited (“Synergis”), a subsidiary of HCCG since 2011, all of which are listed on the Stock Exchange of Hong Kong. Prior to that, Dr. Buttifant was a chief executive officer of the IDT International Limited. In 2009, Dr. Buttifant was a director of Mission Hills Group (“MHG”) – corporate finance, and prior to this appointment, he was a consultant to the Group since 2008. Prior to joining MHG, Dr. Buttifant served as a principal of KLC Kennic Lui & Company (“KLC”), a professional accounting firm and was managing director of KLC Transactions Limited. Prior to joining KLC, Dr. Buttifant was the executive director – finance, of MHG. In 2004, Dr. Buttifant was the managing director of Hsin Chong International Holdings Limited, a controlling shareholder of both the construction company HCCG (which was acquired by MHG in November 2007) and a property management service company, Synergis (which was acquired by HCCG in September 2008). Dr. Buttifant was also an alternate director to both public companies. Dr. Buttifant was an operating partner of Baring Private Equity Asia Limited. He was also the managing director of Wo Kee Hong (Holdings) Limited (“Wo Kee Hong”) from 2001 to 2002 and was the Advisor to the board of directors of Wo Kee Hong from 2002 to 2004. Prior to joining Wo Kee Hong, he was the managing director of IDT International Limited for over eight years and had worked for Polly Peck Group and Sime Darby Hong Kong Limited for more than 11 years in the capacity of finance director and managing director.

Dr. Buttifant is a fellow member of the Association of Chartered Certified Accountants (UK); the Hong Kong Institute of Certified Public Accountants; the Chartered Management Institute (UK); the Hong Kong Management Association; and the Hong Kong Institute of Directors. Dr. Buttifant, being a person distinguished by eminence and by attainments, was admitted to the degree of honorary doctorate of Business Administration (honoris causa) by Edinburgh Napier University, United Kingdom in 2013.

No family relationship exists among any of our directors and senior management.

No arrangement or understanding exists between any director or member of senior management and any other person pursuant to which any director or member of senior management was elected to such a position with us.

B. Compensation.

The aggregate direct remuneration paid to all directors and senior management as a group (5 persons) during fiscal 2014 was approximately \$1.1 million. This includes amounts set aside or accrued to provide pension, retirement or similar benefits, but does not include amounts (including business travel, professional and business association dues and expenses) reimbursed to officers and other fringe benefits commonly reimbursed or paid for by companies in Hong Kong.

C. Board practices.

Our articles of association provide for a board of directors of not less than five or more than nine members. Each director is elected to serve until the next annual general meeting of shareholders and until his or her successor has been elected unless a different term is specified. Currently, there are five directors serving on the board of the Company, of which three are independent. See Item 6A—“Directors and senior management” for the service time of our directors.

Audit committee. The purpose of the audit committee is to fulfill the board of directors oversight responsibility to the shareholders, potential shareholders and the investment community relating to the integrity of the Company’s financial statements and the financial reporting process, the Company’s compliance with legal and regulatory requirements, the independent auditors’ qualification and independence, the performance of the Company’s independent auditors and the annual independent audit of the Company’s financial statements. In discharging its oversight role, the audit committee is empowered by the Company’s board of directors to investigate any matter brought to its attention. Such investigation can include but is not limited to full access to all books, records, facilities and personnel of the Company and the authority to retain outside counsel or other experts for this purpose.

The Company's audit committee is governed by a written charter. The functions of the audit committee as enumerated in its charter include:

- assisting the board of directors' oversight of (1) the integrity of the Company's financial statements and the financial reporting process, (2) the company's compliance with legal and regulatory requirements, (3) the independent auditors' qualifications and independence, (4) the performance of the Company's independent auditors, and (5) the annual independent audit of the Company's financial statements;
- the direct responsibility for the appointment, compensation and retention of the independent auditors for the purpose of preparing or issuing an audit report or performing other audit, review or attest services for the Company;
- regularly reviewing with the independent auditors any audit problems or difficulties encountered during the course of the audit work, including any restrictions on the scope of the independent auditors' activities or access to requested information;
- meeting with the independent auditors to discuss the scope and plans of their audit engagement;
- meeting with our financial management and independent auditors together, and periodically separately, to review matters relating to internal accounting controls over financial reporting;
- reviewing our critical accounting policies and practices and other matters relating to our financial condition including any significant written communications between the independent auditors and management; and
- reviewing with the full board of directors any issues that arise with respect to the quality or integrity of the company's financial statements, compliance with legal or regulatory requirements and the performance and independence of the independent auditors.

The audit committee is currently comprised of Barry J. Buttifant, Patrick Po-On Hui, and Ken Ying-Keung Wong. Dr. Buttifant is the chairman of the audit committee.

Compensation committee. Our Board of Directors also has a compensation committee. The compensation committee reviews and determines compensation for officers, directors and consultants, as well as bonuses and other incentive programs for employees. As of March 31, 2014, the compensation committee was comprised of Patrick Po-On Hui and Brian Yuen. Mr. Yuen is not considered to be independent since he is also a member of management of the Company.

We do not have, and none of our subsidiaries have, service contracts with any of our directors providing benefits upon termination of employment. We do have an employment agreement with John C.K. Sham that provides for severance benefits in certain circumstances. If Mr. Sham resigns as a result of certain material changes relating to his employment, his agreements entitle him to a lump sum payment equal to the aggregate amount of salary and performance bonus that would have been payable to him through the end of the term of his agreement, continued receipt of other benefits under the agreement for the remainder of the term of his agreement and immediate vesting of his outstanding equity awards. The agreement also generally entitles Mr. Sham to the same severance benefits if he terminates his employment, or his employment is terminated, as a result of a change in control of Global-Tech. If a liquidation plan for Global-Tech is approved by a court or agency of pertinent jurisdiction, Mr. Sham is also entitled to a lump sum payment equal to the aggregate amount of salary and performance bonus that would have been payable to him through the end of the term of his agreement.

D. Employees.

At March 31, 2014, 2013 and 2012, we employed 1,474, 2,528 and 2,264 persons, respectively, on a full-time basis. Of our employees at March 31, 2014, 24 were located in Hong Kong and, 1,450 in China.

As discussed elsewhere in this annual report, the Company completed its exit from the EMS business in December 2013. In connection with our exit from the EMS business, our labor force was significantly reduced as a result of the release of a majority of the employees assigned to the EMS business.

A breakdown of persons employed as of March 31, 2014 by main category of activity is as follows:

<u>Category</u>	<u>No.</u>
Manufacturing	1,021
Production management	14
Finance and administration	120
Receiving and warehousing	19
Quality control	113
Production engineering	36
Product design and development	88
Sales and marketing	59
Human resources	4
	<u>1,474</u>

Since our production levels fluctuate, the number of employees varies from time to time based on our production requirements. During peak production periods in fiscal 2014, we employed a maximum of approximately 2,479 people in our Dongguan factory. Our manufacturing personnel are paid a monthly salary and periodic incentive bonuses and are provided with housing, medical care and subsidized meals in our dormitory complex adjacent to each factory. We have not experienced any significant labor stoppages and we believe that relations with our employees are satisfactory.

Our relationships with our employees in China are subject to the Labor Law of the People's Republic of China which went into effect on January 1, 1995. The Labor Law regulates, among other things, the number of hours employees may work on a daily and weekly basis, provides allowances for legal holidays, regulates working conditions such as safety and hygiene and provides for various social welfare and employment benefits. We believe that we are in compliance with such regulations. Availability of labor in the future may have a negative impact on our results of operations since demand in Guangdong Province for unskilled manufacturing labor currently exceeds supply.

In June 2007, the National People's Congress of the PRC enacted new labor legislation called the Labor Contract Law, which became effective on January 1, 2008. It formalizes workers' rights concerning overtime hours, pensions, layoffs, employment contracts and the role of trade unions. Considered one of the strictest labor laws in the world, among other things, this new law requires an employer to conclude an "open-ended employment contract" with any employee who either has worked for the employer for 10 years or more or has had two consecutive fixed-term contracts. An "open-ended employment contract" is in effect a lifetime, permanent contract, which can only be terminated in specified circumstances, such as a material breach of the employer's rules and regulations, or for a serious dereliction of duty. Under the new law, downsizing by 20% or more may occur only under specified circumstances, such as a restructuring undertaken pursuant to China's Enterprise Bankruptcy Law, or where a company suffers serious difficulties in production and/or business operations. The Company took the Labor Contract Law into account and incorporated its requirements into its exit from the home appliance and EMS businesses. Additionally, the severance programs were established in accordance with the law and were supervised, at our request, by the appropriate authorities within the Dongguan local authority.

E. Share ownership.

The following table sets forth information regarding the share ownership in Global-Tech as of June 30, 2014 held by the directors and senior management and options granted to them on our common shares:

<u>Name of Owner⁽¹⁾</u>	<u>Number of Shares</u>	<u>Percentage#</u>
Wing Shing Holdings Company Limited ⁽²⁾	688,797	22.6%
John C.K. Sham ⁽³⁾	1,001,124	31.2%
Brian Yuen ⁽⁴⁾	97,803	3.1%
Barry J. Buttifant ⁽⁵⁾⁽⁶⁾	11,250	*
Patrick Po-On Hui ⁽⁵⁾⁽⁶⁾	5,250	*
Ken Ying-Keung Wong ⁽⁵⁾⁽⁶⁾	3,250	*
All officers and directors as a group (5 persons) ⁽⁷⁾	1,118,677	33.8%

* Less than 1%

In accordance with SEC rules, each beneficial owner's holdings have been calculated assuming full exercise of outstanding options covering our common shares, if any, exercisable by such owner within 60 days after June 30, 2014, but no exercise of options covering our common shares held by any other person.

⁽¹⁾ Unless otherwise indicated, the persons named in the table above have sole voting and dispositive power with respect to all common shares beneficially owned by them.

- (2) The share ownership of Wing Shing Holdings Company Limited is held 44.0% by the estate of Kwong Ho Sham and 56.0% by John C.K. Sham. Prior to the passing of Kwong Ho Sham, voting control of Wing Shing Holdings Company Limited (“Wing Shing Holdings”) was held approximately 34.3% by Kwong Ho Sham and 65.7% by John C.K. Sham. Following Kwong Ho Sham’s passing, John C.K. Sham assumed 100% voting control of Wing Shing Holdings. Once the estate is settled, the shares of the Company owned by Wing Shing Holdings will be distributed to its two shareholders. The estate of Kwong Ho Sham will receive 303,070 shares, which are intended to be gifted to a charitable trust, and 385,727 shares of the Company will be distributed to John C.K. Sham.
- (3) Includes 688,797 shares owned by Wing Shing Holdings and 168,750 common shares issuable to John C.K. Sham within 60 days after June 30, 2014 upon exercise of options granted under our 1997 and 2005 Stock Option Plans and the 2011 Omnibus Equity Plan. Excludes 600,000 shares owned by the mother of John C.K. Sham, 300,000 shares owned by the wife of John C.K. Sham and 300,000 shares owned by the daughter of John C.K. Sham. Mr. John C.K. Sham disclaims any beneficial ownership in such shares.
- (4) Includes 84,751 common shares issuable to Brian Yuen within 60 days after June 30, 2014 upon exercise of options granted under our 1997 and 2005 Stock Option Plans and the 2011 Omnibus Equity Plan. Excludes 1,975 shares owned by the wife and son of Mr. Yuen. Mr. Yuen disclaims any beneficial ownership in such shares.
- (5) Each of Barry J. Buttifant, Patrick Po-On Hui and Ken Ying-Keung Wong own less than 1% of the issued and outstanding common shares as of June 30, 2014.
- (6) Includes 7,000, 5,250 and 3,250 shares issuable to Messrs. Buttifant, Hui and Wong, respectively, within 60 days after June 30, 2014 upon exercise of options granted under the 1997 and 2005 Stock Option Plans, and the 2011 Omnibus Equity Plan.
- (7) Includes 688,797 common shares owned by Wing Shing Holdings and 269,001 common shares beneficially owned by or issuable to various officers and directors within 60 days after June 30, 2014 upon exercise of options granted under under our 1997 and 2005 Stock Option Plans and the 2011 Omnibus Equity Plan.

Our directors and senior management do not have different voting rights.

Amended and Restated 1997 Stock Option Plan of Global-Tech. The Amended and Restated 1997 Stock Option Plan (the “1997 Plan”) was adopted by our Board of Directors in September 1997. Prior to its expiration, the 1997 Plan provided for the grant of:

- options that are intended to qualify as incentive stock options, or ISOs, within the meaning of Section 422 of the U.S. Internal Revenue Code of 1986 to employees; and
- options not intended to qualify as ISOs to employees and consultants.

The 1997 Plan is administered by the Board of Directors, or a committee of directors appointed by the Board, which determines:

- the terms of the options, including the exercise price;
- the number of common shares subject to the option; and
- the terms and conditions of exercise.

No option granted under the 1997 Plan is transferable by the optionee other than by will or the laws of descent and distribution and each vested option is exercisable during the contractual life of the options by such optionee. The exercise price of all ISOs granted under the 1997 Plan must be at least equal to the fair market value of such common shares on the date of grant. With respect to any participant who owns (or is deemed to own) stock possessing more than 10% of the voting rights of our outstanding capital stock, the exercise price of any ISO must be not less than 110% of the fair market value on the date of grant. The term of each option granted under the 1997 Plan may be established by the Board of Directors, or a committee of the board, in its sole discretion; provided, however, that the maximum term of each ISO granted under the 1997 Plan is 10 years. With respect to any ISO granted to a participant who owns (or is deemed to own) stock possessing more than 10% of the total combined voting power of all classes of our outstanding capital stock, the maximum term is 5 years.

During fiscal 2012, an aggregate of 1,250 options with exercise prices of \$25.00 and \$30.56 per share were forfeited upon resignation of the relevant participants and 82,167 options with exercise prices between \$19.00 and \$25.00 per share expired, including 65,500 options granted to Directors.

During fiscal 2013, an aggregate of 5,950 options with an exercise price of \$15.60 to \$30.56 per share were forfeited upon the termination of the relevant participants.

During fiscal 2014, an aggregate of 65,500 options with an exercise price of US\$30.40 to US\$30.56 expired.

The 1997 Plan expired on September 17, 2008, after which date no further grants were made.

1999 Employee Stock Purchase Plan of Global-Tech. The 1999 Employee Stock Purchase Plan (the “1999 Plan”) was adopted by our Board of Directors in January 1999. The 1999 Plan was approved by our stockholders at our annual meeting of stockholders in March 1999. Prior to its expiration, the total number of common shares available for issuance under the 1999 Plan was 450,000 common shares.

The 1999 Plan is administered by our Board of Directors, or a committee of the board, which determines:

- the participants to be awarded stock grants;
- the number of shares subject to each stock grant, or the formula pursuant to which such number will be determined;
- the date of award and the vesting; and
- expiration terms applicable to each stock grant.

Up to the plan’s expiration in 2009, we granted, in the aggregate, net of forfeiture, 63,753 common shares under the 1999 Plan.

2005 Stock Option Plan of Global-Tech. The 2005 Stock Option Plan (the “2005 Plan”) was adopted by our Board of Directors in October 2005 and approved by the Company’s shareholders in November 2005. The plan provides for the grant of:

- options that are intended to qualify as incentive stock options, or ISOs, within the meaning of Section 422 of the U.S. Internal Revenue Code of 1986 to employees; and
- options not intended to qualify as ISOs to employees and consultants.

The plan is administered by the Board of Directors, or a committee of outside directors appointed by the board, which determines:

- the terms of options, including the exercise price;
- the number of common shares subject to the option; and
- the terms and conditions of exercise.

No option granted under the 2005 Plan is transferable by the optionee other than by will or the laws of descent and distribution and each option is exercisable during the lifetime of the optionee only by such optionee. The exercise price of all ISOs granted under the 2005 Plan must be at least equal to the fair market value of such common shares on the date of grant. With respect to any participant who owns (or is deemed to own) stock possessing more than 10% of the voting rights of our outstanding capital stock, the exercise price of any ISO must be not less than 110% of the fair market value on the date of grant. The term of each option granted under the 2005 Plan may be established by the Board of Directors, or a committee of the board, in its sole discretion; provided, however, that the maximum term of each ISO granted under the 2005 Plan is 10 years. With respect to any ISO granted to a participant who owns (or is deemed to own) stock possessing more than 10% of the total combined voting power of all classes of our outstanding capital stock, the maximum term is 5 years.

The total number of common shares available for options under the 2005 Plan is 450,000 shares. We have granted options to purchase on the dates and in the amounts indicated below:

- During fiscal 2014, 2013 and 2012, no options were granted and none were forfeited.

Global-Tech Advanced Innovations Inc. 2011 Omnibus Equity Plan. The Global-Tech Advanced Innovations Inc. 2011 Omnibus equity Plan (the “Omnibus Plan”) was adopted by our Board of Directors in October 2010 and approved by the Company’s shareholders in November 2010. The plan provides for the grant of stock options (non-statutory and incentive), stock appreciation rights, restricted stock units, performance shares and common shares.

A committee authorized by the Board of Directors (the “Committee”) will administer the Omnibus Plan. Unless otherwise determined by the Board of Directors, the Compensation Committee will administer the Omnibus Plan. Subject to the terms of the Omnibus Plan, the Committee has the sole discretion to select the employees, consultants, and non-employee directors who will receive awards, determine the terms and conditions of awards, and to interpret the provisions of the Omnibus Plan and outstanding awards. The Committee may not, without the approval of the Company’s shareholders, institute an exchange program under which outstanding awards are amended to provide for a lower exercise price or surrendered or cancelled in exchange for awards with a lower exercise price.

Awards granted under the Omnibus Plan are generally not transferable, and all rights with respect to an award granted to a participant generally will be available during a participant’s lifetime only to the participant. If the Committee makes an award transferable, such award will contain such additional terms and conditions as the committee deems appropriate.

The total number of common shares available for awards under the Omnibus Plan is 400,000 shares.

No shares were granted under the Omnibus Plan during fiscal 2012.

During fiscal 2013, 73,000 options were granted to officers and directors, 5,000 options to an employee and 8,000 options to a consultant.

In fiscal 2014, no shares were granted and 3,000 options which were previously granted to a Director were exercised.

Share compensation. Effective April 1, 2006, the Company adopted the provisions of SFAS No. 123 (revised 2004), “Share-Based Payment” (“SFAS No. 123 (R)”) which is now codified as FASB ASC 718 “Compensation-Stock Compensation” and related interpretations in accounting for its employee stock-based compensation plans. Accordingly, stock compensation cost is measured on the date of grant, based on fair value which is estimated using the Black-Scholes option pricing model. The compensation cost is amortized over the vesting period of the options using the straight-line method provided that the amount of compensation cost recognized at any date must at least equal the portion of the grant-date value of the award that is vested at that date. Prior to the adoption of SFAS No. 123 (R), we applied the intrinsic-value basis prescribed in Accounting Principles Board (“APB”) opinion No. 25, “Accounting for Stock Issued to Employees” and related interpretations in accounting for employee stock options.

As permitted by SFAS No. 123 (R), the Company has elected to apply the “modified prospective” method for the transition, in which compensation cost is recognized beginning with the effective date based on the requirements of SFAS No. 123 (R) (i) for all share-based payments granted after the effective date and (ii) for all awards granted to employees prior to the effective date of SFAS No. 123 (R) that remained unvested on the effective date.

As of March 31, 2014, 2013 and 2012, there were unrecognized share-based compensation costs of nil, nil and \$1,969, respectively, relating to stock granted to an employee under the 1999 Employee Stock Purchase Plan. The unrecognized compensation cost for stock granted is expected to be recognized over a weighted-average vesting period of two years and five years, respectively. To the extent that the actual forfeiture rate is different from the original estimate, actual share-based compensation relating to these awards may be different from the expectations.

We also have granted options to consultants and accounted for such options under the fair value method. We amortize share-based compensation expense over the vesting periods of the related options.

Item 7. Major Shareholders and Related Party Transactions.

A. Major shareholders.

The following table sets forth information regarding the share ownership in Global-Tech as of June 30, 2014 of shareholders that are beneficial owners of 5% or more of our outstanding common shares:

<u>Name of Owner</u>	<u>Number of Shares</u>	<u>Percentage</u>
Shun Chi Hui	600,000	19.7%
Jenny, Meng Chen Tsai	300,000	9.9%
Estee M.Y. Sham	300,000	9.9%
Wing Shing Holdings Company Limited ⁽¹⁾⁽²⁾	688,787	22.6%
Grace & White, Inc. ⁽³⁾	189,855	6.24%

⁽¹⁾ The share ownership of Wing Shing Holdings Company Limited was held 44.0% by the estate of Kwong Ho Sham and 56.0% by John C.K. Sham. Voting control of Wing Shing Holdings Company Limited was held approximately 34.3% by estate of Kwong Ho Sham and 65.7% by John C.K. Sham. Kwong Ho Sham passed away on July 11, 2011. Following Kwong Ho Sham's passing, John C.K. Sham assumed 100% voting control of Wing Shing Holdings.

⁽²⁾ In June 2011, Kwong Ho Sham established a trust that is intended to own his portion of Wing Shing Holdings Company Limited ("Wing Shing Holdings") shares in the Company. Upon his passing, 303,070 shares owned by Wing Shing Holdings are intended to go into this trust and 385,727 shares owned by Wing Shing Holdings will be transferred to John C.K. Sham. As of June 30, 2014, the transfers had not yet taken place but are expected to occur when his estate is settled. John C.K. Sham as a trustee of his father's charitable trust will decline beneficial ownership of any of the trust's shares.

⁽³⁾ According to a Schedule 13G filed with the SEC on January 30, 2014, Grace & White, Inc. reported beneficial ownership of an aggregate of 189,855 shares, including sole voting power over 51,685 shares and sole dispositive power over 189,855 shares. Grace & White, Inc. is located at 515 Madison Ave., Suite 1700, New York, New York 10022.

Our major shareholders have the same voting rights as all holders of our common shares.

As of June 30, 2014, approximately 64.7%, of our outstanding common shares were held in the United States by 6 holders registered on the books of our transfer agent.

As disclosed elsewhere in this annual report, the Company's directors, members of our directors' families, and entities directed and controlled such persons own approximately 67.3% of our outstanding shares. As a result, certain of our directors and their family members, together with jointly controlled entities, are in a position to control our activities and policies. To the best of our knowledge, aside from the entities, directors and members of their family identified above and elsewhere in this report, we are not directly or indirectly controlled or owned by any other corporation, foreign government or any other natural or legal person, and we are not subject to any arrangements the operation of which may at a subsequent date result in a change in control of the Company.

B. Related party transactions.

- In April, 2008, we entered into renewal lease agreements with Wing Shing Products Company Limited ("Wing Shing Products"), a company owned by John Sham, for offices and warehouses located in Hong Kong with a total area of 25,690 square feet, which were occupied by our executive officers, administrative group and warehouse staff at a rate totaling approximately \$173,000 per annum. On January 31, 2012, we amended the lease with Wing Shing Products that reduced the rental space to 11,010 square feet at a rate totaling approximately \$70,786 per annum. In April 2012, we amended the lease agreement with Wing Shing Products to increase the rent to \$113,043 per annum. In February 2013, we further reduced the total rental space to 7,340 square feet and the rent to \$75,420 per annum. Effective April 1, 2014, Wing Shing Products increased the annual rent to US\$92,800 per annum, which reflects the fair market for such space.
- In addition to the office and warehouse space described above, the Company also entered into automobile lease agreement with Wing Shing Products. Monthly rental for the vehicle is approximately \$4,800, which is the estimated fair value of rental or lease rates in Hong Kong for similar vehicles.

The total expense incurred for the real estate and automobile leases described above for the fiscal years ended March 31, 2014, 2013 and 2012 was approximately US\$132,661, US\$164,096 and US\$189,832, respectively. These expenses were payable to Wing Shing Products. The amounts due are unsecured, interest-free and have no fixed terms of repayment. We believe the leases are on terms no less favorable to the Company than could have been received from unaffiliated third parties.

Our Policy Concerning Related Party Transactions

All transactions with our executive officers and directors must be approved by a majority of our disinterested directors.

C. *Interests of experts and counsel.*

Not applicable.

Item 8. Financial Information.

A. *Consolidated financial statements and other financial information.*

Our consolidated financial statements for fiscal 2014, 2013 and 2012 have been prepared in accordance with U.S. GAAP and audited by an independent registered public accounting firm in accordance with the standards of the Public Company Accounting Oversight Board (PCAOB). A consolidated balance sheet is presented for each of fiscal 2014 and 2013 along with a consolidated statement of operations and comprehensive income, statement of cash flows and statement of changes in shareholders' equity which are presented for each of fiscal 2014, 2013 and 2012. See "Item 18—Financial Statements" for detailed financial information.

Legal Proceedings

Global-Tech and its subsidiaries are not a party in any material litigation or arbitration. However, we may occasionally become subject to various legal actions related to performance under contracts, product liability, taxes, employment, intellectual property and other matters, several of which actions claim substantial damages, in the ordinary course of business.

Dividends

We are a holding company and have no business operations other than ownership of our subsidiaries. In the event that we decide to pay cash dividends, as a holding company, our ability to pay dividends and meet other obligations depends upon the receipt of dividends or other payments from our operating subsidiaries and our other holdings and investments. In addition, our operating subsidiaries from time to time may be subject to restrictions on their ability to make distributions to us as a result of restrictive covenants in loan agreements, restrictions on the conversion of local currency into U.S. dollars or other hard currency and other regulatory restrictions, including withholding tax on dividend income and contribution to statutory reserve. Restrictions on currency conversion may be in effect from time to time but have not had a material effect on us to date.

During fiscal year 2013, the Company's Board of Directors approved a special cash dividend of \$1.00 per share that was paid on September 5, 2012 to shareholders of record at the close of business on August 22, 2012. The dividend payment was made following the completion of the Company's exit from the home appliance business, which provided relief to the Company's working capital requirements and presented an opportunity to return capital to the Company's shareholders while still maintaining the resources necessary to support growth.

B. Significant change.

Not Applicable.

Item 9. The Offer and Listing.**A. Offer and listing details.**

Our common shares began trading on the New York Stock Exchange, or NYSE, under the symbol “GAI” on April 8, 1998. Effective December 10, 2008, Global-Tech’s common stock was no longer traded on the NYSE and commenced trading on the Nasdaq Stock Market (“Nasdaq”). The following table lists the high and low market prices on the NYSE and Nasdaq for the periods indicated.

	<u>Pre-split</u>		<u>Adjustment to reflect 4-for-1 reverse stock split</u>	
	<u>High</u>	<u>Low</u>	<u>High</u> US\$	<u>Low</u> US\$

F. *Expenses of the issue.*

Not applicable.

Item 10. Additional Information.

A. *Share capital.*

Not applicable.

B. *Memorandum and articles of association.*

Objects and Purposes

Our “objects and purposes” are described in Clause 5 of our memorandum of association and generally allow us to engage in any act or activity that is not prohibited under British Virgin Islands law.

Directors

British Virgin Islands law and our articles of association provide that no agreement or transaction between us and one or more of our directors or any entity in which any director has a financial interest or to which any director is related, including as a director of that other entity, is void or voidable for this reason only or by reason only that the director is present at the meeting of directors or at the meeting of the committee of directors that approves the agreement or transaction or that the vote or consent of the director is counted for that purpose if the material facts of the interest of each director in the agreement or transaction and his or her interest in or relationship to any other party to the agreement or transaction are disclosed in good faith or are known by the other directors. In addition, a director who has an interest in any particular business to be considered at a meeting of directors or shareholders may be counted for the purposes of determining whether the meeting is duly constituted.

Our articles of association provide that the directors may, by a resolution of directors, fix the emoluments of directors with respect to services to be rendered in any capacity to us.

British Virgin Islands law and our articles of association provide that our business and affairs shall be managed by our directors, who in addition to the powers and authorities expressly conferred by our articles of association, may also exercise all such powers of the Company as are not by our memorandum, articles of association or British Virgin Islands law required to be exercised by the shareholders.

British Virgin Islands law and our articles of association do not contain an age limit requirement for our directors. Our articles of association do not contain a share qualification for directors.

Rights of Shareholders

Our memorandum authorizes the issuance of 12,500,000 ordinary shares of \$0.04 each and 250,000 preference shares of \$0.04 each. We do not have any preference shares currently outstanding. The preference shares may be issued by our directors, without further action by shareholders. Our directors also have the right to fix by resolution of directors the designations, powers, preferences, rights, qualifications, limitations and restrictions of the preference shares, such as voting rights (including the right to vote as a series on particular matters), preferences as to dividends and liquidation, conversion and redemption rights and sinking fund provisions.

Dividend rights. Subject to the preferential and other dividend rights of any outstanding series of preference shares, holders of our common shares will be entitled to equal dividends per share when, as and if declared by our board of directors. The board may declare interim dividends and recommend a final annual dividend from retained earnings available for cash dividends as determined for statutory purposes at such times and in such amounts as they may determine. See “Item 8.A—Consolidated Statements and Other Financial Information—Dividend Policy.” According to our articles of association, all dividends that remain unclaimed for a period of three years after their declaration may be forfeited by our board of directors for our benefit.

Voting rights. Holders of our common shares have one vote for each share held on all matters submitted to a vote of shareholders. Our board of directors is not classified and therefore, all the directors stand for reelection at the same interval.

Liquidation rights. In the event we are liquidated or wound up, the holders of our common shares will be treated equally on a per share basis and will be entitled to receive all of our remaining assets following distribution of the preferential and/or other amounts to be distributed to the holders of our preference shares.

Other provisions. We have no provisions in either our memorandum or articles of association for redemption or sinking fund provisions, or providing that any shareholder has a right to share in our profits. Our common shares are not subject to further capital calls by us. We have no provisions in our memorandum or articles of association that discriminate against any existing or prospective holder of our common shares as a result of the existing or prospective holder's owning a substantial number of our common shares.

Changes to Rights of Shareholders

Under our memorandum and articles of association and British Virgin Islands law, our memorandum and articles of association may be amended by a resolution of directors or a resolution of members. This includes amendments

- increasing or reducing our authorized capital,
- authorizing the issuance of different classes of shares, including preference shares, and
- increasing or reducing the par value of our shares.

The directors may also increase our capital without shareholder approval by transferring a portion of our surplus to capital. Or the directors may reduce our capital without shareholder approval, subject to the requirements of British Virgin Island law, by transferring a portion of our capital to surplus. Our memorandum and articles of association provide that differences which may rise between us and any of our shareholders, their executors, administrators or assigns relating to our memorandum and articles of association shall, unless the parties agree to a single arbitrator, be referred to two arbitrators to be chosen by each of the differing parties. No amendment to our memorandum and articles of association will be effective unless and until it is filed with the Companies Registry of the British Virgin Islands.

Annual, General and Extraordinary Meetings of Shareholders

British Virgin Islands law and our articles of association do not require us to hold an annual meeting. We do, however, typically hold an annual meeting of shareholders for the election of directors and for such other business as may come before the meeting.

Under British Virgin Islands law, unless otherwise provided by a company's memorandum or articles of association, the directors may call meetings of shareholders at any time. Our articles of association require the directors to call meetings upon a written request from shareholders holding 30% or more of the outstanding voting shares.

Our articles of association provide that notice of all meetings of shareholders shall be given not fewer than seven days before the date of the proposed meeting to those persons whose names appear as a shareholder in our share register on the date notice is given and are entitled to vote at the meeting. A meeting of shareholders may be called on shorter notice, however, if members holding, in general, at least 90% of the total number of shares entitled to vote on all matters to be considered at the meeting consent or all the shareholders holding shares entitled to vote on all matters to be considered at the meeting waive the right of notice.

Limitations on Share Ownership

British Virgin Islands law and our memorandum and articles of association do not impose any limitations on the right of anyone to own, hold or exercise voting rights to our common shares. British Virgin Islands law does not impose any limitation on the rights of non-resident or foreign shareholders to hold or exercise voting rights on our common shares.

Indemnity and Insurance

Our articles of association provide that we may indemnify directors, officers, liquidators and other individuals who act on our behalf or upon our request for liabilities and expenses that they may incur as a result of their actions. We may only indemnify a person who acted honestly and in good faith with a view to our best interests and, in the case of criminal proceedings, if the person had no reasonable cause to believe that his or her conduct was unlawful. The decision of the directors as to whether a person acted honestly and in good faith is, in the absence of fraud, conclusive unless a question of law is involved. We also are entitled under our articles of association to purchase and maintain directors and officers liability insurance.

Certain Anti-Takeover Matters

Under our memorandum and articles of association and the laws of the British Virgin Islands, our memorandum and articles of association may be amended by a resolution of directors or a resolution of members. This includes amendments authorizing the creation of different classes of shares, including preference shares. Our ability to amend our memorandum and articles of association by a resolution of directors could have the effect of delaying, deterring or preventing a change in control of us without any further action by our shareholders including but not limited to, a tender offer to purchase our common shares at a premium over then current market prices. In addition, the issuance of preference shares without shareholder approval, on terms as the board of directors may determine, could adversely affect the voting power of the holders of our common shares, including the loss of voting control to others. Written consent or resolution passed at a meeting of the holders of the relevant shares is required to vary class shareholders' right.

Ownership Information

British Virgin Islands law and our memorandum and articles of association do not provide that information about our shareholders, even those owning significant percentages of our shares, must be disclosed.

Differences from United States Law

In general, the laws of the British Virgin Islands governing the provisions of our memorandum and articles of association discussed above are not significantly different than the laws governing similar provisions in the charter documents of Delaware companies, other than with respect to the holding of an annual meeting for our shareholders and the amendment of our memorandum and articles of association. We are not required by the laws of the British Virgin Islands to hold an annual meeting for our shareholders but we would be required to hold an annual meeting if we were incorporated under Delaware law. If we choose not to hold an annual meeting, then the ability of our shareholders to submit and vote on proposals would be significantly less than that of shareholders in U.S. companies incorporated in Delaware. In addition, our board of directors may amend our memorandum of association under certain circumstances without shareholder approval, whereas Delaware law requires shareholders to approve any amendments to a Delaware corporation's certificate of incorporation.

We are a British Virgin Islands company and our affairs are governed by, among other things, the International Business Companies Act ("IBCA") of the British Virgin Islands. IBCA of British Virgin Islands differs from laws applicable to United States corporations and their shareholders. Since it is impractical and burdensome to list all the difference items, set forth below is a brief description of identifiable differences between the provisions of IBCA applicable to us and those followed by domestic companies under the Nasdaq listing standards.

Board composition

Pursuant to section 42 of IBCA, the business and affairs of a BVI company shall be managed by a board of directors that consists of one or more persons but it is silent on the requirement of having a majority of independent directors. In addition, there is no requirement to evaluate directors' independence from management.

Scheduled independent director meeting

There is no requirement that non-management directors must meet at regularly scheduled executive meetings not attended by management. Under Section 48(1) of IBCA, the directors may meet at such times and in such manner and places within or outside the British Virgin Islands as the directors may determine to be necessary or desirable.

Nominating/corporate governance committee

The Nasdaq listing standards require companies to have a nominating/corporate governance committee comprised of independent directors governed by a written charter establishing minimum requirements. There is no such requirement under BVI rules.

Compensation committee

The Nasdaq listing standards require companies to have a compensation committee comprised entirely of independent directors governed by a written charter establishing certain minimum requirements. There is no such requirement under the BVI rules.

Audit committee

The Nasdaq listing standards require companies to have an audit committee, consisting of a minimum of three independent members of the board of directors governed by a written charter establishing the duties and responsibilities of the audit committee. There is no such requirement under BVI rules. However, we have an audit committee governed by a written charter consisting of three independent directors as defined in Rule 10A-3 of the Exchange Act.

CEO Certification

The Chief Executive Officer must notify Nasdaq in writing if an executive officer of the Company becomes aware of any material non-compliance with Nasdaq corporate governance listing requirements, notwithstanding our status as a foreign private issuer.

Code of business conduct and ethics

The Nasdaq standards require that each listed company adopt and disclose a code of business conduct and ethics for directors, officers and employees, and promptly disclose any waivers of the code for directors or executive officers. We have such a Code adopted for senior financial officers, as is permitted for a foreign private issuer.

Indemnification

Pursuant to subsection 57(1) of IBCA, a company under its Articles or Memorandum, may provide for indemnification for directors and officers, except where their actions are a violation of their fiduciary duties or are performed in a willfully negligent manner. It also provides for reimbursement of all expenses including legal fees and indemnifications against civil fraud or the consequence of committing a crime. However, the SEC provides for reimbursement to the Company by chief executive officers and chief financial officers of bonuses, or other incentive-based compensation and stock sale profits during the year following an accounting restatement due to material noncompliance or as a result of misconduct.

Inspection of books and records

Subsection 67(4) of IBCA allows a company to refuse a request from shareholders or their attorneys to inspect the share register, the books and records and contracts kept by a company, if the Company, by resolution of its directors, determines that it is not in the best interest of the Company to do so. However, we are required to provide shareholders and the Nasdaq certain material information under Nasdaq rules.

C. *Material Contracts.*

Not applicable.

D. *Exchange controls.*

General

There are currently no limitations either under British Virgin Islands or U.S. law or in our articles of association to the rights of shareholders to hold or vote common shares, or to pay dividends, interest or other payments to nonresident shareholders. There are currently no restrictions in the British Virgin Islands regarding our export and import of capital, including the availability of cash and cash equivalents for use by our affiliated companies.

E. *Taxation.*

Material United States Federal Income Tax Consequences

The discussion below is for general information only and is not, and should not be interpreted to be, tax advice to any holder of our common shares. Each holder or a prospective holder of our common shares is urged to consult his, her or its own tax advisor.

General

This section is a general summary of the material United States federal income tax consequences to U.S. Holders, as defined below, of the ownership and disposition of our common shares as of the date of this report. This summary is based on the provisions of the Internal Revenue Code of 1986, as amended, or the Code, the applicable Treasury regulations promulgated and proposed thereunder, judicial decisions and current administrative rulings and practice, all of which are subject to change, possibly on a retroactive basis. The summary applies to you only if you hold our common shares as a capital asset within the meaning of Section 1221 of the Code. In addition, this summary generally addresses certain U.S. federal income tax consequences to U.S. Holders if we were to be classified as a PFIC. The United States Internal Revenue Service, or the IRS, may challenge the tax consequences described below, and we have not requested, nor will we request, a ruling from the IRS or an opinion of counsel with respect to the United States federal income tax consequences of acquiring, holding or disposing of our common shares. This summary does not purport to be a comprehensive description of all the tax considerations that may be relevant to the ownership of our common shares. In particular, the discussion below does not cover tax consequences that depend upon your particular tax circumstances nor does it cover any state, local or foreign law, or the possible application of the United States federal estate or gift tax. You are urged to consult your own tax advisors regarding the application of the United States federal income tax laws to your particular situation as well as any state, local, foreign and United States federal estate and gift tax consequences of the ownership and disposition of the common shares. In addition, this summary does not take into account any special United States federal income tax rules that apply to a particular U.S. or Non-U.S. holder of our common shares, including, without limitation, the following:

- a dealer in securities or currencies;
- a trader in securities that elects to use a market-to-market method of accounting for its securities holdings;
- a financial institution or a bank;
- an insurance company;
- a tax-exempt organization;
- a person that holds our common shares in a hedging transaction or as part of a straddle or a conversion transaction;
- a person whose functional currency for United States federal income tax purposes is not the U.S. dollar;
- a person liable for alternative minimum tax;
- a person that owns, or is treated as owning, 10% or more, by voting power or value, of our common shares;
- certain former U.S. citizens and residents who have expatriated; or
- a person who receives our shares pursuant to the exercise of employee stock options or otherwise as compensation.

U.S. Holders

For purposes of the discussion below, you are a “U.S. Holder” if you are a beneficial owner of our common shares who or which is:

- an individual United States citizen or resident alien of the United States (as specifically defined for United States federal income tax purposes);
- a corporation, or other entity treated as a corporation for United States federal income tax purposes, created or organized in or under the laws of the United States, any State or the District of Columbia;
- an estate whose income is subject to United States federal income tax regardless of its source; or
- a trust (a) if a United States court can exercise primary supervision over the trust’s administration and one or more United States persons are authorized to control all substantial decisions of the trust or (b) if it was in existence on August 20, 1996, was treated as a United States person prior to that date and has a valid election in effect under applicable Treasury regulations to be treated as a United States person.

If a partnership holds our common shares, the tax treatment of a partner will generally depend upon the status of the partner and upon the activities of the partnership. If you are a partner of a partnership holding our common shares, you should consult your tax advisor.

Distributions

Subject to the “passive foreign investment company” (“PFIC”) rules discussed below, for cash dividends, the gross amount of any such distribution (other than in liquidation) that you receive with respect to our common shares generally will be taxed to you as dividend income to the extent such distribution does not exceed our current or accumulated earnings and profits (“E&P”), as calculated for U.S. federal income tax purposes. Such income will be includable in your gross income as ordinary income on the date of receipt. Dividends received by individuals and certain other non-corporate taxpayers in tax years before January 1, 2011 from “qualified foreign corporations” are taxed at the rate of either 5 percent (zero, for tax years beginning in 2009, 2010 and 2011) or 15 percent, depending upon the particular taxpayer’s U.S. federal income tax bracket; provided that the recipient-shareholder has held his or her shares as a beneficial owner for more than 60 days during the 121-day period beginning on the date which is 60 days before the shares’ ex-dividend date. Dividends received in tax years beginning on or after December 31, 2012 are taxed at higher ordinary income tax rates. A foreign corporation is a “qualified foreign corporation” if the stock with respect to which it pays dividend is traded on an established securities market in the United States, provided that the foreign corporation is not a PFIC. Our stock is traded on an established securities market in the United States, although we cannot guarantee that our stock will be so traded in the future.

We believe that we were not a PFIC for U.S. federal income purposes for our fiscal years ended March 31, 2012, 2013 and 2014. No assurance can be given, however, that the IRS may not agree and seek to treat us as a PFIC. See “Passive Foreign Investment Company (PFIC)” below. If we are a PFIC with respect to a particular U.S. Holder, dividends received from us will be taxed at regular ordinary income tax rates. Holders of our shares should consult their own tax advisers regarding the availability of the reduced dividend tax rate in light of their own particular circumstances.

To the extent any distribution exceeds our E&P, the distribution will first be treated as a tax-free return of capital to the extent of your adjusted tax basis in our common shares and will be applied against and reduce such basis on a dollar-for-dollar basis (thereby increasing the amount of gain and decreasing the amount of loss recognized on a subsequent disposition of such shares). To the extent that such distribution exceeds your adjusted tax basis, the distribution will be taxed as gain recognized on a sale or exchange of our common shares. See “Sale, Exchange or Other Disposition of Our Common Shares,” below. Because we are not a U.S. corporation, no dividends-received deduction will be allowed to corporations with respect to dividends paid by us.

For United States foreign tax credit limitation purposes, dividends received on our common shares will be treated as foreign source income and will generally be “passive category income”, or in the case of certain holders, “general category income.” You may be eligible, subject to a number of complex limitations, to claim a foreign tax credit in respect of foreign withholding taxes, if any, imposed on dividends paid on our common shares. The rules governing United States foreign tax credits are complex, and we recommend that you consult your tax advisor regarding the applicability of such rules to you.

Sale, Exchange or Other Disposition of Our Common Shares

Subject to the PFIC rules discussed below, generally, in connection with the sale, exchange or other taxable disposition of our common shares:

- you will recognize a capital gain or loss equal to the difference (if any) between:
- the amount realized on such sale, exchange or other taxable disposition and
- your adjusted tax basis in such common shares (your adjusted tax basis in the shares you hold generally will equal your U.S. dollar cost of such shares);
- such gain or loss will be long-term capital gain or loss if your holding period for our common shares is more than one year at the time of such sale or other disposition;
- such gain or loss will generally be treated as United States source for United States foreign tax credit purposes; and
- your ability to deduct capital losses is subject to limitations.

Passive Foreign Investment Company (PFIC)

A U.S. Holder generally would be subject to a special tax scheme (that differs in certain material respects from that described above) if we were a PFIC at any time during which such Holder held our shares.

We believe based upon our preliminary evaluation that we could be deemed a PFIC in future years. An actual determination of PFIC status is factual in nature and cannot be made until the close of the applicable tax year. Based on the composition of our annual gross income and the nature and book value of our assets and the total market value, or market cap, of our shares at the end of each quarter of our fiscal years ended March 31, 2012, 2013 or 2014, we believe that we were not a PFIC for U.S. federal income purposes for our fiscal years ended March 31, 2012, 2013 or 2014. No assurance can be given, however, that the IRS may not agree and seek to treat us as a PFIC for these years.

We have not conducted an appraisal of the actual fair market value of our assets as of March 31, 2014 to support our conclusion regarding our PFIC status. If we conducted such an appraisal, it might not result in a fair market value of our assets being sufficiently greater than the aggregate value of our market capital to support our conclusion regarding our PFIC status. Even if such appraisal did so support our conclusion as to our PFIC status, such appraisal may not be enough to establish to the satisfaction of the IRS that the fair market value of our assets, which would, or we believe should, not be considered “passive,” was sufficiently greater than the aggregate value of our market capital.

A foreign corporation will be treated as a PFIC for United States federal income tax purposes if, after applying relevant look-through rules with respect to the income and assets of subsidiaries, 75% or more of its gross income consists of certain types of passive income (the “income test”) or 50% or more of the gross value of its assets is attributable to assets that produce passive income or are held for the production of passive income (the “asset test”). For this purpose, passive income generally includes dividends, interest, royalties, rents (other than rents and royalties derived in the active conduct of a trade or business), annuities and gains from assets that produce passive income.

As a result of the classification as a PFIC, a special tax scheme would apply to both (a) any “excess distribution” by us (generally, the U.S. Holder’s ratable share of distributions in any year that are greater than 125% of the average annual distributions received by such U.S. Holder in the three preceding years or its holding period, if shorter) and (b) any gain recognized on the sale or other disposition of your ordinary shares. Under the PFIC regime, any excess distribution and recognized gain would be treated as ordinary income. The U.S. federal income tax on such ordinary income is determined under the following steps: (i) the amount of the excess distribution or gain is allocated ratably over the US Holder’s holding period for our ordinary shares; (ii) tax is determined for amounts allocated to the first year in the holding period in which we were classified as a PFIC and all subsequent years (except the year in which the excess distribution was received or the sale occurred) by applying the highest applicable tax rate in effect in the year to which the income was allocated; (iii) an interest charge is added to this tax calculated by applying the underpayment interest rate to the tax for each year determined under the preceding sentence from the due date of the income tax return for such year to the due date of the return for the year in which the excess distribution or sale occurs; and (iv) amounts allocated to a year prior to the first year in the U.S. Holder’s holding period in which we were classified as a PFIC or to the year in which the excess distribution or the disposition occurred are taxed as ordinary income and no interest charge applies. The interest charge is non-deductible by individuals but is generally deductible by corporations.

If we were treated as a PFIC, a U.S. Holder of our shares would generally be subject to the PFIC rules described above with respect to distributions by us, and dispositions by us of the stock of, any direct or indirect subsidiaries of ours that are classified as PFICs under either the “asset test” or the “income test,” as if such holder received directly its pro-rata share of the proceeds from such disposition.

A U.S. Holder may generally avoid the PFIC regime by making a “qualified electing fund” election which generally provides that, in lieu of the foregoing treatment, our earnings, on a pro rata basis, would be currently included in their gross income. However, we may be unable or unwilling to provide information to our U.S. Holders that would enable them to make a “qualified electing fund” election; thus, such election may not be available.

In addition, U.S. Holders may generally avoid the PFIC regime by making the “mark-to-market” election with respect to our common shares as long as we are a PFIC and our common shares are considered to be readily tradable on an established securities market within the United States. “Marking-to-market,” in this context, means including in ordinary income each taxable year the excess, if any, of the fair market value of our common shares over your tax adjusted basis in such common shares as of the end of each year. This “mark-to-market” election generally enables a U.S. Holder to avoid the deferred interest charge that would otherwise be imposed on them if we were to be classified as a PFIC. However, if we were a PFIC, such election would not be available for any of our subsidiaries that also may be classified as PFICs, and those subsidiaries would continue to be subject to the PFIC rules described above.

If we are treated as a PFIC at any time that you hold our shares but cease to be classified as a PFIC in a later year, we will continue to be classified as a PFIC with respect to you unless you make a deemed sale election in a timely manner to be taxed as if you sold your shares on the last day of our last year during which we were treated as a PFIC. In this case, you would pay tax on the gain on the deemed sale treated as ordinary income and an interest charge, and no loss will be allowed to you. A timely deemed sale election can also be made with respect to our subsidiaries that are treated as PFICs, in which case you will be taxed on the amount of gain treated as ordinary income and pay an interest charge as if the stock of such subsidiaries had been actually sold or disposed of by us while we were a PFIC and you held our shares. If we subsequently become a PFIC, you will again be subject to the general PFIC rules discussed herein. We do not expect to monitor our status (or the status of any of our subsidiaries) as a PFIC for the current taxable year or in any future taxable year and, therefore, we may not be able to inform you as whether we have become a PFIC in any given year or whether we have subsequently ceased to be a PFIC.

If we were treated as a PFIC, each U.S. Holder would be required to make an annual return on IRS Form 8621, reporting, among other things, distributions received and gain realized with respect to each PFIC in which such holder holds a direct or indirect interest, and may be required to provide other information as specified by the IRS. In this regard, we note, in particular, that under recently enacted legislation U.S. Holders may be subject to further reporting requirements in connection with the annual filing of their respective U.S. federal income tax returns with respect to shareholdings in foreign corporations, which may include affirming whether or not a foreign corporation in which such U.S. Holder has invested is (or is not) a PFIC irrespective of whether any distributions have been received, the U.S. Holder has disposed of any stock of the foreign corporation, or the foreign corporation has disposed of any stock of its foreign subsidiaries in the relevant taxable year.

An actual determination of PFIC status is highly factual in nature. Given the complexity of the issues that may result if we are classified as or become a PFIC, you are urged to consult your own tax advisors with respect to the tax consequences to you in the event that this should occur, in view of your particular circumstances.

Non-U.S. Holders

If you are not a U.S. Holder, you are a “Non-U.S. Holder.”

Distributions on Our Common Shares

You generally will not be subject to U.S. federal income tax, including withholding tax, on distributions made on our common shares unless:

- you conduct a trade or business in the United States and
- the distributions are effectively connected with the conduct of that trade or business (and, if an applicable income tax treaty so requires as a condition for you to be subject to U.S. federal income tax on a net income basis in respect of income from our common shares, such distributions are attributable to a permanent establishment that you maintain in the United States).

If you meet the two tests above, you generally will be subject to tax in respect of such dividends in the same manner as a U.S. Holder, as described above. In addition, any effectively connected dividends received by a non-U.S. corporation may also, under certain circumstances, be subject to an additional “branch profits tax” at a 30 percent rate or such lower rate as may be specified by an applicable income tax treaty.

Sale, Exchange or Other Disposition of Our Common Shares

Generally, you will not be subject to U.S. federal income tax, including withholding tax, in respect of gain recognized on a sale or other taxable disposition of our common shares unless:

- your gain is effectively connected with a trade or business that you conduct in the United States (and, if an applicable income tax treaty so requires as a condition for you to be subject to U.S. federal income tax on a net income basis in respect of gain from the sale or other disposition of our common shares, such gain is attributable to a permanent establishment maintained by you in the United States), or
- you are an individual Non-U.S. Holder and are present in the United States for at least 183 days in the taxable year of the sale or other disposition, and certain other conditions exist.

You will be subject to tax in respect of any gain effectively connected with your conduct of a trade or business in the United States generally in the same manner as a U.S. Holder, as described above. Effectively connected gains realized by a non-U.S. corporation may also, under certain circumstances, be subject to an additional “branch profits tax” at a rate of 30 percent or such lower rate as may be specified by an applicable income tax treaty.

Backup Withholding and Information Reporting

Payments, including dividends and proceeds of sales, in respect of our common shares that are made in the United States or by a United States related financial intermediary will be subject to United States information reporting rules. In addition, such payments may be subject to United States federal backup withholding tax. You will not be subject to backup withholding provided that:

- you are a corporation or other exempt recipient, or
- you provide your correct United States federal taxpayer identification number and certify, under penalties of perjury, that you are not subject to backup withholding.

Amounts withheld under the backup withholding rules may be credited against your United States federal income tax, and you may obtain a refund of any excess amounts withheld under the backup withholding rules by filing the appropriate claim for refund with the IRS in a timely manner.

British Virgin Islands Tax Consequences

Under the International Business Companies Act of the British Virgin Islands as currently in effect, a holder of common equity, such as our common shares, who is not a resident of the British Virgin Islands is exempt from British Virgin Islands income tax on dividends paid with respect to the common equity and all holders of common equity are not liable to the British Virgin Islands for income tax on gains realized on sale or disposal of such shares: The British Virgin Islands does not impose a withholding tax on dividends paid by a company incorporated under the International Business Companies Act.

There are no capital gains, gift or inheritance taxes levied by the British Virgin Islands on companies incorporated under the International Business Companies Act. In addition, our common shares are not subject to transfer taxes, stamp duties or similar charges. There is no income tax treaty or convention currently in effect between the United States and the British Virgin Islands.

People's Republic of China Taxation

We are a holding company incorporated in the British Virgin Islands and conduct our business in China solely through our wholly owned subsidiaries. The new EIT Law and its implementation rules, both of which became effective on January 1, 2008, provide that China-sourced income of foreign enterprises, such as dividends paid by a PRC subsidiary to its overseas parent, will normally be subject to PRC withholding tax at a rate of 10.0%, unless there are applicable treaties that reduce such rate. Under a special arrangement between China and Hong Kong, such dividend withholding tax rate is reduced to 5.0% if a Hong Kong resident enterprise owns over 25% of the PRC company distributing the dividends.

Under the new EIT Law, enterprises established under the laws of jurisdictions outside China with their “*de facto* management bodies” located within China may be considered to be PRC tax resident enterprises for tax purposes. If we are considered a PRC tax resident enterprise under the above definition, then our global income will be subject to PRC enterprise income tax at the rate of 25.0%. See Item 3.D. “Risk Factors—Potential taxation on dividends and sale of our common stock—Any changes to our tax incentives could have a material adverse effect on our operating results. Our foreign holders may be subject to PRC withholding tax on the dividends payable by us and upon gains realized on their sales of our common shares if we are classified as a PRC “resident enterprise.”

Item 11. Quantitative and Qualitative Disclosures about Market Risk.

We are exposed to the impact of foreign currency fluctuations, interest rate changes and the potential increases in cost of plastic resins and metals. We have not entered into foreign currency hedges, interest rate swaps or commodity futures for speculative purposes or otherwise.

We sell a majority of our products in Chinese Renminbi and pay for our materials and components in U.S. dollars, Hong Kong dollars and Chinese Renminbi. We pay labor and overhead expenses in Renminbi, Hong Kong dollars and U.S. dollars. The exchange rate of the Hong Kong dollar to the U.S. dollar has been fixed by the Hong Kong Government since 1983 at a range of HK\$7.65 to HK\$7.80 to US\$1.00 through the currency-issuing banks in Hong Kong. Consequently, the Company has not experienced any currency exchange risk exposure relating to the Hong Kong dollar in the past. This could change in the future if those in Hong Kong who are proposing a floating currency system prevail in the ongoing debate over whether to continue to peg the Hong Kong dollar to the U.S. dollar.

Effective January 1, 1994, China adopted a floating currency system whereby the official exchange rate equals the market rate. Since the market rate and official rates were unified, the value of the Renminbi against the Hong Kong dollar and U.S. dollar was stable until 2006. On July 21, 2005, the People's Bank of China ("PBOC") decided to abandon its policy of pegging the Renminbi to the U.S. dollar and link the Renminbi to a basket of currencies. The PBOC also strengthened the exchange rate of the Renminbi at that time to 8.11 to the U.S. dollar from 8.28. The Chinese authorities had therefore taken their first step towards a floating currency. As of March 31, 2014, the exchange rate was 6.1521 and as of June 30, 2014 the exchange rate was 6.1528, a 0.01% appreciation since our fiscal year end. Revaluation will have a different impact on different segments of our business but we believe our most significant foreign exchange risk results from our purchase of materials outside the PRC should the RMB depreciate. Materials represent 78% of our cost in 2014, a significant portion of which were purchased in US\$. A 1% appreciation in the Renminbi would increase our operating profit by approximately \$0.1 million. Our net current assets in the PRC as of March 31, 2014 denominated in RMB amounted to RMB133 million (\$21.4 million).

Item 12. Description of Securities Other than Equity Securities.

A. Debt securities.

Not applicable.

B. Warrants and rights.

Not applicable.

PART II

Item 13. Defaults, Dividend Arrearages and Delinquencies.

We are not in material default of any of our obligations relating to indebtedness. We are not delinquent with respect to the payment of dividends.

Item 14. Material Modifications to the Rights of Security Holders and Use of Proceeds.

During our last fiscal year, we have not materially modified any of the rights or instruments defining the rights of our security holders. We do not have any registered securities that are secured by our assets. The trustees or paying agents for our securities have not changed during the last fiscal year.

Use of Proceeds

On April 7, 1998, the SEC declared effective our Registration Statement on Form F-1, File No. 333-8462, for the registration of 4,830,000 pre four-for-one reverse split common shares in our initial public offering. Net proceeds from the initial public offering were approximately \$81.0 million. As of April 2003, we had used the net proceeds of the offering as follows: approximately \$16.5 million for a payment of a dividend; \$9.8 million for the acquisition of a majority interest in Lite Array; \$6.6 million for the expansion of the Dongguan facility and the purchase of fuel energy saving equipment; \$2.0 million for the purchase of machinery, tooling and equipment; and \$10.4 million for the repayment of indebtedness as reported in prior filings. After our listing on the NYSE for five years, we no longer keep track of the use of proceeds as there are continuous inflows and outflows of cash from operating and financing activities. We believe we can finance our existing business and new projects from the cash generated from our operating, financing and investing activities and we are able to maintain an adequate level of funds for potential business development or acquisition. Most of our fund balance continues to remain in temporary investments, including short-term marketable securities, U.S. dollar denominated interest-bearing savings accounts, a money market funds, and other cash-related instruments.

Item 15. Controls and Procedures

(a) Disclosure controls and procedures

As of March 31, 2014, an evaluation was performed, under the supervision and with the participation of the Company's management including the Company's Chief Executive Officer and Acting Chief Financial Officer, of the effectiveness of the design and operation of the Company's disclosure controls and procedures pursuant to Rule 13a-15 under the Exchange Act. Based upon this evaluation and for the reasons stated below, such officers concluded that the Company's disclosure controls and procedures were not effective to ensure that information required to be disclosed by the Company in the reports it files or submits under the Exchange Act (1) is recorded, processed, summarized and reported, within the time periods specified in the Securities and Exchange Commission's rules and forms and (2) is accumulated and communicated to the Company's management including the Chief Executive Officer and Acting Chief Financial Officer, as appropriate to allow for timely decisions regarding required disclosure.

(b) Management's annual report on internal control over financial reporting

MANAGEMENT REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING

The Company's management is responsible for establishing and maintaining adequate internal control over financial reporting. The Company's internal control over financial reporting is a process designed under the supervision of the Company's principal executive and financial officers to provide reasonable assurance regarding the reliability of financial reporting and the preparation of the Company's financial statements for external reporting purposes in accordance with U.S. generally accepted accounting principles.

The Company's internal control over financial reporting includes policies and procedures that:

- Pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect transactions and dispositions of assets of the Company;
- Provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with U.S. generally accepted accounting principles, and that receipts and expenditures of the Company are being made only in accordance with authorizations of management and the directors of the Company; and
- Provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use or disposition of the Company's assets that could have a material effect on the Company's financial statements.

Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies and procedures may deteriorate.

Management has assessed the effectiveness of its internal control over financial reporting as of March 31, 2014 based on the framework established in Internal Control—Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission (“COSO”) in 1992. Based on this assessment, management has determined that the Company’s internal control over financial reporting is not effective as of March 31, 2014. In making its assessment, management identified a material weakness, similar to prior years, concerning the Company’s internal accounting staff’s lack of understanding of complex accounting issues related to U.S. generally accepted accounting principles (“GAAP”), including accounting for income taxes. In response, external consultants were engaged to perform a number of tasks to prepare specific accounting analysis and necessary corrections were made prior to any public announcements or filings with the SEC. Additionally, as part of its ongoing efforts to address the potential weakness described above, the Company will continue retaining external consultants who have sufficient and appropriate technical skills to help the Company identify and resolve accounting and reporting issues.

(c) Attestation report of the registered public accounting firm

This annual report does not include an attestation report of our independent registered public accounting firm regarding internal controls over financial reporting. As a non-accelerated filer, our report was not subject to attestation by our independent registered public accounting firm pursuant to rules of the SEC that permit us to provide only our report on internal controls over financial reporting in this annual report.

(d) Changes in Internal Control over financial reporting

Except as indicated in section (b) above, there were no changes that occurred during the period covered by this Form 20-F, that materially affected, or are likely to affect our internal control over financial reporting.

Item 16. Reserved

Not applicable.

Item 16A. Audit Committee Financial Expert

The audit committee is composed entirely of independent directors and is responsible for reviewing and making recommendations to the Board of Directors regarding the Company’s accounting policies, reporting practices, internal controls, annual and quarterly financial statements and financial information included in the Company’s reporting and disclosure documents with the SEC. The Committee also reviews significant audit findings, material litigation and claims whether asserted or unasserted and any issues between management and the external auditors.

The audit committee closely monitors the requirements of the Sarbanes-Oxley Act of 2002. Additionally, the audit committee receives its charter and assesses its performance at least annually.

The audit committee is currently comprised of three independent directors, Barry J. Buttifant, Patrick Po-On Hui and Ken Ying-Keung Wong. Dr. Buttifant is the chairman of the audit committee. The board of directors has determined that Barry J. Buttifant meets or exceeds the training, knowledge and requirements for a “financial expert” and is thus designated as the Company’s financial expert on the audit committee.

Dr. Buttifant is a fellow member of the Association of Chartered Certified Accountants and the Hong Kong Institute of Certified Public Accountants. He is also a fellow member of the Chartered Management Institute, the Hong Kong Management Association and the Hong Kong Institute of Directors. See Item 6A.—Directors and senior management for his biography.

Item 16B. Code of Ethics

The Company has adopted a code of ethics that applies to its principal executive officer, principal financial officer, principal accounting officer or controller, or persons performing similar functions. (See Exhibit 11.1)

Item 16C. Principal Accountant Fees and Services

Mazars CPA Limited became our independent auditor in fiscal 2012. Fees payable for the fiscal years ended March 31, 2014 and 2013 to Mazars is detailed below:

	Fiscal Year Ended March 31, 2014	Fiscal Year Ended March 31, 2013
Audit fees	\$ 210,000	\$ 200,000
Audit-related fees	Nil	Nil
Tax fees	Nil	Nil
All other fees	Nil	Nil
Total fees	\$ 210,000	\$ 200,000

The nature of each category of fee is described below:

Audit Fees. The audit fees include fees for audit or review of the Company's financial reports plus fees for services that generally an auditor can reasonably provide. The services include the statutory audit and review of documents filed with SEC.

Audit-Related Fees. We did not engage Mazars for any other audit-related services arrangement.

Tax Fees. We did not engage Mazars for any other tax services arrangement.

All Other Fees. We did not engage Mazars for any other services arrangement.

Pre-Approval Policies and Procedures. The audit committee has determined that the provision of services other than audit services should be provided by a firm other than the one that performs our audit. The audit committee, pursuant to its written charter, pre-approves all audit services provided by Mazars. To the extent Mazars provides any non-audit services in the future the audit committee is empowered to also pre-approve such services. Currently, our independent auditor is Mazars and we engage PricewaterhouseCoopers as our main tax advisor.

Item 16F. Change in Registrant's Certifying Accountant.

Not applicable.

Item 16G. Corporate Governance

The Company's corporate governance practices are governed by applicable British Virgin Islands law, as well as by its Memorandum and Articles of Association. We have securities that are registered with the SEC and are listed on the Nasdaq, and are therefore subject to corporate governance requirements applicable to foreign private issuers listed on the Nasdaq. Nasdaq Marketplace Rule 5615(a)(1)(3) provides that foreign private issuers listed on Nasdaq may elect to follow home country corporate governance practices in lieu of certain of the corporate governance requirements set forth in the Rule 5400 series, Rule 5250(d), and Rules 5210(c) and 5255, with the exception that all such issuers shall: (i) comply with Rule 5625 (Notification of Material Noncompliance); (ii) have an audit committee that satisfies Rule 5605(c)(3) that consists of members that meet the criteria for independence referenced in Rule 5605(c)(2)(A)(ii); and (iii) comply with Rules 5210(c) and 5255 (Direct Registration Program) unless prohibited from complying by law or regulation in its home country. Furthermore, foreign private issuers electing to follow home country practice in lieu of a requirement of Rules 5600, 5250(d), 5210(c) or 5255 are required to submit to Nasdaq a written statement from an independent counsel in such issuer's home country certifying that the issuer's practices are not prohibited by the home country's laws and, in the case of Rules 5210(c) and 5255, certifying that a law or regulation in the home country prohibits compliance. The Company submitted the required certification in connection with its listing application on November 26, 2008.

Rules	Requirements	Company Compliance
Rule 5605(b)(1) Majority Independent Board	A majority of the board of directors must be comprised of “Independent Directors” as defined in Rule 5605(a)(2).	It is not mandatory for Global-Tech to comply with this provision. However, Global-Tech’s board consists of five members, of which three are independent.
Rule 5605(a)(2) and 5605(b)(1) Definition of Independent Directors	<p>(a) Independent director should be a person other than an officer or employee of the Company or its subsidiaries or any other individual having a relationship, which, in the opinion of the Company’s board of directors, would interfere with the exercise of independent judgment in carrying out the responsibilities of a director.</p> <p>(b) The following persons shall not be considered “independent”:</p> <ul style="list-style-type: none"> (i) A director who is, or during the past three years was, employed by the Company; (ii) A director who accepts or who has a Family Member who accepts any payments from the Company in excess of \$120,000 during any period of twelve consecutive months within the three years preceding the determination of independence, other than compensation for board service, compensation paid to a Family Member who is an employee of the Company, benefits under a tax-qualified retirement plan, or non-discretionary compensation; (iii) A director who is a Family Member of an individual who is, or during the post three years was employed by the Company as an executive officer; (iv) A director who is, or has a Family Member who is, a current partner of the Company’s outside auditor, or was a partner or employee of the Company’s outside auditor who worked on the Company’s audit at any time during any of the past three years; 	Global-Tech considers whether its board members meet the requirements of being “independent.”
Rule 5605(b)(2) Executive Sessions	The board must have regularly scheduled (at least twice a year) meetings at which only independent directors are present.	Global-Tech is not required to hold regularly scheduled meetings of independent directors. Accordingly, the board does not hold regularly scheduled sessions of the independent directors.
Rule 5605(e)(1) Independent Director Oversight of Nominations of Directors	Director nominees must be selected or recommended for the Board’s selection by (a) a majority of independent directors on the board or (b) by a nominating committee comprised solely of independent directors.	Global-Tech is not required to have a nominating committee. However, any director nominees must be selected by a majority of independent directors.
Rule 5405(d) Independent Director Oversight of Executive Officer Compensation	Compensation of the chief executive and other executive officers must be determined or recommended to the board by majority vote of only Independent Directors or a compensation committee comprised solely of Independent Directors. The chief executive officer may not be present during voting or deliberations regarding the determination of compensation of the chief executive officer.	Mr. Brian Yuen, one member of Global-Tech’s compensation committee, is not considered independent since he is a member of management of the Company.

Rules	Requirements	Company Compliance
Rule 5605(c)(1) Audit Committee Charter	The Company has adopted a formal written Audit Committee Charter specifying the items enumerated in Rule 5605(c)(1), and that the Audit Committee will review and assess the adequacy of the charter on an annual basis.	The Company has a formal charter that is reviewed annually.
Rule 5610 Code of Conduct	Each Company must adopt a code of conduct applicable to all directors, officers and employees, which shall be publicly available.	Global-Tech has adopted a code of ethics that applies to its principal executive officer, principal financial officer, principal accounting officer or controller, or persons performing similar functions.

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Board of Directors and shareholders of
Global-Tech Advanced Innovations Inc.

We have audited the accompanying consolidated balance sheets of Global-Tech Advanced Innovations Inc. and its subsidiaries (collectively referred to as the “Company”) as of March 31, 2014 and 2013, and the related consolidated statements of operations and comprehensive income, changes in shareholders’ equity and cash flows for the years ended March 31, 2014, 2013 and 2012. These consolidated financial statements are the responsibility of the Company’s management. Our responsibility is to express an opinion on these consolidated financial statements based on our audit.

We conducted our audit in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free of material misstatement. The Company is not required to have, nor were we engaged to perform, an audit of its internal control over financial reporting. Our audit included consideration of internal control over financial reporting as a basis for designing auditing procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company’s internal control over financial reporting. Accordingly, we express no such opinion. Our audit also included examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management and evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the financial positions of the Company as of March 31, 2014 and 2013, and the consolidated results of its operations and cash flows for the years ended March 31, 2014, 2013 and 2012, in conformity with accounting principles generally accepted in the United States of America.

The accompanying notes are an integral part of the consolidated financial statements.

GLOBAL-TECH ADVANCED INNOVATIONS INC.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

1. ORGANIZATION AND PRINCIPAL ACTIVITIES

Global-Tech Advanced Innovations Inc. (“Global-Tech”) (formerly known as Global-Tech Appliances Inc.) is primarily an investment holding company, which was incorporated in the British Virgin Islands on May 2, 1991. Global-Tech and its subsidiaries (hereinafter collectively referred to as the “Company”) was primarily a manufacturer of consumer electrical products, including, but not limited to electronic and optical components, and is also involved in the assembly of cellular phones. The Company’s manufacturing operation is located in Dongguan, the People’s Republic of China (the “PRC”). The Company’s products are primarily sold to customers located in the PRC.

Effective December 10, 2008, Global-Tech’s common stock was no longer traded on the New York Stock Exchange and commenced trading on the Nasdaq Capital Market (“Nasdaq”) under the symbol “GAI”. Global-Tech also changed its name to “Global-Tech Advanced Innovations Inc.,” effective as of the close of business on December 10, 2008.

To satisfy the minimum bid price requirement of Nasdaq, Global-Tech’s Board of Directors authorized an amendment to Global-Tech’s Memorandum of Association to effect a 4-for-1 reverse stock split of the issued and outstanding shares of common stock of Global-Tech, effective as of the close of business on December 10, 2008 (the “Effective Date”). Global-Tech also proportionally reduced the authorized number of its common and preferred stock by four to 12,500,000 and 250,000, respectively. These consolidated financial statements present common stock, preferred stock and share option information to reflect the above-mentioned reverse stock split on a retroactive basis.

2. SUBSIDIARIES

Details of Global-Tech’s subsidiaries as of March 31, 2014 were as follows:

<u>Name</u>	<u>Place of incorporation/ registration</u>	<u>Percentage of equity interest attributable to the Company</u>	<u>Principal activities</u>
Global Display Holdings Limited	British Virgin Islands	100	Investment holding
Kwong Lee Shun Trading Company Limited	Hong Kong	100	Leasing of a property
Consortium Investment (BVI) Limited	British Virgin Islands	100	Investment holding
GT Investments (BVI) Limited	British Virgin Islands	100	Investment holding
Global Optics Limited	Hong Kong	100	Trading of raw materials and electronic and optical components
Dongguan Wing Shing Electrical Products Factory Company Limited (“DWS”)	PRC	100	Factory complex rental and maintenance
Guangdong Lite Array Company Limited (“DGLAD”) (formerly known as Dongguan Lite Array Company Limited)	PRC	100	Developing, manufacturing and marketing of electronic and optical components
Dongguan Microview Medical Technology Company Limited	PRC	100	Manufacturing and distribution of medical instruments
Joke Media Limited	PRC	100	Media services
Global Household Products Limited	Hong Kong	100	Inactive
Pentalpha Medical Limited	Hong Kong	100	Inactive
Pentalpha Hong Kong Limited	Hong Kong	100	Inactive
Global-Tech USA, Inc.	State of Delaware, U.S.A.	100	Provision of consultation services
Global Lite Array (BVI) Limited	British Virgin Islands	76.75	Investment holding
Lite Array, Inc.	State of Delaware, U.S.A.	76.75	Inactive

Wing Shing Overseas Limited and Global Appliances Holdings Limited were dissolved on May 28, 2013 and September 12, 2013, respectively.

GLOBAL-TECH ADVANCED INNOVATIONS INC.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (continued)

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

(a) Basis of preparation

These consolidated financial statements have been prepared in accordance with generally accepted accounting principles in the United States (“U.S. GAAP”).

(b) Basis of consolidation

The consolidated financial statements include the financial statements of Global-Tech and its subsidiaries. The fiscal year end date of Lite Array Holdings Limited (“Lite Array Holdings”), a jointly-controlled entity of the Company, is December 31. There have been no significant transactions in Lite Array Holdings and its subsidiaries which would materially affect the Company’s financial position and results of operations during each of the periods from Lite Array Holdings’ fiscal year end date to March 31, 2014, 2013 and 2012, respectively.

All significant intercompany balances and transactions between group companies are eliminated on consolidation.

(c) Discontinued operations

Unless otherwise indicated, information presented in the notes to the consolidated financial statements relates only to Global-Tech’s continuing operations. Information related to discontinued operations is included in note 18 and in some instances, where appropriate, is included as separate disclosure within the individual footnotes.

(d) Use of estimates

The preparation of these consolidated financial statements in conformity with U.S. GAAP requires management to make estimates, judgments and assumptions. These estimates, judgments and assumptions affect the amounts that are reported in these consolidated financial statements and accompanying disclosures. The accounting estimates with regard to these consolidated financial statements that require the most significant and subjective judgments include, but are not limited to, valuation of investments and determination of other-than-temporary impairments, useful lives of property, plant and equipment, recoverability of long-lived assets, determination of impairment losses, assessment of market value of inventories and provision for inventory obsolescence, allowance for doubtful accounts, provision for employee benefits, provision for warranty, recognition and measurement of current and deferred income taxes (including income tax benefit (expense)), valuation allowance for deferred tax assets, assumptions used for the valuation of options to purchase Global-Tech’s common stock, provision for loss contingencies, and measurement of fair values of financial instruments. Changes in facts and circumstances may result in revised estimates.

(e) Cash and cash equivalents

Cash and cash equivalents consist of cash on hand and bank deposits, which are unrestricted to withdraw and use, and other investments that are readily convertible into cash with original maturities of three months or less.

(f) Restricted cash

Restricted cash consists of bank deposits, which may only be used to settle pre-arranged general banking facilities.

GLOBAL-TECH ADVANCED INNOVATIONS INC.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (continued)

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

(g) Investments

Debt and equity investments designated as available-for-sale investments are stated at fair value. Unrealized gains or losses, net of tax, on available-for-sale investments are included in accumulated other comprehensive income (loss), a separate component of shareholders' equity. Realized gains and losses and any declines in fair value judged to be other-than-temporary on available-for-sale investments are included in the consolidated statement of operations and comprehensive income. Gains or losses on sale of investments and amounts reclassified from accumulated other comprehensive income (loss) to earnings are computed based on the specific identification method. Interest or dividend income on securities classified as available-for-sale investments is included in interest income or dividend income, respectively.

Non-derivative securities with fixed or determinable payments and fixed maturities are classified as held-to-maturity investments if the Company has both the positive intention and ability to hold the financial assets to maturity. Investments intended to be held to maturity are measured at amortized cost. Interest on securities classified as held-to-maturity investments is included in interest income.

Prior to April 1, 2009, declines in the fair value of held-to-maturity and available-for-sale securities below their amortized cost, that were deemed to be other-than-temporary, were all reported in investment gains (losses), net. Effective April 1, 2009, the Company adopted new accounting guidance for impairment of debt securities that are deemed to be other-than-temporary. Factors considered in evaluating potential impairment include, but are not limited to, the current fair value as compared to cost or amortized cost of the security, as appropriate, the length of time the investment has been below cost or amortized cost and by how much, our intent to sell a security and whether it is more-likely-than-not we will be required to sell the security before the recovery of our amortized cost basis, and specific credit issues related to the issuer and current economic conditions. Under the new impairment model, the credit component of an other-than-temporary impairment of a debt security is reported in investment gains (losses), net and the noncredit component is reported in other comprehensive income (loss). In addition, other-than-temporary declines in beneficial interests purchased or retained in a securitization transaction which are classified as available-for-sale debt securities are recognized if there has been an adverse change in the cash flows as of the end of the reporting period. Interest and dividends, as well as amortization of premiums and accretion of discounts, are reported in interest and dividend income. Amortization of premiums and accretion of discounts on debt securities are recognized over the remaining maturity under the interest method.

A jointly-controlled entity is a joint venture that is subject to joint control, resulting in none of the participating parties having unilateral control over the economic activity of the jointly-controlled entity. The Company's investment in a jointly-controlled entity for which it, not being the unilateral controlling owner of the entity, but has the ability to exercise joint control, is accounted for using the equity method. Under the equity method, the Company's proportionate share of the jointly-controlled entities' net income or loss and amortization of any identifiable intangibles arising from the investment is included in "Share of income (losses) of jointly-controlled entities". The Company ceases to apply the equity method when its share of the jointly-controlled entities' losses exceeds the carrying value of its investment.

During the fiscal years ended March 31, 2014, 2013 and 2012, the Company has discontinued the recognition of its share of losses of the jointly-controlled entities because the share of losses of the jointly-controlled entities exceeded the Company's interests in the jointly-controlled entities. The Company has no further obligations to fund operations.

All other investments for which the Company does not have the ability to exercise joint control or significant influence (generally, when the Company has an investment of less than 20% ownership and no representation on the investee's board of directors) and for which there is not a readily determinable fair value, are accounted for using the cost method. Dividends and other distributions of earnings from such investees, if any, are included in income when declared. The Company periodically evaluates the carrying value of its investments accounted for under the cost method for impairment with any loss included in the consolidated statement of operations and comprehensive income in the period when it is incurred.

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

(h) Accounts and bills receivable

Accounts and bills receivable are presented net of an allowance for doubtful accounts, which is an estimate of amounts that may not be collectible. The Company does not charge interest on accounts receivable. The allowance for doubtful accounts is estimated based on historical experience, receivable aging, current economic trends and specific identification of certain receivables that are at the risk of not being paid. The Company reviews the aged analysis of accounts and bills receivable on a regular basis. Whenever it is clear that the amounts are deemed to be uncollectible, receivables are written off against the allowance for doubtful accounts.

(i) Inventories

Inventories are stated at the lower of cost or market value. Cost, calculated on the weighted average basis, comprises direct materials and, where applicable, direct labor and an appropriate proportion of overheads.

(j) Property, plant and equipment

Property, plant and equipment, other than construction in progress, are stated at cost less accumulated depreciation and any accumulated impairment losses. The cost of an item of property, plant and equipment comprises its purchase price and any directly attributable costs of bringing the asset to its working condition and location for its intended use. Expenditure incurred after an item of property, plant and equipment has been put into operation, such as repairs and maintenance, is normally charged to the consolidated statement of operations and comprehensive income in the period in which it is incurred. In situations where it can be clearly demonstrated that the expenditure has resulted in an increase in the future economic benefits expected to be obtained from the use of an item of property, plant and equipment, and where the cost of the item can be measured reliably, the expenditure is capitalized as an additional cost of that asset. Depreciation is calculated on the straight-line basis at annual rates over the asset's estimated useful life.

The principal annual rates used for this purpose are as follows:

	Annual rate
Leasehold improvements	Over the shorter of the lease terms or the estimated useful life
Buildings	4.5%
Plant	4.5%
Machinery	10%
Moulds	20% - 33%
Transportation equipment	15% - 20%
Furniture, fixtures and equipment	15% - 33%

An item of property, plant and equipment is derecognized upon disposal or when no future economic benefits are expected to arise from the continued use of the asset. The gain or loss arising on derecognition of an item of property, plant and equipment, calculated as the difference between the net disposal proceeds and the carrying amount of the item, is included in the consolidated statement of operations and comprehensive income in the period the item is derecognized. Machinery and equipment used in the home appliance business has been derecognized pending sale.

(k) Construction in progress

Construction in progress represents property, plant and equipment under construction or installation and is stated at cost less any accumulated impairment losses, and is not depreciated. Cost comprises the direct costs of construction, installation and other costs in making the asset ready for its intended use. Construction in progress is reclassified to the appropriate category of property, plant and equipment when completed and ready for its intended use.

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

(l) Impairment of long-lived assets

Long-lived assets are included in impairment evaluations when events and circumstances exist that indicate the carrying value of these assets may not be recoverable. In accordance with Financial Accounting Standards Board (“FASB”) ASC 360 “Property, Plant and Equipment” the Company assesses the recoverability of the carrying value of long-lived assets by first grouping its long-lived assets with other assets and liabilities at the lowest level for which identifiable cash flows are largely independent of the cash flows of other assets and liabilities (the asset group) and, secondly, estimating the undiscounted future cash flows that are directly associated with and expected to arise from the use of and eventual disposition of such asset group. The Company estimates the undiscounted cash flows over the remaining useful life of the primary asset within the asset group. If the carrying value of the asset group exceeds the estimated undiscounted cash flows, the Company records an impairment charge to the extent the carrying value of the long-lived asset exceeds its fair value. The Company determines fair value through quoted market prices in active markets or, if quotations of market prices are unavailable, through the performance of internal analysis using a discounted cash flow methodology or obtains external appraisals from independent valuation firms. The undiscounted and discounted cash flow analysis is based on a number of estimates and assumptions, including the expected period over which the asset will be utilized, projected future operating results of the asset group, discount rate and long-term growth rate. Long-lived assets, excluding buildings, associated with the home appliance business and electronic manufacturing services (“EMS”) business are considered to be impaired and accordingly have been written down to fair value less the estimated cost of disposal. Since the Company has leased a significant portion of the buildings previously occupied by the home appliance business and EMS business, the Company was able to perform an impairment analysis based on anticipated future rental income, and as a result determined that they were not impaired.

(m) Revenue recognition

The Company recognizes revenue in accordance with the Securities and Exchange Commission (the “SEC”) Staff Accounting Bulletin (“SAB”) No. 104, “Revenue Recognition”, which requires that four basic criteria must be met before revenue can be recognized: (1) there is persuasive evidence that an arrangement exists; (2) delivery has occurred or services have been rendered; (3) the fee is fixed or determinable; and (4) collectibility is reasonably assured. Net sales represent the gross invoiced amount, net of discounts, and are recognized when goods are shipped and title has passed. To the extent products are required to meet customer specifications, such products are subject to technical and quality tests that are designed to ensure compliance prior to shipment.

Under the Company’s standard terms and conditions, which are mainly Free On Board shipping point, title and risk of loss are transferred to the customer at the time the product is delivered to the customer’s freight forwarder.

Revenue related to camera modules (“CCMs”) shipments to certain telecommunication customers in the PRC is recognized upon notarized acceptance of the product by the customer.

Revenue related to the provision of assembly services is recognized upon the completion of such services and delivery of the related products using the same criteria of SAB No. 104 stated above.

Deposits or advance payments from customers prior to delivery and passage of title of merchandise are recorded as customer deposits.

Revenue related to the provision of tooling income is recognized upon the completion of such services and delivery of the related product using the same criteria of SAB No. 104 stated above.

In accordance with the relevant tax laws in the PRC, value-added tax is levied on the invoiced value of sales of goods and is payable by the purchaser. Revenue is recognized net of all value-added tax imposed by governmental authorities and collected from customers concurrent with revenue-producing transactions.

(n) Advertising costs

Advertising costs represent costs relating to promotional activities intended to stimulate, directly or indirectly, a customer’s purchase of goods, and are charged to the consolidated statement of operations and comprehensive income as incurred and are included in “Selling, general and administrative expenses” (“SG&A”). Advertising expenses were US\$151,027, US\$223,682 and US\$81,098 from continuing operations for the fiscal years ended March 31, 2014, 2013 and 2012, respectively. Whereas, US\$5,074, US\$7,489 and US\$1,754 were from discontinued operations for the fiscal years ended March 31, 2014, 2013 and 2012, respectively.

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

(o) Design and development costs

Design and development costs primarily relate to the cost of samples and prototypes and salaries of our engineers. The Company expenses all design and development costs when incurred. Included in the SG&A expenses line item in the consolidated statement of operations and comprehensive income were design and development costs of US\$498,068, US\$366,001 and US\$284,499 from continuing operations (from discontinued operations 2014, 2013 and 2012: US\$331,424, US\$454,648 and US\$442,459) for the fiscal years ended March 31, 2014, 2013 and 2012, respectively.

(p) Shipping and handling costs

In accordance with FASB ASC 605 "Revenue Recognition", shipping and handling fees billed to customers are included in net sales in the consolidated statement of operations and comprehensive income. Any shipping and handling costs incurred by the Company associated with the sale of products are included in SG&A on the face of the consolidated statement of operations and comprehensive income. During the fiscal years ended March 31, 2014, 2013 and 2012, shipping and handling costs charged to SG&A were US\$202,112, US\$167,411 and US\$82,290 from continuing operations (from discontinued operations 2014: US\$54,729, 2013: US\$160,384 and 2012: US\$857,449), respectively.

Any inbound freight charges, receiving, inspection, warehousing and internal transfer costs incurred by the Company are expensed as cost of goods sold. During the fiscal years ended March 31, 2014, 2013 and 2012, inbound freight costs charged to cost of goods sold were US\$31,986, US\$21,434 and US\$20,922 from continuing operations (from discontinued operations 2014: nil, 2013: nil and 2012: US\$70,279), respectively. Other related costs are included in manufacturing overheads.

(q) Foreign currencies

All transactions in currencies other than functional currencies during the year are translated at the exchange rates prevailing on the respective transaction dates. Monetary assets and liabilities existing at the balance sheet date denominated in currencies other than functional currencies are remeasured at the exchange rates existing on that date. Exchange differences are recorded in the consolidated statement of operations and comprehensive income.

The functional currency of Global-Tech is the U.S. Dollar ("US\$"). The financial statements of all subsidiaries are translated in accordance with FASB ASC 830 "Foreign Currency Matters". All assets and liabilities are translated at the rates of exchange ruling at the balance sheet date and all income and expense items are translated at the average rates of exchange over the year. All exchange differences arising from the translation of subsidiaries' financial statements are recorded as a component of comprehensive income or loss.

(r) Income taxes

Deferred income taxes are provided using the asset and liability method in accordance with FASB ASC 740 "*Income taxes*". Under this method, deferred income taxes are recognized for all significant temporary differences at enacted rates and classified as current or non-current based upon the classification of the related asset or liability in the consolidated financial statements. A valuation allowance is provided to reduce the amount of deferred tax assets if it is considered more likely than not that some portion of, or all, the deferred tax asset will not be realized.

FASB ASC 740 clarifies the accounting for uncertainty in income taxes recognized in an enterprise's financial statements, and prescribes a recognition threshold and measurement attribute for the financial statement recognition and measurement of a tax position taken or expected to be taken in a tax return. It also provides accounting guidance on de-recognition, classification, interest and penalties, accounting in interim periods, disclosure and transition. Interest and penalties from tax assessments, if any, are included in income taxes in the consolidated statement of operations and comprehensive income.

The Company records its possible interest and penalties due to any potential underpayment of income taxes, if and when required, in interest expense and other expenses, respectively.

The Company did not provide for deferred income taxes and foreign withholding taxes on the undistributed earnings of foreign subsidiaries. The Company intends to permanently reinvest foreign subsidiaries' earnings.

GLOBAL-TECH ADVANCED INNOVATIONS INC.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (continued)

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

(s) Stock compensation expense

The Company adopted FASB ASC 718 “Compensation-Stock Compensation”, and related interpretations in accounting for its employee share-based payment transactions. Accordingly, stock compensation cost is measured at the date of grant and estimated using the option pricing model. Stock issued to an employee as compensation is measured at fair value based on the grant date quoted market price. The compensation cost for share-based awards with service conditions is amortized over the vesting period of the awards using the straight-line method provided that the amount of compensation cost recognized at any date must at least equal the portion of the grant date fair value of the award that is vested at that date.

The Company accounts for stock options granted to a counterparty other than an employee in accordance with FASB ASC 505 “Equity”. Fair value of the equity instruments is recognized on the measurement date which is the earlier of (i) a commitment for performance by the counterparty to earn the equity instruments being reached or (ii) the counterparty’s performance being completed.

(t) Retirement costs

Retirement cost contributions relating to defined contribution plans are made based on a percentage of the relevant employees’ salaries and are included in the consolidated statement of operations and comprehensive income as they become payable. The assumptions used in calculating the obligation for retirement cost contributions depend on the local economic environment, interpretations and practices in respect thereof.

(u) Operating leases

Leases where substantially all the rewards and risks of ownership remain with the lessor are accounted for as operating leases. Payments made under operating leases net of any incentives received from the lessors are charged to the consolidated statement of operations and comprehensive income on a straight-line basis over the period of the relevant leases.

Assets leased out under operating leases are included in “Property, plant and equipment” in the consolidated balance sheet. They are depreciated over the expected useful lives on a basis consistent with similar owned items of property, plant and equipment. Rental income (net of any incentives given to lessees) is recognized on a straight-line basis over the lease terms.

(v) Earnings (loss) per share

Basic earnings or loss per share of common stock is computed by dividing the net income or loss available to common shareholders for the year by the weighted average number of shares of common stock outstanding during the year.

Diluted earnings or loss per share of common stock reflects the potential dilution that could occur if securities or other contracts/arrangements to issue shares of common stock were exercised or converted into shares of common stock. Common equivalent shares, comprised of incremental shares of common stock issuable upon the exercise of stock options, are included in diluted earnings or loss per share if they have a dilutive effect by application of the treasury stock method.

(w) Treasury stock

The Company accounts for the acquired shares of its own capital stock (“treasury stock”) in accordance with Accounting Research Bulletin (“ARB”) No. 43, Chapter 1B, and Accounting Principles Board Opinion No. 6, “Status of Accounting Research Bulletins”. The cost of the acquired treasury stock is shown as a deduction from shareholders’ equity. Gains on sale of treasury stock not previously accounted for as constructively reissued are credited to additional paid-in capital while losses are charged to additional paid-in capital to the extent that previous net gains from the sale or retirement of the same class of stock are included therein, otherwise the loss is charged to retained earnings/accumulated deficit.

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

(x) Comprehensive income (loss)

Comprehensive income (loss) is defined as the consolidated change in equity of the Company during a period from transactions and other events and circumstances excluding transactions resulting from investments by owners and distributions to shareholders. Total net comprehensive income (loss) includes net income or loss for the year as well as additional other comprehensive income (loss). The Company's other comprehensive income (loss) consists of the Company's share of other comprehensive income of jointly-controlled entities, unrealized gains and losses on available-for-sale investments and foreign currency translation adjustments, all recorded net of tax.

(y) Accruals and loss contingencies

The Company makes provision for all loss contingencies when information available prior to the issuance of the consolidated financial statements indicates that it is probable that an asset has been impaired or a liability has been incurred at the date of the consolidated financial statements and the amount of loss can be reasonably estimated.

For provision or accruals related to litigation, social insurance, property tax, etc, the Company makes provisions based on information from legal counsel and the best estimation of management. The Company assesses the potential liability to be recorded if the contingency loss is probable and the amount of loss can be reasonably estimated. The actual resolution of the contingency may differ from the Company's estimates. If the contingency was settled for an amount greater than the estimate, a future charge to income would result. Likewise, if the contingency was settled for an amount that is less than our estimates, a future credit to income would result.

(z) Segment reporting

The Company follows FASB ASC 280 "Segment Reporting". During fiscal 2014, the Company operated and managed its business in two segments. The Company exited the EMS business in December 2013 and home appliance business in January 2012 and thus the home appliance and EMS segments are presented as discontinued operations. The accounting policies used in its segment reporting are the same as those used in the reporting of its results in the consolidated financial statements.

(aa) Warranty cost

The Company estimates its warranty provision for defective products based on various factors including the likelihood of defects, an evaluation of its quality controls, technical analysis, industry information on comparable companies and its own experience. Based on the above consideration, the Company has accrued for warranty costs of US\$869,734 for the year ended March 31, 2014 (2013: US\$403,627 and 2012: US\$729,528). The basis and the amount of the warranty accrual are reviewed and adjusted periodically based on actual experience.

(ab) Government grants

Government grants are recognized when received and the stipulated activities are achieved. Such amounts are included in other income (expenses), net in the consolidated statement of operations and comprehensive income.

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

(ac) Retained Earnings and Reserves

The Company's retained earnings are not restricted as to the payment of dividends except to the extent dictated by prudent business practices. The Company believes that there are no material restrictions, including foreign exchange controls, on the ability of its non-PRC subsidiaries to transfer surplus funds to the Company in the form of cash dividends, loans, advances or purchases. With respect to the Company's PRC subsidiaries, there are restrictions on the payment of dividends and the distribution of dividends from the PRC. On March 16, 2007, the PRC promulgated the Law of the PRC on Enterprise Income Tax (the "New Law") by Order No. 63 of the President of the PRC. Please refer to Note 17 for further details of the New Law. The New Law became effective from January 1, 2008. Prior to the enactment of the New Law, when dividends were paid by the Company's PRC subsidiaries, such dividends would reduce the amount of reinvested profits and accordingly, the refund of taxes paid might be reduced to the extent of tax applicable to profits not reinvested. Subsequent to the enactment of the New Law, due to the removal of tax benefit related to reinvestment of capital in PRC subsidiaries, the Company may not reinvest the profits made by the PRC subsidiaries. Payment of dividends by PRC subsidiaries to foreign investors on profits earned subsequent to January 1, 2008 will also be subject to withholding tax under the New Law. In addition, pursuant to the relevant PRC regulations, a certain portion of the profits made by these subsidiaries must be set aside for future capital investment and are not distributable, and the registered capital of the Company's PRC subsidiaries are also restricted. Under applicable PRC regulations, foreign-invested enterprises in China may pay dividends only out of their accumulated profits, if any, determined in accordance with the PRC accounting standards and regulations. In addition, a foreign-invested enterprise in China is required to set aside at least 10% of its after-tax profit based on PRC accounting standards each year for its general reserves until the cumulative amount of such reserves reaches 50% of its registered capital. These reserves are not distributable as cash dividends. The board of directors of a foreign-invested enterprise has the discretion to allocate a portion of its after-tax profits to staff welfare and bonus funds, which may not be distributed to equity owners except in the event of liquidation. However, the Company believes that such restrictions will not have a material effect on the Company's liquidity or cash flows.

(ad) Statutory Reserves

The PRC subsidiaries are required by the relevant laws and regulation to transfer at least 10% of their after-tax profit determined in accordance with the PRC accounting rules and regulations to a statutory surplus reserve until such reserve balance reaches 50% of their registered capital.

The Company transferred US\$101,868 and US\$1,238,361 out of after-tax profit of its PRC subsidiaries to the statutory reserves for the years ended March 31, 2014 and 2013, respectively.

The statutory reserves can only be utilized to offset prior years' losses or for capitalization as paid-in capital. No distribution of the remaining reserves shall be made other than upon liquidation of the PRC subsidiaries.

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Recent accounting pronouncements

- (i) The FASB has issued ASU No. 2014-08, Presentation of Financial Statements (Topic 205) and Property, Plant, and Equipment (Topic 360): Reporting Discontinued Operations and Disclosures of Disposals of Components of an Entity. The amendments in the ASU change the criteria for reporting discontinued operations while enhancing disclosures in this area. It also addresses sources of confusion and inconsistent application related to financial reporting of discontinued operations guidance in U.S. GAAP.

Under the new guidance, only disposals representing a strategic shift in operations should be presented as discontinued operations. Those strategic shifts should have a major effect on the organization's operations and financial results. Examples include a disposal of a major geographic area, a major line of business, or a major equity method investment.

In addition, the new guidance requires expanded disclosures about discontinued operations that will provide financial statement users with more information about the assets, liabilities, income, and expenses of discontinued operations.

The new guidance also requires disclosure of the pre-tax income attributable to a disposal of a significant part of an organization that does not qualify for discontinued operations reporting. This disclosure will provide users with information about the on-going trends in a reporting organization's results from continuing operations.

The amendments in this ASU enhance convergence between U.S. GAAP and International Financial Reporting Standards ("IFRS"). Part of the new definition of discontinued operation is based on elements of the definition of discontinued operations in IFRS 5, Non-Current Assets Held for Sale and Discontinued Operations.

The amendments in the ASU are effective in the first quarter of 2015 for public organizations with calendar year ends. For most nonpublic organizations, it is effective for annual financial statements with fiscal years beginning on or after December 15, 2014. Early adoption is permitted.

The Company believes that its adoption of the ASU will not have any material impact on its consolidated financial statements.

- (ii) The FASB has issued ASU No. 2013-11, Income Taxes (Topic 740): Presentation of an Unrecognized Tax Benefit When a Net Operating Loss Carryforward, a Similar Tax Loss, or a Tax Credit Carryforward Exists (a consensus of the FASB Emerging Issues Task Force).

U.S. GAAP does not include explicit guidance on the financial statement presentation of an unrecognized tax benefit when a net operating loss carryforward, a similar tax loss, or a tax credit carryforward exists. The amendments in this ASU state that an unrecognized tax benefit, or a portion of an unrecognized tax benefit, should be presented in the financial statements as a reduction to a deferred tax asset for a net operating loss carryforward, a similar tax loss, or a tax credit carryforward, except as follows. To the extent a net operating loss carryforward, a similar tax loss, or a tax credit carryforward is not available at the reporting date under the tax law of the applicable jurisdiction to settle any additional income taxes that would result from the disallowance of a tax position or the tax law of the applicable jurisdiction does not require the entity to use, and the entity does not intend to use, the deferred tax asset for such purpose, the unrecognized tax benefit should be presented in the financial statements as a liability and should not be combined with deferred tax assets.

This ASU applies to all entities that have unrecognized tax benefits when a net operating loss carryforward, a similar tax loss, or a tax credit carryforward exists at the reporting date. The amendments in this ASU are effective for fiscal years, and interim periods within those years, beginning after December 15, 2013. For nonpublic entities, the amendments are effective for fiscal years, and interim periods within those years, beginning after December 15, 2014. Early adoption is permitted. The amendments should be applied prospectively to all unrecognized tax benefits that exist at the effective date. Retrospective application is permitted.

The Company believes that its adoption of the ASU will not have any material impact on its consolidated financial statements.

4. CASH AND CASH EQUIVALENTS

	March 31, 2014 US\$	March 31, 2013 US\$
Cash on hand and at banks	15,942,867	24,551,490
Money market funds	6,877,433	7,833,886
Total cash and cash equivalents	<u>22,820,300</u>	<u>32,385,376</u>

The cash on hand and at bank balances in the PRC subsidiaries are denominated in Renminbi (“RMB”), United States dollars (“US\$”) and Hong Kong dollars (“HK\$”) with the total amount equivalent to RMB76,953,161 (equivalent to US\$12,382,243) and RMB61,563,027 (equivalent to US\$9,911,137) as of March 31, 2014 and 2013, respectively. Of these amounts, RMB68,012,481 (equivalent to US\$10,943,631) and RMB56,510,003 (equivalent to US\$9,097,642) are originally denominated in RMB as of March 31, 2014 and 2013, respectively. RMB is not freely convertible into other currencies; however, under Mainland China’s Foreign Exchange Control Regulations and Administration of Settlement, Sale and Payment of Foreign Exchange Regulations, the Company is permitted to exchange RMB for other currencies through banks authorized to conduct foreign exchange business. Other than RMB, the cash on hand and at banks of the Company in Hong Kong and the United States are denominated in HK\$ and US\$.

5. TIME DEPOSITS

As of March 31, 2014, a time deposit of RMB70,472,817 (equivalent to USD11,339,515) (as at March 31, 2013: nil) was deposited with a creditworthy bank with an original maturity of more than three months when acquired. The time deposit bore interest at 3.35% per annum and matured in July 2014.

6. RESTRICTED CASH

As of March 31, 2014 and 2013, time deposits of RMB24,943,500 (equivalent to US\$4,013,565) and RMB90,640,000 (equivalent to US\$14,592,289) respectively were deposited with and pledged to banks to secure credit facilities granted to the Company, including revolving bank loans.

7. AVAILABLE-FOR-SALE INVESTMENTS

The following is a summary of available-for-sale debt and equity securities as of March 31, 2014 and 2013:

	Cost		Net unrealized gains		Fair values	
	2014 US\$	2013 US\$	2014 US\$	2013 US\$	2014 US\$	2013 US\$
Current assets:						
Unlisted investments	1,000,000	—	50,500	—	1,050,500	—
Listed equity securities	—	3,138	—	14,015	—	17,153
	<u>1,000,000</u>	<u>3,138</u>	<u>50,500</u>	<u>14,015</u>	<u>1,050,500</u>	<u>17,153</u>
Non-current assets:						
Unlisted investments	—	1,000,000	—	45,200	—	1,045,200
	<u>1,000,000</u>	<u>1,003,138</u>	<u>50,500</u>	<u>59,215</u>	<u>1,050,500</u>	<u>1,062,353</u>

As of March 31, 2014 and 2013, investments totaling nil and US\$2,235 were in unrealized loss positions of nil and US\$1,839 respectively. During the fiscal year ended March 31, 2014, a gain of US\$1,052 was recognized on the disposal of the Company’s listed equity securities in available-for-sale investments. During the fiscal years ended March 31, 2013 and 2012, no significant gain or loss was recognized on the disposal of the Company’s available-for-sale investments.

GLOBAL-TECH ADVANCED INNOVATIONS INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (continued)

7. AVAILABLE-FOR-SALE INVESTMENTS (continued)

The fair values of listed equity securities are based on quoted market prices at the balance sheet date.

Unlisted investments which have remaining terms of less than 1 year are measured at fair value using a price quoted by a third party, such as a broker or bank, at the balance sheet date.

The net unrealized gains consisted of gross unrealized gains as at March 31, 2014, 2013 and 2012 of US\$50,500, US\$61,054 and US\$38,680, respectively, and gross unrealized losses as at March 31, 2014, 2013 and 2012 of nil, US\$1,839 and US\$1,952, respectively.

The proceeds from the disposal of available-for-sale investments for the fiscal years ended March 31, 2014, 2013 and 2012 were US\$18,218, US\$2,000,000 and US\$9,000,000, respectively.

As detailed in note 14 of the consolidated financial statements, the unlisted investments had been pledged to a bank as security for the short term bank loans of HK\$8,008,123 (equivalent to US\$1,032,334) (2013: nil) granted to a Hong Kong subsidiary.

8. ACCOUNTS AND BILLS RECEIVABLE, NET

	March 31, 2014 US\$	March 31, 2013 US\$

Finished goods	<u>2,367,932</u>	<u>1,721,803</u>
	<u>7,162,867</u>	<u>5,392,332</u>

For the fiscal years ended March 31, 2014, 2013 and 2012, a write-down of inventories to fair market value of US\$804,256, US\$867,312 and US\$932,848, respectively, was recognized in the consolidated statement of operations and comprehensive income, of which nil, nil and US\$548,293 were included in income (loss) from discontinued operations.

10. RELATED PARTY TRANSACTIONS

A related party is any party that controls, jointly controls or can significantly influence the management or operating policies of the Company. Such parties would also include affiliates, investments accounted for by the equity method, principal shareholders, management, directors and the immediate family members of principal shareholders, management or directors.

In addition to the transactions and balances detailed elsewhere in the consolidated financial statements for the fiscal years ended March 31, 2014, 2013 and 2012, the Company had the following material transactions with related parties during those years:

The Company incurred annual motor car rental expenses for the fiscal years ended March 31, 2014, 2013 and 2012 of approximately US\$57,241, US\$57,245 and US\$57,068, respectively. These expenses were payable to a related company of which a shareholder is also director of Global-Tech in fiscal 2014, 2013 and 2012.

The Company incurred annual real estate rental expenses for the fiscal years ended March 31, 2014, 2013 and 2012 of approximately US\$315,216, US\$346,662 and US\$451,507, respectively, payable to two directors of Global-Tech and certain related companies of which certain of their directors are also directors of Global-Tech. Included in the aforesaid annual real estate rental expenses were amounts of US\$239,796, US\$239,811 and US\$318,743 paid to directors (one director in fiscal 2014 and 2013 and two directors in fiscal 2012) of Global-Tech, during the fiscal years ended March 31, 2014, 2013 and 2012, respectively, which were included in their remuneration for the respective fiscal years as housing allowances.

The amount due from a related party, of which one of the directors of Global-Tech was a shareholder as of March 31, 2014 and 2013, and two directors of Global-Tech were shareholders as of March 31, 2012, is unsecured, interest-free and has no fixed term of payment.

- (a) During the fiscal years ended March 31, 2014, 2013 and 2012, impairment losses relating to property, plant and equipment of US\$2,103,780, nil and US\$1,230,727, respectively, were recognized in the consolidated statement of operations and comprehensive income for certain moulds, plant and machinery, and furniture, fixtures and equipment which are no longer used in the operations of the Company. Impairment losses of US\$1,944,571 and US\$1,230,727 were recognized in “Income (Loss) from discontinued operations” during the fiscal years ended March 31, 2014 and 2012 respectively. No impairment loss was recognized for the year ended March 31, 2013.
- (b) As of March 31, 2014 and 2013, a building with aggregate net book values of approximately US\$13,094 and US\$13,976, respectively, was situated in Hong Kong and buildings and manufacturing facilities with aggregate net book values of approximately US\$13,065,398 and US\$9,987,761, respectively, were situated in Mainland China. The land where the manufacturing facilities were situated is held under certain land use rights that will expire in 2043. Up to March 31, 2014, the Company has obtained a sizable portion of the property ownership certificates for its buildings (29 out of a total of 40 properties) (up to March 31, 2013: 29 out of a total of 40). The application for the remaining property ownership certificates will commence only after the land use right certificates for the relevant pieces of land are obtained.
- (c) The amounts of depreciation charged for the fiscal years ended March 31, 2014, 2013 and 2012 were US\$3,957,964, US\$3,342,484 and US\$3,463,481, respectively, of which, US\$1,198,844, US\$1,336,208 and US\$2,791,698 were included in “Income (Loss) from discontinued operations” for the fiscal years ended March 31, 2014, 2013 and 2012 respectively.
- (d) The gains on disposal of property, plant and equipment recognized during the fiscal years ended March 31, 2014 and 2013 were US\$11,322 and US\$463,358, respectively and a loss on disposal of property, plant and equipment of US\$86,015 was recognized during the fiscal year ended March 31, 2012. For the fiscal year ended March 31, 2014, the Company recognized a gain on disposal of property, plant and equipment of US\$134,669 which was included in income (loss) from continuing operations. For the fiscal years ended March 31, 2013 and 2012, losses on disposal of property, plant and equipment of US\$43,311 and US\$86,015 respectively, were recognized in income (loss) from continuing operations.
- (e) The amount of additions to property, plant and equipment during the fiscal years ended March 31, 2014, 2013 and 2012 were US\$6,020,163, US\$7,613,631 and US\$814,247, respectively. The additions in fiscal 2014 were primarily from the acquisition of new office space in Shenzhen, the PRC. The additions in fiscal 2013 were primarily from the expansion of existing clean room space and purchase of equipment and machinery related to the chip-on-board (“COB”) facility.

12. LAND USE RIGHTS, NET

Land use rights represent prepayments under operating leases for land use for a predetermined time period. They are charged to the consolidated statement of operations and comprehensive income over the lease periods on a straight-line basis. The Company has the rights to use certain pieces of land located in the PRC and has obtained or is in the process of obtaining the land use rights certificates covering a substantial portion of such lands. On August 26, 2006, the Company entered into a supplementary agreement with the Dongguan local government regarding the use of a piece of land with a total area of 45,208 square meters which the Company had occupied. Pursuant to the supplementary agreement, the Company has vacated a portion of this land (13,698 square meters in aggregate), which was previously used as a recreational area, and has arranged to use the remaining portion of the land (31,510 square meters) until August 6, 2043. However, the Company had to pay monthly fees of RMB59,248 (approximately US\$9,533) to the Dongguan local government for the period from January 1, 2008 to December 31, 2008 and RMB193,048 (approximately US\$31,063) from January 1, 2009 onwards until August 6, 2043. Up to March 31, 2014, the Company has obtained a sizable portion of its land use rights certificates covering 183,900 square meters out of a total area of 207,300 square meters (up to March 31, 2013: covering 183,900 square meters out of a total area of 207,300 square meters). The application of certain property ownership certificates as further detailed in note 11 to the consolidated financial statements commences only after the land use rights certificates for the relevant pieces of land have been obtained. The Company is in the process of obtaining the remaining land use rights and property ownership certificates. However, no definitive time frame has been provided by the Dongguan local government as to when the certificates will be provided to the Company.

13. WARRANTY PROVISION

Included in other accrued liabilities are warranty provisions of US\$869,734, US\$403,627 and US\$729,528 as of March 31, 2014, 2013 and 2012, respectively, none of which are from discontinued operations. The Company's warranty activity during the fiscal years ended March 31, 2014, 2013 and 2012 is summarized below:

	Fiscal years ended		
	March 31, 2014 US\$	March 31, 2013 US\$	March 31, 2012 US\$
Balance at beginning of fiscal year	403,627	729,528	296,410
Additional provision	485,229	—	473,551
Reversal of unutilized amounts	(19,122)	(325,901)	(40,433)
Balance at end of fiscal year	<u>869,734</u>	<u>403,627</u>	<u>729,528</u>

14. SHORT TERM BANK LOANS AND BANKING FACILITIES

Global-Tech has provided a bank with: (i) an unlimited corporate guarantee for general banking facilities granted to certain subsidiaries of the Company; and (ii) a security agreement over bank deposits and available-for-sale investments in aggregate of HK\$10.0 million (equivalent to US\$1,289,108) for general banking facilities granted to a subsidiary of the Company without obtaining written consent of the bank for general facilities granted to its Hong Kong subsidiaries. The Company has made deposits to banks as security for credit facilities granted to the PRC subsidiaries, including bank loans and bills payable.

The Company has credit facilities with a number of banks amounting to the equivalent of US\$13,212,260 and US\$15,880,533 as of March 31, 2014 and 2013 respectively. Of these amounts, HK\$10.0 million (equivalent to US\$1,289,108) and HK\$10.0 million (equivalent to US\$1,288,244) were denominated in Hong Kong dollars as of March 31, 2014 and 2013, respectively.

Of the credit facilities, the Company utilized HK\$8,008,123 (equivalent to US\$1,032,334) and RMB38,832,198 (equivalent to US\$6,248,342) as of March 31, 2014 compared to US\$4,826,241 and HK\$10,599 (in total equivalent to US\$4,827,607) utilized as of March 31, 2013.

Banking facilities of HK\$1,991,877 (equivalent to US\$256,775) and RMB35,267,802 (equivalent to US\$5,674,809), and HK\$9,989,401 (equivalent to US\$1,286,878) and RMB60,661,802 (equivalent to US\$9,766,048) remained unutilized as of March 31, 2014 and 2013, respectively.

The weighted average interest rate of the bank loans for the years ended March 31, 2014 and 2013 was 0.55% and 0.48% per annum respectively with an average maturity of 74 and 189 days from March 31, 2014 and 2013, respectively.

15. SHARE CAPITAL

Holders of common stock of Global-Tech have one vote for each stock held on all matters submitted to vote at a shareholders' meeting of Global-Tech. Subject to the rights of the holders of stock with preferential or other special rights which may be authorized in the future, holders of common stock of Global-Tech are entitled to receive dividends *pro rata* out of assets legally available therefore and, in the event of the winding up of Global-Tech, to share ratably in all assets remaining after payment of liabilities of Global-Tech. The Board of Directors of Global-Tech may declare interim dividends and recommend a final annual dividend from retained earnings available for cash dividends as determined for statutory purposes at such times and in such amounts as they may determine. Dividends may only be declared and paid out of surplus.

During the fiscal year ended March 31, 2009, the Board of Directors of Global-Tech authorized an amendment to Global-Tech's Memorandum of Association to effect a 4-for-1 reverse stock split (the "Reverse Stock Split") of the issued and outstanding common stock of Global-Tech, effective from December 10, 2008 (the "Effective Date"). During the fiscal year ended March 31, 2009, Global-Tech also proportionally reduced the authorized number of shares of its common and preferred stock to 12,500,000 and 250,000, respectively. On the Effective Day, every four shares of common stock of Global-Tech issued and outstanding as of the Effective Date were consolidated into one share of post-reverse split common stock.

17. INCOME TAXES

Global-Tech and its subsidiaries are subject to income taxes on an entity basis on the taxable income arising in or derived from the respective tax jurisdictions in which they are domiciled or deemed to operate. Global-Tech and its investment holding subsidiaries incorporated in the British Virgin Islands (“BVI”) are not subject to tax in the BVI in accordance with the BVI tax regulations. The Company conducts substantially all of its businesses and operations through its subsidiaries located in Hong Kong and the PRC.

The Company’s operating subsidiaries are subject to various statutory tax rates, according to the respective jurisdictions in which they operate. The Company’s subsidiaries in Hong Kong are subject to Hong Kong profits tax at a rate of 16.5% on their assessable income arising in Hong Kong during the fiscal years ended March 31, 2014, 2013 and 2012.

The Company’s subsidiaries registered in the PRC, including DWS and DGLAD, are subject to the PRC enterprise income tax (“EIT”) on income as reported in their PRC statutory accounts, adjusted in accordance with relevant PRC income tax laws and regulations. DWS and DGLAD are located in a coastal open economic zone in the PRC and, accordingly, were entitled to a preferential tax rate of 27% (24% reduced tax rate and 3% local income tax rate) for the calendar years ended prior to December 31, 2008. During the 5th Session of the 10th National People’s Congress of the PRC, which was concluded on March 16, 2007, a unified EIT law was approved and became effective on January 1, 2008 (“New EIT Law”). The New EIT Law introduced a wide range of changes which include the unification of the income tax rate for domestic-invested and foreign-invested enterprises at 25%. DGLAD is entitled to a tax concession period (“Tax Holiday”), whereby it was exempted from EIT for its first two profit-making years and is entitled to a 50% tax reduction for the succeeding three years. DGLAD has qualified as a High and New Technology Enterprise (“HNTE”). Accordingly, after the expiry of its Tax Holiday in December 2011, DGLAD became subject to a preferential tax rate of 15% commencing from January 2012. The EIT of DWS for fiscal years 2014, 2013 and 2012 remained 25%.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (continued)

17. INCOME TAXES (continued)

Deferred tax assets and liabilities as of March 31, 2014 and 2013 comprise the following:

	<u>March 31, 2014</u> US\$	<u>March 31, 2013</u> US\$
Deferred tax assets:		
Impairment of property, plant and equipment	2,318,586	2,031,131
Provision for inventories	238,730	196,834
Provision for warranty	217,434	111,903
Operating losses carried forward	4,391,655	3,418,116
Gross deferred tax assets	7,166,405	5,757,984
Less: Valuation allowance for deferred tax assets	(7,166,405)	(5,757,984)
Net deferred tax assets	<u>—</u>	<u>—</u>
Deferred tax liabilities:		
Other temporary differences	—	—
Tax over book depreciation of property, plant and equipment	(5,183)	(5,180)
Total deferred tax liabilities	<u>(5,183)</u>	<u>(5,180)</u>

	<u>Fiscal years ended</u>		
	<u>March 31,</u> <u>2014</u> US\$	<u>March 31,</u> <u>2013</u> US\$	<u>March 31,</u> <u>2012</u> US\$
Valuation allowance:			
Balance at beginning of fiscal year	5,757,984	5,185,404	6,057,516
Additions (reversals)	1,454,938	414,756	(993,431)
Exchange realignment	(46,517)	157,824	121,319
Balance at end of fiscal year	<u>7,166,405</u>	<u>5,757,984</u>	<u>5,185,404</u>

For financial reporting purposes, the Company has established valuation allowances by tax jurisdiction for deferred tax assets, which management believes are more likely than not to be realized in the foreseeable future. As of March 31, 2014 and 2013, the Company had tax losses carried forward of US\$25,530,406 and US\$23,591,422, respectively, which included tax losses of US\$5,591,707 and US\$4,114,021 respectively that are available indefinitely for offsetting against future taxable income of the companies in which these losses arose. Tax losses of US\$19,938,699 and US\$19,477,401 as at March 31, 2014 and 2013, respectively, may be carried back for 2 years or carried forward for 20 years from the year the tax losses arose.

A reconciliation of the movements of unrecognized tax benefits under FASB ASC 740 during the fiscal years ended March 31, 2014 and 2013, exclusive of related interest and penalties, is as follows:

	<u>Fiscal years ended</u>	
	<u>March 31,</u> <u>2014</u> US\$	<u>March 31,</u> <u>2013</u> US\$
Balance at beginning of fiscal year	8,870,677	9,117,443
Additions based on tax positions related to the current year	422,094	799,637
Reduction for tax positions related to prior year	(700,780)	(1,070,199)
Exchange realignment	(2,827)	23,796
Balance at end of fiscal year	<u>8,589,164</u>	<u>8,870,677</u>

17. INCOME TAXES (continued)

As of March 31, 2014 and 2013, the Company's unrecognized tax benefits under FASB ASC 740 of US\$4,454,069 and US\$4,879,338, respectively, are presented in the consolidated balance sheets within income tax payable. The remaining balance of US\$4,135,095 and US\$3,991,339 as of March 31, 2014 and 2013, respectively, are set off against the corresponding tax losses carried forward.

If the unrecognized tax benefits under FASB ASC 740 as of March 31, 2014 were realized in a future period, these would result in a tax benefit of US\$4,454,069 (US\$4,879,338 as of March 31, 2013) and a reduction of the Company's effective tax rate.

For all the years presented and in accordance with FASB ASC 740, the Company classified interest and potential penalties relating to any underpayment of income taxes and uncertain tax positions, if and when required, as interest expense and other expenses, respectively. For the fiscal years ended March 31, 2014 and 2013, the Company reversed interest and potential penalties of US\$213,976 and US\$1,021,397, respectively, relating to certain uncertain tax positions in its consolidated statement of operations and comprehensive income. For the fiscal year ended March 31, 2012, the Company accrued interest and potential penalties of US\$121,032 relating to certain uncertain tax positions in its consolidated statement of operations and comprehensive income. As of March 31, 2014 and 2013, the Company had accrued interest and potential penalties relating to uncertain tax positions amounting to US\$436,920 and US\$651,721, respectively.

One of the Company's wholly-owned subsidiaries was under examination by the Hong Kong tax authority in prior years. The tax period open for examination by the tax authority included the fiscal years ended March 31, 2003 through 2011. During fiscal 2013, the Company's subsidiary and the Hong Kong tax authority reached an agreement to settle the tax audit case with additional assessable profits of HK\$12,520,654 (equivalent to US\$1,612,967) being raised together with penalty and interest on tax undercharged, for which the amount had already been provided for within FASB ASC 740. The total amount of penalty and interest paid was HK\$2,000,000 and HK\$466,249 (equivalent to US\$257,649 and US\$60,064), respectively, which were included in "Other income, net" and "Interest income, net" from continuing operations.

The PRC tax authorities could determine that any inter-company payable account in accordance with PRC GAAP could be deemed income if such inter-company payables cannot be settled and therefore would be subject to taxation. In accordance with FASB ASC 740, we evaluated our position and determined that such inter-company payables will be settled, particularly since prior year tax assessments have been confirmed by the PRC tax authorities and such inter-company payables were not deemed as income.

Except as noted above, based on existing tax regulations in the Company's various operating jurisdictions, tax years 2005 through 2014 remain open to possible tax examination by relevant tax authorities.

The Company has not provided for possible income taxes on the undistributed earnings of foreign subsidiaries that are considered to be reinvested indefinitely.

18. DISCONTINUED OPERATIONS

As previously disclosed and discussed elsewhere in this annual report, the Company completed its exit from the home appliance business in January 2012 and the EMS business in December 2013.

In the fiscal periods preceding the Company's exit from the home appliance business and EMS business, profit margins had been rapidly decreasing due at least, in part, to the rising cost of raw materials and labor in the PRC, together with the unwillingness or inability of our customers to offset these costs through pricing increases. Customer pricing demands no longer reflected actual production costs and, as a result, margins for these two businesses in recent years approached unacceptable levels, with the home appliance segment and EMS segment actually suffering significant losses in fiscal 2011 and fiscal 2013 respectively.

In response to the foregoing, on June 3, 2011 and December 15, 2013, the Board of Directors approved plans to exit the home appliance business and EMS business in fiscal 2012 and 2014 respectively while active production for the home appliance business and EMS business ceased in January 2012 and December 2013 respectively.

GLOBAL-TECH ADVANCED INNOVATIONS INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (continued)

18. DISCONTINUED OPERATIONS (continued)

In accordance with guidance contained in FASB ASC 205-20 “Discontinued Operations”, the results of operations for the home appliance and EMS segments have been excluded from continuing operations and reported as discontinued operations for the current and prior periods.

	<u>2014</u>	<u>2013</u>	<u>2012</u>
	US\$	US\$	US\$
Net Sales	2,922,127	14,256,314	68,325,333
Cost of goods sold	<u>(4,323,267)</u>	<u>(13,962,646)</u>	<u>(55,010,909)</u>
Gross profit (loss)	(1,401,140)	293,668	13,314,424
Selling, general and administrative expenses	<u>(2,185,399)</u>	<u>(3,870,995)</u>	<u>(10,489,783)</u>
Operating profit (loss)	(3,586,539)	(3,577,327)	2,824,641
Interest expense, net	—	—	(2,402)
Other income (expense), net	(1,960,485)	988,264	(1,200,979)
Income tax expenses	—	—	(25,263)
Income (Loss) from discontinued operations, net of tax	<u>(5,547,024)</u>	<u>(2,589,063)</u>	<u>1,595,997</u>

Impairment losses of US\$1,944,571 and US\$1,230,727 were recognized in the income (loss) from discontinued operations in fiscal 2014 and 2012 respectively for machinery and equipment that were used in the operations of the EMS segment and home appliance segment. No impairment loss was recognized in fiscal 2013.

GLOBAL-TECH ADVANCED INNOVATIONS INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (continued)

19. BASIC AND DILUTED EARNINGS (LOSS) PER SHARE

Basic and diluted earnings (loss) per share of common stock of the Company for the fiscal years ended March 31, 2014, 2013 and 2012 is computed in accordance with FASB ASC 260 "Earnings Per Share" by dividing the net earnings (loss) for each fiscal year attributable to common stockholders by the weighted average number of shares of common stock outstanding during that fiscal year.

The following table sets forth the computation of basic and diluted earnings (loss) per share:

	<u>2014</u> US\$	<u>2013</u> US\$	<u>2012</u> US\$
Numerator for basic and diluted earnings (loss) per share:			
Income (Loss) from continuing operations	(5,116,577)	517,804	(178,661)
Income (Loss) from continuing operations attributable to non-controlling interests	<u>108,044</u>	<u>107,958</u>	<u>(6,659)</u>
Income (Loss) from continuing operations attributable to shareholders of Global-Tech Advanced Innovations Inc.	(5,008,533)	625,762	(185,320)
Income (Loss) from discontinued operations	<u>(5,547,024)</u>	<u>(2,589,063)</u>	<u>1,595,997</u>
Net income (loss) attributable to common stockholders	<u><u>(10,555,557)</u></u>	<u><u>(1,963,301)</u></u>	<u><u>1,410,677</u></u>
	<u>Number</u>	<u>Number</u>	<u>Number</u>
Denominator for basic and diluted earnings (loss) per share:			
Weighted average number of shares of common stock	<u>3,041,625</u>	<u>3,040,310</u>	<u>3,039,727</u>
	<u>US\$</u>	<u>US\$</u>	<u>US\$</u>
Basic and diluted earnings (loss) per share:			
Earnings (Loss) from continuing operations	(1.65)	0.21	(0.06)
Earnings (Loss) from discontinued operations	<u>(1.82)</u>	<u>(0.86)</u>	<u>0.52</u>
Earnings (Loss) attributable to common stockholder	<u><u>(3.47)</u></u>	<u><u>(0.65)</u></u>	<u><u>0.46</u></u>

343,751 and 369,752 stock options of Global-Tech were excluded from the computation of diluted earnings (loss) per share for the fiscal years ended March 31, 2014 and 2013 respectively, because their inclusion would have been anti-dilutive.

During the fiscal year ended March 31, 2012, the weighted average share price of the Company during the year was below the exercise prices of all stock options as at March 31, 2012, resulting in no incremental common shares for that year for the purpose of diluted earnings per share calculation.

GLOBAL-TECH ADVANCED INNOVATIONS INC.
 NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (continued)

20. COMMITMENTS

(a) Capital commitments

As of March 31, 2014 and 2013, the Company had capital commitments contracted but not provided for of US\$126,792 and US\$4,211,595, respectively, for the purchase of property, plant and equipment.

(b) Operating lease commitments

In addition to the land use rights described in note 12 to the consolidated financial statements, the Company has entered into various operating lease arrangements for parking lots, motor vehicles, equipment, land and office premises. The Company recorded rental expenses, excluding the land use rights payments described in note 12 to the consolidated financial statements, for the fiscal years ended March 31, 2014, 2013 and 2012 of US\$247,234, US\$361,918 and US\$352,206, respectively. The Company has leased out certain manufacturing facilities machineries to third parties, and recorded lease rental income of US\$1,292,903, US\$177,556 and nil for the fiscal years ended March 31, 2014, 2013 and 2012, respectively.

Future minimum lease payments under non-cancelable operating leases as of March 31, 2014 and 2013 were as follows:

	<u>March 31,</u> <u>2014</u>	<u>March 31,</u> <u>2013</u>
	US\$	US\$
Payable:		
Within one year	381,394	754,386
Over one year but not exceeding two years	352,290	374,706
Over two years but not exceeding three years	352,290	352,478
Over three years but not exceeding four years	352,290	352,478
Over four years but not exceeding five years	352,290	352,478
Over five years	<u>8,572,401</u>	<u>8,929,433</u>
	<u>10,362,955</u>	<u>11,115,959</u>

Subsequent to March 31, 2014, a subsidiary renewed the tenancy agreement with a related company and extended the leasing term for one year to March 31, 2015, with future lease payments due of US\$92,815 not reflected in the table above.

Future minimum rentals receivable under non-cancelable operating leases as of March 31, 2014 and 2013 were as follows:

	<u>March 31,</u> <u>2014</u>	<u>March 31,</u> <u>2013</u>
	US\$	US\$
Receivable:		
Within one year	<u>511,923</u>	<u>321,057</u>

Subsequent to March 31, 2014, some subsidiaries entered into five-year lease agreements with a third party to lease out certain manufacturing facilities together with machineries that were previously used by the EMS segment with total future lease payments receivables of US\$10,189,226 not reflected in the table above.

21. CONTINGENCIES

As of March 31, 2014, the Company has accrued as a current liability US\$4,454,069 (as of March 31, 2013: US\$4,879,338) for unrecognized tax benefits and US\$436,920 (as of March 31, 2013: US\$651,721) for related interest and penalties. The unrecognized tax benefits relate mainly to potential transfer pricing arrangements reflected in the Hong Kong and PRC income tax returns of certain subsidiaries of the Company. The final outcome of these tax uncertainties is dependent upon various matters including tax examinations, legal proceedings, certain authority proceedings, changes in regulatory tax laws and interpretations of those tax laws, or expiration of statutes of limitation. However, based on the number of jurisdictions, the uncertainties associated with litigation, and the status of examinations, including the protocols of finalizing audits by the relevant tax authorities, which could include formal legal proceedings, there is a high degree of uncertainty regarding the future cash outflows associated with these tax uncertainties.

22. OTHER ACCRUED LIABILITIES

	March 31, 2014	March 31, 2013
	US\$	US\$
Accrued expenses	2,568,678	2,241,659
Other tax payable	832,050	997,001
Land use right payable – operating lease	1,119,005	784,400
Other payables for procuring materials for customers	40,278	5,194,086
Rental deposits received	240,247	—
Other payables for procuring equipment and consumables	397,441	199,228
Other payable	523,058	227,264
	<u>5,720,757</u>	<u>9,643,638</u>

23. EMPLOYEE BENEFITS

The Company operates a Mandatory Provident Fund (“MPF”) scheme and an Occupational Retirement Schemes Ordinance (“ORSO”) scheme for all its qualified employees in Hong Kong. Both the MPF and the ORSO schemes are defined contribution programs and are administered by independent fund companies.

MPF is available to all employees aged 18 to 64 and with at least 60 days of service as an employee of the Company in Hong Kong. Under the MPF scheme, both the Company and each of the qualified employees contribute the lower of 5% of the employees’ basic salary and HK\$1,250 (approximately US\$161), subject to a cap of a monthly basic salary of HK\$25,000 (approximately US\$3,223). Qualified employees are entitled to 100% of the Company’s contributions together with accrued returns irrespective of their length of service with the Company, but the benefits are required by law to be preserved until the retirement age of 65.

Certain full-time employees in Hong Kong who joined the Company before December 2000 are eligible to participate in the ORSO scheme immediately following the date on which they have completed their probationary period. Under the ORSO scheme, both the Company and each of the eligible employees contribute 5% of the employees’ basic salary.

The costs of these schemes recognized during the fiscal years ended March 31, 2014, 2013 and 2012 were US\$52,119, US\$48,075 and US\$61,107, respectively.

GLOBAL-TECH ADVANCED INNOVATIONS INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (continued)

23. EMPLOYEE BENEFITS (continued)

According to the relevant laws and regulations in the PRC, the Company is required to contribute 17.3% of the stipulated employee salary set by the local government of Dongguan to certain social insurance, medical and retirement benefit schemes for its employees. No forfeited contributions may be used by the employer to reduce the existing level of contributions. The Company also provides housing, medical care and subsidized meals to all existing factory employees. The aggregate amounts incurred by and provided for by the Company for all benefits for factory employees was US\$879,811 and US\$1,963,173 during the fiscal years ended March 31, 2014 and 2013 respectively. However, as a result of the payment of severance in accordance with government rules upon the exit from the home appliance segment, the Company recognized a net benefit of US\$449,557 during the fiscal year ended March 31, 2012 due to a reversal of social insurance provisions accrued for previous years.

24. SEGMENT INFORMATION

The Company operates in two segments: Electronic Components and Others for the fiscal year ended March 31, 2014. These segments are operated and managed as separate strategic business units that offer different products/services. The Company's "Electronic Components" segment produces complementary metal oxide semiconductors ("CMOS") CCMs primarily for sale to cellular phone and tablet manufacturers in the PRC. The Company's "Others" segment comprises a number of immaterial product lines and development programs that have not materialized to date into full product businesses. None of these units has ever individually met the quantitative thresholds for determining reportable segments. The chief operating decision maker evaluates the results of each segment in assessing performance and allocating resources among the segments.

There were no material intersegment sales or transfers during the fiscal years ended March 31, 2014, 2013 and 2012.

As stated in note 18 – "Discontinued Operations", the EMS and home appliance segments were discontinued effective in December 2013 and January 2012 respectively. The results of operations of the EMS segment and home appliance segment have been classified as "Income (Loss) from discontinued operations" on the face of the consolidated statement of operations and comprehensive income for all years presented. The home appliance segment profit for fiscal year ended March 31, 2013 represented sales of equipment and materials that had previously been written off.

GLOBAL-TECH ADVANCED INNOVATIONS INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (continued)

24. SEGMENT INFORMATION (continued)

Total assets	313,033	34,554,319	11,614,176	739,106	61,819,375	109,040,009

As discussed in note 18, the EMS and home appliance segments were discontinued in December 2013 and in January 2012 respectively. The results of the operations have been classified as discontinued operations on the face of the consolidated statement of operations and comprehensive income.

* Impairment losses of US\$1,944,571 and US\$1,230,727 were recognized in income (loss) from discontinued operations for machineries and equipment that were used in the operations of the EMS segment and home appliance segment in fiscal 2014 and 2012. No impairment loss was recognized in fiscal 2013.

(e) Major customers

Customers accounting for 10% or more of the Company's combined net sales are as follows:

	<u>2014</u> US\$	<u>2013</u> US\$	<u>2012</u> US\$
From continuing operations:			
Lenovo Mobile Communication Technology Ltd. ("Lenovo")	21,688,510	26,799,405	11,698,569
Wingtech Group ("Wingtech")	8,000,133	4,477,345	225
From discontinued operations:			
Electrolux S.A. and subsidiaries ("Electrolux")	<u>—</u>	<u>—</u>	<u>52,339,623</u>

During the fiscal years ended March 31, 2014, 2013 and 2012, 33.0%, 33.0% and 9.5%, respectively of the Company's combined net sales including discontinued operations were made to Lenovo, which is an unrelated customer. As of March 31, 2014, 2013 and 2012, 33.3%, 34.2% and 19.4%, respectively of the Company's total accounts and bills receivable were from Lenovo. Lenovo is a customer of the Company's electronic components segment.

During the fiscal years ended March 31, 2014, 2013 and 2012, 12.2%, 5.52% and 0.01%, respectively of the Company's combined net sales including discontinued operations were made to Wingtech, which is an unrelated customer. As of March 31, 2014, 2013 and 2012, 13.8%, 5.8% and nil, respectively of the Company's total accounts and bills receivable were from Wingtech. Wingtech is a customer of the Company's electronic components segments.

During the fiscal years ended March 31, 2014, 2013 and 2012, 0.0%, 0.0% and 42.4%, respectively, of the Company's combined net sales including discontinued operations were made to Electrolux, which is an unrelated customer. As of March 31, 2014, 2013 and 2012, no accounts and bills receivable were from Electrolux. Electrolux was the major customer of the Company's home appliance segment.

The Company was a contract manufacturer of floor care products that are marketed by Electrolux under its respective brand names.

25. CONCENTRATION OF RISKS

Concentration of credit risk

Financial instruments that potentially subject the Company to significant concentrations of credit risk primarily consist of cash and cash equivalents, time deposits, restricted cash, available-for-sale investments, financial assets included in deposits and other assets and accounts and bills receivable.

Substantially all of the Company's cash and cash equivalents, time deposits, restricted cash, interest receivable, and available-for-sale investments were financial assets that management believes are of high credit quality.

The Company's concentration on a limited number of customers will continue to represent a substantial portion of our sales for the foreseeable future. The loss of any major customers or a decrease or delay in orders, or anticipated spending by such customers could materially reduce our revenues and profitability. Our largest customers could also engage in business combinations, which could increase their size, reduce their demand for our products as they recognize synergies or rationalize assets and increase or decrease the portion of their sales to any single customer.

The Company conducts credit evaluations of its customers but does not require collateral or other security from its customers. The Company makes allowance for doubtful accounts primarily based on the age of receivables and factors surrounding the customers' credit risk.

Current vulnerability due to certain concentrations

The Company's operations are mainly conducted in Hong Kong and Mainland China with a majority of its sales from continuing operations to Asia. As a result, the Company's businesses, financial condition, results of operations and cash flows may be influenced by the political, economic and legal environments in Hong Kong and Mainland China, and by the general state of the Hong Kong and Mainland China economies.

The Company's operations may be adversely affected by significant political, economic and social uncertainties in Mainland China. Although the PRC government has been pursuing economic reform policies for more than 20 years, no assurance can be given that the PRC government will continue to pursue such policies or that such policies may not be significantly altered, especially in the event of a change in leadership, social or political disruption or unforeseen circumstances affecting its political, economic and social conditions. There is also no guarantee that the PRC government's pursuit of economic reforms will be consistent or effective.

A significant portion of the Company's business is transacted in RMB, which is not freely convertible into foreign currencies. On January 1, 1994, the PRC government abolished the dual rate system and introduced a single rate of exchange as quoted daily by the People's Bank of China. However, the unification of the exchange rates does not imply the convertibility of RMB into United States dollars or other foreign currencies. All foreign exchange transactions continue to take place either through the People's Bank of China or other banks authorized to buy and sell foreign currencies at the exchange rates quoted by the People's Bank of China. Approval of foreign currency payments by the People's Bank of China or other institutions generally requires submitting a payment application form together with suppliers' invoices, shipping documents, signed contracts and/or other documents, as appropriate.

A significant portion of the Company's sales in previous years from discontinued operations were made to the U.S. and the Company is responsible for ensuring that its products are safe and satisfy all of the requirements of the consumer products safety commission ("CPSC") in the U.S. This may also apply to OEM products manufactured by the Company to customer specifications. In the event of a recall required by the CPSC, the customers may require the Company to provide replacement conforming units at its cost, which could have a material adverse effect on its business, quality reputation and results of operations.

26. FINANCIAL INSTRUMENTS

The Company's financial instruments that are subject to credit risks are limited to its cash and cash equivalents, time deposits, restricted cash, available-for-sale investments, accounts and bills receivable, financial assets included in deposits and other assets, and amounts due from a related party.

The Company's financial assets and liabilities are recognized initially at cost which is the fair value of the consideration given (in the case of assets) or received (in the case of liabilities). Transaction costs are included in the initial measurement of all financial assets and liabilities. Subsequent to initial recognition, assets and liabilities are either valued at cost, amortized cost using the effective interest rate method or fair value, depending on classification.

GLOBAL-TECH ADVANCED INNOVATIONS INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (continued)

26. FINANCIAL INSTRUMENTS (continued)

The following table sets forth the carrying values and estimated fair values of the Company's financial assets and liabilities recognized as of March 31, 2014 and 2013. There were no material unrecognized financial assets and liabilities as of March 31, 2014 and 2013.

	Carrying value		Fair value	
	2014 US\$	2013 US\$	2014 US\$	2013 US\$
Current financial assets:				
Cash and cash equivalents	22,820,300	32,385,376	22,820,300	32,385,376
Time deposits	11,339,515	—	11,339,515	—
Restricted cash	4,013,565	14,592,289	4,013,565	14,592,289
Available-for-sale investments	1,050,500	17,153	1,050,500	17,153
Accounts and bills receivable, net	21,216,884	19,713,608	21,216,884	19,713,608
Financial assets included in deposits and other assets	586,022	3,846,653	586,022	3,846,653
Amount due from a related party	12,569	18,841	12,569	18,841
	<u>61,039,355</u>	<u>70,573,920</u>	<u>61,039,355</u>	<u>70,573,920</u>
Non-current financial assets:				
Available-for-sale investments	—	1,045,200	—	1,045,200
Total financial assets	<u>61,039,355</u>	<u>71,619,120</u>	<u>61,039,355</u>	<u>71,619,120</u>
	Carrying value		Fair value	
	2014 US\$	2013 US\$	2014 US\$	2013 US\$
Current financial liabilities:				
Short term bank loans	7,279,629	4,826,241	7,279,629	4,826,241
Accounts payable	12,520,080	7,134,526	12,520,080	7,134,526
Accrued salaries, allowances and other employee benefits	2,980,622	4,367,642	2,980,622	4,367,642
Other accrued liabilities	5,720,757	9,643,638	5,720,757	9,643,638
Total financial liabilities	<u>28,501,088</u>	<u>25,972,047</u>	<u>28,501,088</u>	<u>25,972,047</u>

The carrying amounts of the Company's cash and cash equivalents, time deposits, restricted cash, accounts and bills receivable, financial assets included in deposits and other assets, amounts due from a related party, short term bank loans, accounts payable, accrued salaries, allowances and other employee benefits and other accrual liabilities approximate to their fair values because of their short maturities. The available-for-sale investments are stated at quoted market price.

The Company's cash and cash equivalents, time deposits and restricted cash are placed primarily with banking institutions in the PRC with high credit ratings. The Company performs periodic credit standing evaluation of those banking institutions to limit the Company's exposure to any significant credit risks.

The Company's accounts and bills receivable largely represent amounts due from the Company's principal customers. Receivable balances are monitored on an ongoing basis and the Company's exposure to bad debts is not significant. The Company does not require collateral or other credit enhancement for any of its financial assets.

If the counterparties to the above financial assets fail to perform completely under the terms of their contract/arrangement, the maximum loss, based on the gross fair value of the financial instruments, due to this credit risk would be US\$61,039,355 and US\$71,619,120 as at March 31, 2014 and 2013, respectively.

27. FAIR VALUE MEASUREMENTS

FASB ASC 820 “Fair Value Measurement and Disclosures”, the Company adopted in fiscal 2009, clarify that fair value is an exit price, representing the amount that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants. As such, fair value is a market-based measurement that should be determined based on assumptions that market participants would use in pricing an asset or a liability, such as inherent risk, transfer restrictions and risk of non-performance. As a basis for considering such assumptions, it establishes a three-tier value hierarchy, which prioritizes the inputs used in the valuation methodologies in measuring fair value:

Level 1 – Observable inputs that reflect quoted prices (unadjusted) for identical assets or liabilities in active markets.

Level 2 – Include other inputs that are directly or indirectly observable in the marketplace.

Level 3 – Unobservable inputs which are supported by little or no market activity.

FASB ASC 820 “Fair Value Measurements and Disclosures”, describes three main approaches to measuring the fair value of assets and liabilities: (1) market approach; (2) income approach and (3) cost approach. The market approach uses prices and other relevant information generated from market transactions involving identical or comparable assets or liabilities. The income approach uses valuation techniques to convert future amounts to a single present value amount. The measurement is based on the value indicated by current market expectations about those future amounts. The cost approach is based on the amount that would currently be required to replace an asset. The fair value hierarchy also requires an entity to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value.

The Company’s financial assets carried at fair value on a recurring basis are detailed in the table below. The fair values of such financial assets are measured in accordance with FASB ASC 820 inputs, including quoted market price.

Assets measured at fair value on a recurring basis as of March 31, 2014 and 2013 are summarized below:

	<u>Fair Value Measurements</u>	
	<u>March 31,</u>	<u>March 31,</u>
	<u>2014</u>	<u>2013</u>
	<u>Quoted prices in active</u>

Total financial assets measured at fair value	<u>1,050,500</u>	<u>1,062,353</u>

28. STOCK COMPENSATION

(a) Amended and Restated 1997 Stock Option Plan of Global-Tech

In September 1997, the Board of Directors of Global-Tech adopted Global-Tech’s 1997 Stock Option Plan (as amended, the “1997 Plan”). The 1997 Plan provides for the grant of (i) options that are intended to qualify as incentive stock options (“Incentive Stock Options” or “ISO”) within the meaning of Section 422 of the U.S. Internal Revenue Code of 1986, as amended (the “Code”) to employees and (ii) options not intended to qualify as Incentive Stock Options to employees and consultants. The total number of shares of common stock of Global-Tech for which options may be granted under the 1997 Plan is 400,000 shares. The 1997 plan expired on September 17, 2008 and no further grants can be made from this plan.

The 1997 Plan is administered by the Board of Directors of Global-Tech, or a committee of directors appointed by the Board of Directors of Global-Tech, who determines the terms of options, including the exercise price, the number of stock subject to the options and the terms and conditions of exercise. No option granted under the 1997 Plan is transferable by the optionee other than by will or the laws of descent and distribution and each vested option is exercisable within the contractual period of the option. With respect to any participant who owns (or is deemed to own) stock possessing more

GLOBAL-TECH ADVANCED INNOVATIONS INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (continued)

28. STOCK COMPENSATION (continued)

than 10% of the voting rights of Global-Tech's outstanding capital stock, the exercise price of any ISO must not be less than 110% of the fair market value of the stock on the date of grant. The term of each option granted pursuant to the 1997 Plan may be established by the Board of Directors of Global-Tech, or a committee of the Board of Directors of Global-Tech, in its sole discretion; provided, however, that the maximum term of each ISO granted pursuant to both the 1997 Plan is 10 years. With respect to any ISO granted to a participant who owns (or is deemed to own) stock possessing more than 10% of the total combined voting power of all classes of Global-Tech's outstanding capital stock, the maximum term is five years. Shares of common stock distributed under the 1997 Plan will be from authorized, but unissued stock or common stock held in the treasury of the Company. Every option granted shall vest and become exercisable in accordance with the terms of the applicable option agreement. Options can be exercised for a period not exceeding 10 years from the date of grant.

During fiscal 2012, an aggregate of 1,250 options with exercise prices of US\$25.00 to US\$30.56 per share were forfeited upon resignation of the relevant participants and 82,167 options with exercise prices between US\$19.00 and US\$25.00 per share expired including 65,500 options granted to directors of Global-Tech.

During fiscal 2013, an aggregate of 5,950 options with exercise prices of US\$15.60 to US\$30.56 per share were forfeited upon resignation of the relevant participants.

During fiscal 2014, an aggregate of 65,500 options with exercise prices of US\$30.40 to US\$30.56 expired.

(b) 2005 Stock Option Plan of Global-Tech

In October 2005, the Board of Directors of Global-Tech adopted Global-Tech's 2005 Stock Option Plan (the "2005 Plan"). The 2005 Plan provides for the grant of (i) ISO within the meaning of Section 422 of the Code; (ii) non-qualified stock options that do not qualify as ISO ("NQSOs"); and (iii) stock appreciation rights. The total number of shares of common stock of Global-Tech for which options may be granted under the 2005 Plan is 450,000 shares.

The 2005 Plan is administered by the Board of Directors of Global-Tech or a committee appointed by the Board of Directors of Global-Tech, who determines the terms of options, including the exercise price, the number of stock subject to the options and the terms and conditions of exercise. No option granted under the Plan is transferable by the optionee other than by will or the laws of descent and distribution and each vested option is exercisable within the contractual period of the option. With respect to any participant who owns (or is deemed to own) stock possessing more than 10% of the voting rights of Global-Tech's outstanding capital stock, the exercise price of any ISO must not be less than 110% of the fair market value of the stock on the date of grant. The term of each option granted pursuant to the Plan may be established by the Board of Directors of Global-Tech, or a committee of the Board of Directors of Global-Tech, in its sole discretion; provided, however, that the maximum term of each ISO granted pursuant to the 2005 Plan is 10 years. With respect to any ISO granted to a participant who owns (or is deemed to own) stock possessing more than 10% of the total combined voting power of all classes of Global-Tech's outstanding capital stock, the maximum term is five years. Every option granted shall vest and become exercisable in accordance with the terms of the applicable option agreement. Options can be exercised for a period not exceeding 10 years from the date of grant.

During fiscal 2014, 2013 and 2012, no options were granted and none were forfeited.

(c) Global-Tech Advanced Innovations Inc. 2011 Omnibus Equity Plan

The Global-Tech Advanced Innovations Inc. 2011 Omnibus Equity Plan (the "Omnibus Plan") was adopted by the Board of Directors in October 2010 and approved by the Company's shareholders in November 2010. The plan provides for the grant of stock options (non-statutory and incentive), stock appreciation rights, restricted stock units, performance shares and common shares.

A committee authorized by the Board of Directors of Global-Tech (the "Committee") will administer the Omnibus Plan. Unless otherwise determined by the Board of Directors of Global-Tech, the Compensation Committee will administer the Omnibus Plan. Subject to the terms of the Omnibus Plan, the Committee has the sole discretion to select the employees, consultants, and non-employee directors who will receive awards, determine the terms and conditions of awards, and to interpret the provisions of the Omnibus Plan and outstanding awards. The Committee may not, without the approval of the

GLOBAL-TECH ADVANCED INNOVATIONS INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (continued)

28. STOCK COMPENSATION (continued)

(c) Global-Tech Advanced Innovations Inc. 2011 Omnibus Equity Plan (continued)

Company's shareholders, institute an exchange program under which outstanding awards are amended to provide for a lower exercise price or cancelled in exchange for awards with a lower exercise price.

Awards granted under the Omnibus Plan are generally not transferable, and all rights with respect to an award granted to a participant generally will be available during a participant's lifetime only to the participant. If the Committee makes an award transferable, such award will contain such additional terms and conditions as the committee deems appropriate.

During the fiscal year ended March 31, 2012, no shares or options were granted under the 2011 Omnibus Equity Plan.

During the fiscal year ended March 31, 2013, 73,000 options were granted to officers and directors, 5,000 options to an employee and 8,000 options to a consultant.

During the fiscal year ended March 31, 2014, no shares were granted and 3,000 options which had been granted to a director were exercised.

Under the 1997 Plan and the 2005 Plan (the "Plans"), which expire in 10 years, options granted generally vest 25% after the first year of service and ratably each month over a further 36-month period.

The expected life of the options is based on the historical data and is not necessarily indicative of the exercise patterns that may occur. The expected volatility reflects the assumption that the historical volatility is indicative of future trends, which may also not necessarily be the actual outcomes. The risk-free rate for periods within the expected life of the options is based on the U.S. Treasury yield curve with maturity equal to the expected life of the options in effect at the time of grant.

The total compensation expense recognized in the SG&A line item in the consolidated statement of operations and comprehensive income for the fiscal years ended March 31, 2014, 2013 and 2012 amounted to US\$36,378, US\$258,128 and US\$34,121, respectively.

Changes in outstanding options under both the 1997 Plan, the 2005 Plan and the Omnibus Plan during the fiscal years ended March 31, 2014, 2013 and 2012 are as follows:

	2014				
	Number of options	Range of exercise price US\$ (per share)	Weighted average exercise price US\$ (per share)	Weighted average remaining contractual term (years)	Aggregate intrinsic value US\$

Exercisable, at end of fiscal year	<u>287,452</u>	8.99 – 30.56	16.06	4.17	

In January 1999, the Board of Directors of Global-Tech adopted an employee stock purchase plan. The plan was approved by the stockholders at the annual meeting of stockholders in March 1999. The total number of common stock which may be granted under the plan is 450,000 shares. Stock grants may be awarded under the plan to the employees, including officers, directors, non-employee directors and consultants in consideration for their services to the Group.

During the fiscal year ended March 31, 2007, Global-Tech granted an aggregate of 3,750 shares of common stock of Global-Tech to an employee with an effective grant date of November 6, 2006. 750 shares of such common stock vested and were issued on the first anniversary of the date of the stock grant and 750 shares of such common stock vested and were issued on the second, third, fourth, and fifth anniversaries of the date of the stock grant, respectively.

28. STOCK COMPENSATION (continued)

Changes in stock grants during the fiscal years ended March 31, 2014, 2013 and 2012 are as follows:

	2014		2013		2012	
	Stock	Weighted average grant-date fair value US\$	Stock	Weighted average grant-date fair value US\$	Stock	Weighted average grant-date fair value US\$
Non-vested, at beginning of fiscal year	—	—	750	10,380	750	10,380
Granted	—	—	—	—	—	—
Vested	—	—	(750)	10,380	—	—
Non-vested, at end of fiscal year	—	—	—	—	750	10,380

The total fair value of the 750 shares of common stock vested during the fiscal year ended March 31, 2013 was US\$6,503.

The expense for the employee stock purchase plan recognized in the SG&A line item in the consolidated statement of operations and comprehensive income for the fiscal years ended March 31, 2014, 2013 and 2012 amounted to nil, US\$9,108 and nil respectively.

Further details relating to the options granted under the 1997 Plan, the 2005 Plan and the Omnibus Plan that are outstanding as of March 31, 2014 are as follows:

Number of options	Options outstanding as of March 31, 2014			Options exercisable as of March 31, 2014	
	Range of exercise price per option US\$ (per share)	Weighted average remaining contractual life (years)	Weighted average exercise price per option US\$ (per share)	Number of options	Weighted average exercise price per option US\$ (per share)
83,000	4.75	8.31	4.75	80,500	4.75
20,000	8.99	5.70	8.99	15,000	8.99
248,251	13.20–15.60	2.29	14.87	248,251	14.87
<u>351,251</u>				<u>343,751</u>	

As of March 31, 2014, 2013 and 2012, there was an unrecognized share-based compensation cost of nil, nil and US\$1,969, respectively relating to stock granted to an employee under the 1999 Employee Stock Purchase Plan. The unrecognized compensation cost for stock granted is expected to be recognized over a weighted-average vesting period of two years and five years. To the extent that the actual forfeiture rate is different from the original estimate, actual share-based compensation relating to these awards may be different from the expectations.

The fair value of the options granted was estimated on the date of grant using the following assumptions:

	2014	2013	2012
Risk-free Interest Rate	—	0.97% – 1.50%	—
Expected Dividend Yield	—	0%	—
Expected Option Life	—	7 – 10 years	—
Expected Stock Price Volatility	—	53.28% – 58.71%	—

GLOBAL-TECH ADVANCED INNOVATIONS INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (continued)

29. CONDENSED FINANCIAL INFORMATION OF GLOBAL-TECH

Under the relevant PRC laws and regulations, the Company's PRC subsidiaries (the "PRC Subsidiaries") are restricted in their ability to transfer certain of their net assets to Global-Tech in the form of dividend payments, loans, or advances. The amounts restricted include net assets of the PRC Subsidiaries, as determined pursuant to PRC generally accepted accounting principles, totaling RMB311,667,606 (approximately US\$50,144,200) as of March 31, 2014.

The following is the condensed financial information of Global-Tech on a stand-alone basis:

To clear the rights and obligations of both parties in this Business Cooperation Agreement of Overseas Payment, Parties A and B to enter into this agreement for abidance in accordance with the relevant laws, rules and regulations.

Article 1 Overseas Payment

1. Overseas Payment in this Agreement refers to Party B's commission of the overseas branches of China Construction Bank or other banks authorized by China Construction Bank (hereinafter referred to as "overseas branches/Other Banks") to make an application that under the conditions of payment obligations of Party A and security responsibility to pay assumed by Party B, imports payment (including payment in advance) and financing services under non-trade payments are paid by overseas branches or other banks by letters of credit, import collection, T/T payment settlement for Party B.

2. Overseas payment referred to in this Agreement is limited to the import trade contract and non-contract payment, which include: sight letter of credit under the long-term letters of credit, letters of credit USANCE, USANCE credit payable at sight, document against payment (D/P) under the import collection, documentary against acceptance (D/A) and COD under the settlement of T/T.

3. Based on the application of Party A, Party B agrees to provide Party A the amount not exceeding (currency, the amount in capital) RMB Fifty million trust receipts for overseas payment operations.

The quota is valid for February 26, 2014 To December 31, 2014.

Amount within the quota and validity period of the agreement will be processed. As long as the principal balance Party A applies for overseas payment by commissioning Party B's overseas branches/Other Banks does not exceed the above limits, Party A can continuously applies for such payments according to the provisions of this Agreement, not limited by the number of times. But the amount Party A intends to apply for plus the amount already occupied or outstanding principal balance of payment shall not exceed the amount stated in the agreement.

The quota of trust receipts under this Agreement belong to trade financing facilities, and refers to import financing facility provided for the Party A by Party B in the premise that trust receipt is issued by Party A . Party B may apply to use this quota to handle overseas payment services.

4. Unless otherwise agreed by both parties, the specific amount of each overseas payment is determined by Party B under the payable amount in import account, but it shall not exceed the amount of the draft. When there are no drafts, it shall not exceed the amount of trade payables.

5. The time limit of each overseas payment will start on the actual date of payment, and ends on the expiring date determined by the Bank.

Article 2 Business processes of overseas payment under this Agreement

1. If Party A wishes to apply for the quota of trust receipts under this Agreement for overseas payment services, Party A should submit "*Overseas Payment Services Application*" within the validity time to Party B. Party A ensures that the amount of overseas payment business applications submitted does not exceed the limit of the amount stipulated in the agreement.

2. If Party B agrees to be entrusted by Party A to apply for overseas payment services by overseas branches/other Banks, Party B should, as trustee, based on entrusted matters to make an financing application to overseas branches/other Banks raise, and assume corresponding responsibility to ensure payment, while issuing "*Trade Financing facility Drawdown Notice*" to Party A.

3. Before the expiration of each overseas payment, Party B sends "*Maturity Notice of Overseas Payment Services*" to Party A. Both parties agree that actual amount to be paid, interest, costs and deadlines of each overseas payment shall be in line with "*Maturity Notice of Overseas Payment Services*".

Article 3 Interest and fees of overseas payment

Party A agreed to assume overseas payment interest and fee (including overseas branches/other Banks' financing interest and Party B's fees for overseas payment services), and all the interest and the fee of overseas payment are processed by Party B.

1. Interest and fees

Party A chose the First (1) method to determine the interest and fee of overseas payment:

(1) When Party A applies for overseas payment to Party B, the financing interest will be determined by inquiry through overseas branches/Other Banks, and Party A shall bear commission charge of overseas branches/Other Banks. Specific financing interest, fees will be in accordance with "*Trade Financing facility Drawdown Notice*" issued by Party B to Party A.

(2) Both parties agree that each overseas payment fee under this Agreement is based on the LIBOR in the same period plus spread overseas, which is called combination rate (including overseas branches/other Banks' financing interest and Party B's fees for overseas payment services). Party A is entitled to deduct Party B's overseas payment fee from the total amount of accrued interest expense. Specific combination rate will be in accordance with "*Trade Financing facility Drawdown Notice*".

Overseas financing interest/combination rate is annualized, and calculated daily (if the currencies of overseas payment are Hong Kong dollar and sterling, one year is calculated as 365 days; if other currencies, one year is calculated as 360 days).

LIBOR referred to in this Article is the interbank offered rate provided by British Bankers' Association [BBA] via [TELERATE] and other financial telecommunications terminals in the same duration and currency on the same day as, or one or two bank days before each overseas payment, or rate adjustment day, or one or two bank days before the rate adjustment. Specific LIBOR applicable to each overseas payment will be determined by overseas branches/other Banks.

LIBOR of the same period refers to LIBOR price matching the same duration and currency of the overseas payment (monthly). LIBOR on each day has different time frame from 1 month to 12 months, etc. If the deadline of overseas payment is less than a month, the LIBOR price will be calculated by one month LIBOR; If the deadline of overseas payment is more than one month but less than two months, the LIBOR price will be calculated by two month LIBOR; by analogy, the highest price applicable LIBOR is LIBOR of 12 months.

2. Other charges

Unless otherwise agreed, Party A agrees to bear the cost of handling overseas payment services occurred in the process, including but not limited to postal fees, fee charged by other foreign banks and so on. Party A agrees to pay a one-time overseas payment interest fee under this Agreement in accordance with other fees set out in Party B's "*Overseas Payment Services Expiration Notice*" prior to maturity by Party B via overseas branches/other Banks.

3. Interest fee

Party A agrees to pay a one-time overseas payment interest fee under this Agreement in accordance with principal, interest and fees set out in Party B's "*Overseas Payment Services Expiration Notice*" prior to maturity by B via overseas branches/other Banks.

4. If there is an extension, Party B should also pay interest and extension fees after extension have occurred through overseas branches/other Banks.

Article 4 Party B entrusts Party A to apply for overseas payment via overseas branches/overseas Banks, and provide security for the repayment liability of Party A.

Except that Party B waived partially or totally, only by meeting following preconditions will Party B entrusts Party A to apply for overseas payment via overseas branches/overseas Banks, and provide security for the repayment liability of Party A.

1. Party A has completed the relevant entries, registration, delivery and other legal formalities regarding overseas payment under this Agreement in accordance with relevant laws, regulations and rules.

2. Party A has been requested by the State Administration of Foreign Exchange to process overseas payment procedures, and has been confirmed by the State Administration of Foreign Exchange.

3. Party A has submitted relevant documents meeting the requirements of the Party B.

4. The agreement of guarantees or other securities in line with requirements of Party B have taken effect.
5. Party A did not breach any item of this Agreement.
6. Unless Party B agrees to waive, Party A has submitted “*Trust Receipts*” to Party B.
7. Party B has approved the application submitted by Party A.

Article 5 Repayment

1. Method of repayment

(1) The payment for goods after the disposition of the trust receipts are used to repay overseas payment and the insufficient amount is repaid via other funds by the Party A.

(2) Principal, interest, fees and other charges payable listed in “*Overseas Payment Services Expiration Notice*” by Party A are payable items of overseas payments. Unless otherwise agreed by both parties, Party A must pay above-mentioned items by overseas branches/other Banks prior to maturity in one time.

(3) Party A should reserve enough amounts of money in the account opened at Party B, and transfer the money for repayment before the repayment date set in “*Overseas Payment Services Expiration Notice*”, or Party A can transfer funds from other accounts to the account designated by Party A for repayment on the repayment date; if Party A fails to repay, Party B has the right to deduct money from other accounts opened Party B opened at China Construction Bank.

2. Early repayment: Unless agreed by overseas branches/other Banks and Party B, Party A shall not pay the repayment of principal, interest and fee in advance. But if Party B and/or overseas branches/other Banks think that Party A has or may occur business crisis or any other factors that may affect Party B’s repayment ability, or because of changes in national policies, internal administrative causes, or required by overseas branches/other Banks, Party A should make advance repayments.

If Party A requests extension in handling overseas payment, Party A should apply to overseas branches/other Banks via Party B with authenticated message at least 15 days in advance. If the overseas branches/other Banks agree to early repayment from Party A, Party A shall pay liquidated damages to the overseas branches/other Banks. Party B is entitled to receive a fee for losses incurred due to early repayment based on the actual situation from Party A.

3. If Party A requests extension in handling overseas payment, Party A should apply to overseas branches/other Banks via Party B with authenticated message at least 15 days in advance.

Article 6 The rights and obligations of both parties

1. When Party B entrusts Party A to apply for overseas payment via overseas branches/overseas Banks, Party A has the right to request Party B to provide security for the repayment liability of Party A.

2. Party B should keep commercial secrets for Party A.

3. RMB and foreign currencies settlement of Party A under this Agreement shall be handled in the accounts opened in Party B.

4. When overseas branches/other Banks are making overseas payments, and own documents of ownership of the goods, Party B shall obtain ownership of the documents and the goods represented by documents.

5. After Party A showed Party B the Trust Receipt, Party B should handle documents to Party A.

6. As a principal of trust receipt, Party B enjoys the beneficial right of trust property handled by Party A.

7. As a trustee of a trust receipt, Party A holds import documentation and the goods represented by the documentation under import issuance, import collection, the T/T payment settlements, and can conduct discharging, storage, manufacturing, processing, and sale;

Party A sales such goods only for the repayment for overseas payments to overseas branches / other Banks by Party B. Insufficient amount will be borne by Party A.

8. Any cost of handling cargo and all costs incurred by the goods shall be borne by the Party A.
9. After goods under import documentation by import issuance, import collection and the T/T payment settlements are sold, Party B is entitled to receive payment from the buyer of goods and give effectual receipts, without prior notice to Party A.
10. If Party B has special requirements, Party A shall handle cargo in line with the requirements.
11. Goods covered and receipts by each overseas payment bills under this Agreement term are Party B's trust property, independent from the Party A. If Party A comes to dissolution, revocation and bankruptcy situations, the trust property does not belong to the liquidation property; Party A disposes goods management, receipts and documents obtained.
12. Before the settlement of the principal, interest and fees of overseas payment are completed, Party A shall not pledge the goods receipts and documents represented (pledge) to others.
13. If specifically requested by Party B, Party A undertakes to submit the relevant documents or goods to Party B's instructed warehousing before each overseas payment. The warehouse receipt's beneficiary shall be Party B.
14. If specifically requested by Party B, Party A shall purchase fire and other risks insurance from a reputable insurance company as a trustee on behalf of Party B to hold trust receipt. Party B has the priority of repayment under the insurance policy or insurance contract. Insurance costs are borne by the Party A. If there are claims of goods under insurance policy, Party A shall immediately notify the Party B, and hand over the insurance compensation to Party B.
15. Party B has the right to check transportation, storage sites, storage methods and the type of insurance. Party A guarantees convenience for Party B, including allowing people from Party B to enter the Party A's warehouses and venues. Party B has the right to require Party A sign all documents to facilitate the delivery and claims for Party B.
16. Party B is entitled to supervise the production and operation of Party A, and Party A shall provide assistance. Party B has the right to check the status of receivable of each overseas payment for goods. Under the request of Party B, Party A must provide related situation in writing.
17. Party A should give written notice to Party B in advance if Party A changes its legal representative (responsible person), the residence or place of business or has a reduction of registered capital in agreement period.
18. If Party A needs to change the mode or form of management or property organization due to contracting, leasing, joint venture, joint-stock reform, separation, merger, consolidation, and other reasons, Party A needs to make a written notice to Party B in advance, and implement measures to settle the debts.
19. If circumstances constitute a significant hazard or adverse effect on Party A's repayment obligations under this Agreement, including, but not limited to, discontinued, closed, registration canceled, revocation of business licenses, legal representative or main person responsible for illegal activities, involved in significant litigation, serious difficulties in production and operation, deterioration of the financial situation, investors withdrawing funds, transferring of assets, unauthorized transfer of shares, etc., Party A has the right to request Party B to credit principal and related interest of overseas payment expense to the account designated by Party A immediately, as margin collateral security, other measures approved by Party B.
20. Party A ensures that Party A will no sign any agreement with any third-party which is prejudicial to the rights of Party B under this Agreement.
21. Party B may, at any time revokes the trust. Upon request of Party B, Party A shall immediately return all documents of the goods and other files or documents to Party B.
22. If Party A fails to deal with the trust property under the requirements of Party B, Party B has the right to terminate the trust relationship, and to recover trust property.
23. In the case where there is a guarantee, if the guarantor breach security agreement, or lose ability to guarantee, Party A shall immediately provide new guarantees recognized by Party B, otherwise B is entitled to recover principal and interest and related funds on behalf of the overseas branches/other Banks in advance, and is entitled to deduct from the account Party B opened in China Construction Bank, and to exercise security rights.
24. Party A agrees: rights enjoyed by overseas branches/other Banks, Party B shall also be entitled to exercise.
25. Both parties agree that items not set out in this agreement or unknown items apply to UCP600 other relevant international conventions.

Article 7 Guarantee

Guarantee under this Agreement applies to the Seventh (7) of following items:

- (1) Guarantee.
- (2) Mortgage.
- (3) Pledge.
- (4) Deposit.
- (5) Standby letter of credit.
- (6) Credit insurance.
- (7) Other: Credit.

Article 8 Breach of Contract

1. After the expiration of overseas payment, if Party A does not make full payment or lack of balance in the account at Party B, Party B is entitled to issue an overdue notice to Party A. Party A shall make full payment through Party B in a timely manner. Whatever the case, if the Party B has fulfilled the obligation of guaranteed overseas payment, Party A shall pay the following amounts within 3 working days after the overseas payment:

- (1) All amounts paid by Party B to the overseas branches/other Banks or designated third party;
- (2) From the date of the first payment to the date of full payment from Party A, Party B will charge a daily rate of 5/10000 of outstanding amounts (including principal, interest and fees of overseas payment) as an advance interest;
- (3) The cost of sending notices to Party B, and other related costs.

2. If Party A fails to pay the principal and related interest of overseas payments in full amount, Party B is entitled to take one or more of the following actions:

- (1) Party B can deduct the amount from the account Party A opened in China Construction Bank, or from other receivables of Party B;
- (2) Disposal of import documentation and the goods represented by the documentation under import issuance, import collection, the T/T payment settlements;
- (3) Disposal of collateral, pledge property or recourse to the guarantor.

3. If Party B violates any provision of this Agreement, Party A has the right to request Party B to cease such violation within a time limit, or require Party B to make guarantees in compliance with the requirements of Party A, or deduct the amount from the account Party A opened in China Construction Bank and other remedies permitted by law.

Article 9 Modification, supplement and explanation of Agreement

1. Any amendments or supplements to this Agreement shall be subject to mutual agreement and should be made in writing, and constitutes effective parts of this Agreement.

2. If the understanding of any provision of this Agreement is controversial, the true meaning of the terms of the agreement should be determined in accordance with the purpose of the words used, the relevant provisions of usage and the principle of good faith.

Article 10 Annex of Agreement

“Overseas Payment Services Application”, “Trade Financing facility Drawdown Notice”, “Overseas Payment Services Expiration Notice”, and imported goods list, other receipts, paperwork, etc. under import issuance, import collection, the T/T payment settlements and other items issued by Party A are attachments of this agreement, which are the integral parts of this Agreement.

Article 11 Settlement of Disputes

Import T/T Financing Agreement

Special Note: This Agreement was made of equality of both parties on a voluntary basis and in accordance with the law. All contract terms expressed the true meaning of both parties. To safeguard the legitimate rights and interests of Party B. Party A reminds Party B to pay full attention to all of the terms relating to the rights and obligations, particularly the text in bold.

Party A: Industrial and Commercial Bank of China Co., Ltd. Dongguan Qingxi Branch
Residence (address): Qingxi town, Dongguan City
Person in charge: Zhang Qinggui

Party B: Guangdong Lite Array Co., Ltd
Residence (address): Yinxi Industrial Zone, Qingxi town, Dongguan City
Legal representative: John C.K. Sham

Whereas: Party B applies for import T/T financing business to Party A, both parties have entered into this agreement on equal basis and consensus to clear responsibilities and to abide by the credits.

Article 1 Definition: “Import T/T Financing” refers to the security measures Party B offers to Party A due to funding needs of Party B in the settlement of imports entrusted by Party B to Party A. under this condition, Party A finances Party B, and on behalf of Party B, Party A use this finances to make overseas payments. Party B shall repay the said amount as well as interest, late penalty resulting within the agreed deadlines.

In these circumstances, all risks of import goods are borne by the Party B.

Article 2 This Agreement applies to all import T/T financing business Party A arrange for Party B in the term of the agreement. Each business should be applied by Party B to Party A in writing. Party A considers the actual situation when deciding whether to transact the business.

Article 3 Financing rate is determined by mutual agreement.

Article 4 The financing term should be within the scope of the provisions of the Party A. The specific time will be determined by consultation of both parties.

Article 5 Financing management: Party A has the right to inspect and supervise the Party B’s management, financial activities and inventory as well as sales. Party B shall submit monthly financial statements, related plans and statistical reports to the Party A and help Party A by providing facilitation during financing management.

Article 6 In order to ensure full recovery of the scheduled principal and interest and other financing, Party B agrees to provide appropriate financial assurance under the request of Party A. The contract will be signed in another document. Under the request of the Party A, Party B shall pay the sales revenue into the Party A’s designated account, 2010028919200084939. If such debt cannot be repaid by Party B on time, Party A is entitled to the priority for repayment from the disposition of collateral. The aforementioned collateral should be items excluding imported goods.

Party B can also provide guarantees which can be recognized by the Party A. If Party B cannot repay the debt on time, the Guarantor will bear unconditional joint liability.

B provided security guarantees for the maximum amount. The contract name and number of the maximum amount guarantee are as follows: Pledge Contract of Maximum Amount (Code: 2013 Company (clearing) No. 1002, 1003)

The above guarantee contract is an integral part of the agreement, and the agreement shall have the same legal effects.

Article 7 Repayment: B guarantees repayment within the period specified in the contract, which includes the principal and interest. Party B may make advance repayments, and installments. After repayment by the Party, the interest will base on the balance of total repayments.

If Party B fails to make repayment on schedule, for whatever reason, Party A will have the following rights:

1. Penalty will be applied on overdue debts. Penalty interest is % on the basis of financing interest. Penalty interest will be compound interest;
2. In accordance with the agreement, the amount is deducted from the Party B's account;
3. The repayment will be deducted from a variety of accounts receivable of Party B;
4. The collateral will be deposited, and the guarantor will be required to perform compensatory obligations;
5. Other measures which will be sufficient to maintain the Party A's rights under this Agreement will be performed.

Article 8 Insurance: Party B should take the initiative insure the above-mentioned goods exception to with Party A as the first beneficiary. The policy number is . Party A is entitled to deduct the compensation payment financing directly from the insurance company as the principal and interest repayments.

Article 9 Party B makes the following warranties and commitments:

1. Party B is an independent economic entity with legal personality, established in accordance with the laws of People's Republic of China;
2. Party B has legal rights and the statutory qualifications and licensing of fulfilling its obligations;
3. All information on this financing provided by Party B to Party A is true;
4. The financing payments in this agreement are only regarded as payments for the purchase of above-mentioned goods;
5. Unless otherwise agreed in writing by both parties, Party B shall not:
 - (1) Before full repayment of financing (including principal and interest), provide security for other economic entities;
 - (2) Cause, incur or permit any possible loss of property, income and rights of Party B now and in the future;
6. Party B promises never to make following acts in any case:
 - (1) After Party A's overseas financing payments, claims on legal basis against the obligatory right of Party A for any reason;

1. If one of the following circumstances happens, it will constitute breach of contract by Party B:

(1) Party B made untrue representations and warranties in this Agreement or warranties contrary to the commitments under this Agreement;

(2) Party B does not fulfill its obligations under this Agreement;

(3) In Party A's view that change of production and operations or standing of Party B affected the performance of duties and obligations under the financing agreements;

(4) Party B is out of business, or come to dissolution, liquidation, rectification, or get a revocation of business licenses or bankruptcy;

(5) Party B is involved in major economic disputes or violation of the relevant laws and regulations with regard to food safety, workplace safety, environmental protection and other regulatory requirements or industry standards, posing a material adverse effect on its ability to fulfill its obligations arising from under this Agreement;

(6) Party B makes false contracts with related parties to use transaction without taking actual trade to draw funds or credit from Party A, or evade debts through a related party transaction;

(7) Guarantees under this Agreement has suffered unfavorable changes to Party A, and Party B did not provide other guarantees separately in accordance with the requirements of Party A;

(8) Other circumstances which have significant adverse impacts on Party B's ability to perform obligations under this Agreement.

2. If B defaults, Party A is entitled to take one or more of the following remedies:

(1) Require Party B to rectify the breach behavior within deadline;

(2) Stop issuing financing which has not been issued to Party B;

(3) Declare that all outstanding financing amounts are immediately due, and that Party B must repay immediately and assume the liability for breach;

(4) Require compensation costs from Party B for the realization of arising claims, including but not limited to attorneys' fees, assessment fees and auction fees under this Agreement;

(5) Measure under relevant laws and regulations, in this Agreement or Party A considers necessary.

Such measures do not affect any party's rights under this Agreement. In this regard, B unconditionally waives its right to defense.

Article 11 If Party B fails to repay financing on time to Party A (including being declared early maturity) Party A is entitled to deduct the corresponding amount to settle until B repaid all amounts in Party B's accounts at Party A or other branches of Industrial and Commercial Bank of China (foreign currency or local currency accounts).

If deducted money is in a currency inconsistent with this Agreement, it will apply exchange rate of Party B on the closing date. Interest and other charges incurred during the deduction date to the settlement date (the date when Party A converts deduction payments to currency in this agreement and pays off Party B's debts in accordance with national foreign exchange management policy), and the difference in this period due to exchange rate fluctuations arising are borne by the Party B.

Article 12 Party A is entitled provide information related to this Agreement and other relevant information of Party B available to the Party People's Bank of China credit system and other credit information database established by law for appropriate queries by qualified institutions or individuals in accordance with the requirements of relevant laws and regulations or financial regulators. Party A has the right to inquire into Party B's related information through the credit system of People's Bank of China and other credit information databases established by law.

Article 13 Waiver: If Party A did not exercise or delays in exercising any right under this Agreement, that shall NOT be deemed a waiver of the right during the execution of this Agreement, and has no prejudice to any obligations which Party B should bear under this Agreement.

Article 14 Modifications and supplemental agreements: This Agreement can be additionally modified and supplemented by agreement in writing from both parties. Any changes and additions to this Agreement signed by both parties constitute an integral part of the agreement. The amended agreement will replace the original relevant content on the effective date. Supplemental Agreements take effect from the date of signing on the parties.

Article 15 Applicable Law and Dispute Resolution

The interpretation and implementation of this Agreement shall be governed by the laws of the People's Republic of China. Dispute occurred in the performance of this Agreement of both parties should be firstly addressed by negotiation; if negotiation fails, then the following will be used;

1. The dispute will be arbitrated by the China International Economic and Trade Arbitration Commission in accordance with Financial Disputes Arbitration Rules in ;
2. It can be resolved through litigation of the local court in Party B.

During litigation or arbitration, clauses in the agreement which are not involved the controversy still has to be fulfilled.

Article 16 Change of parties: Party A must be notified of merger, demerger and restructuring of Party B. When Party B mergers or makes capital reduction, Party A is entitled to request Party B to pay off debts or provide guarantees; when Party B is divided, the companies after division should be jointly and severally liable.

Article 17 "*Import T/T financing business application*" under this Agreement is an integral part of this Agreement, and the terms listed in this Agreement have the same legal effects.

Maximum Amount Pledge Contract

Important notes: This Contract is signed by the Both Parties on the basis of their own free will and equality with consensus through consultation, all terms are real expressions of the Both Parties. To safeguard legal rights and interests of the Pledgor, the Pledgee has asked the Pledgor to pay special attention to all terms about the rights and interests of the Both Parties, especially for the boldface letters.

Pledgee: Industrial & Commercial Bank of China Co., Ltd., Dongguan Qingxi Branch (Hereinafter referred to as “Party A”)
Responsible person: Qinggui Zhang
Business address: Qingxi Town, Dongguan City
Tel. and Fax:

Pledgor: Guangdong Lite Array Co., Ltd. (Hereinafter referred to as “Party B”)
Legal representative: John C.K. Sham
Business address or dwelling place: Yinxi Industrial Zone, Qingxi Town, Dongguan City
Tel. and Fax:

To ensure the realization of Party A’s creditor’s rights, Party B shall provide the maximum amount pledge guarantee (counter guarantee) with free will. To determine the rights, obligations of the Both Parties, Party A and Party B shall sign this Contract through friendly negotiation in accordance with *Contract Law, Guarantee Law, Real Right Law* as well as other relevant laws and regulations.

Article I Guaranteed principal creditor’s right

1.1 The principal debt guaranteed by Party B shall be from April 28, 2013 to April 28, 2014 (including the start date and expiry date) within the maximum balance RMB 9,100,000.00 (capital letters: NINE MILLION AND ONE HUNDRED THOUSAND ONLY) (amount in capital letters shall prevail when it is consistent with the digital amount). Party A shall own the debt right against the Debtor in accordance with the contracts (including Foreign Currency Loan Contract, Foreign Exchange Transfer Loan Contract, Bank Acceptance Agreement, Letter of Credit Opening Agreement/Contract, Open Guarantee Agreement, International and Domestic Trade Financing Agreements, Forward Foreign Exchange Agreement as well as other financial derivative products agreements and other documents (hereinafter referred to as “Principal Contract”)) signed with Guangdong Lite Array Co., Ltd. (hereinafter referred to as “Debtor”), no matter whether the debt expired during the above period, or the debt has been exited before setting the maximum amount.

1.2 Above maximum balance is the sum balance in RMB calculated by different currencies in accordance with the foreign exchange middle price issued by Party A on the date when the main creditor’s rights undertaken by Party B is determined.

Article II Range of pledge guarantee

The maximum amount pledge guarantee range of Party B shall include the principal and the corresponding interest, compound interest, liquidated damages, damage awards, interest and damages, exchange rate loss (incurred due to exchange rate change), pledge storage fee as well as the expenses for realizing pledge right (including but not limited to legal cost, retaining fee, evaluation fee, auction fee, disposing fee and so on), but the expenses for realizing pledge right shall be deducted from the pledge object disposing fee, not included in the maximum balance described in the item 1.1.

Article III Pledge object

3.1 For pledge object, please see Pledge object List. As the attachment of this contract, Pledge object List has the same legal force as this contract.

3.2 The Pledge object List is just the agreement for pledged value and not considered as the valuation basis for Party A disposing the pledge object, and does not constitute any limit to pledge right execution of Party A.

3.3 The effect of Party A's pledge right refers to fruits produced by the pledge object, as well as the premium, indemnity and compensation caused due to pledge object damaged, lost or collected.

3.4 Party A is entitled to charge the fruits of the pledge object, and the fruits shall be first used as fees for charging fruits.

3.5 The premium, indemnity and compensation caused to Party B due to pledge object damaged, lost or collected shall be used for settlement of principal creditor's right in advance, or with Party A's permission, used for recovering the value of the pledge object, or deposited to Part A's specified account, to guarantee the fulfillment of liabilities under the contract. The undepreciated part of the pledge object shall still be used as the guarantee to the principal creditor's right.

3.6 If the pledge object may be lost or damaged due to improper keeping of Party A, Party B can require Party A to draw the pledge object, and also require settlement of liabilities in advance and returning of the pledged property.

3.7 Party A has the right to require Party B to provide the corresponding warranty, if Party A's rights will be harmed when the pledge object may be damaged or discounted obviously due to some reason outside the scope of Party A.

3.8 In accordance with the ratio between the pledged value and maximum balance described in item 1.1, the following warning line and disposal line are established for the pledge object under this contract:

Warning line = Pledge value/Maximum balance described in item 1.1 = %

Disposal line = Pledge value/Maximum balance described in item 1.1 = %

When the pledge value reduces below the warning line, Party B shall append the guarantee within the period required by Party A to supplement the pledged value gap caused by decrease of pledged value; when the pledged value reduces below the disposal line, Party A has the right to dispose the pledge object and will be compensated by the obtained payment.

Article IV Delivery and registration

4.1 Party B shall deliver the pledge object or right credential to Party A or its designated agent within 5 days since this contract takes effect. Party A or its designated agent shall issue the detention credential to Party B after accepting the pledge object or right credential, and the keeping fees of the pledge object shall be paid Party B.

4.2 If the pledge object under this contract shall be registered, Party A and Party B shall handle the pledge registration procedure to the concerning registration authority within 5 days since this contract takes effect; if change of registration for registered matters is required, Party A and Party B shall handle the change of registration in time. Unless otherwise specified, the registration charge shall be paid by Party B.

Article V Insurance

(This article applies to pledge of movable property)

5.1 Within 15 days since the signing of this contract, Party B shall handle the pledge insurance procedure as required by Party A. If the pledge insurance cannot be handled one time due to some reason of the insurance authority, Party B shall handle the renewal of insurance in time, to ensure the property insurance of the pledge object within the effective term of this contract cannot be uninterrupted.

5.2 Insurance Policy shall be specified: When an accident is arose, Party A, as a payee of priority for compensation (the first beneficiary), will directly get payment of insurance indemnity from the insurer. There shall be no terms for limiting Party A's rights and interests in the Insurance Policy.

5.3 Within the effective term of this contract, Party B cannot interrupt or cancel the insurance for any reason. If the insurance is interrupted, Party A is entitled to handle the insurance procedure on behalf of Party B, and all fees shall be paid by Party B.

5.4 Within the effective term of this contract, if insurance accident happened to the pledge object, the insurance compensation shall be disposed as agreed in item 3.5.

Article VI Determination of principal creditor's right

The creditor's rights of the maximum amount pledge guarantee are determined in case one of the following situations occurs:

- A. Period agreed in item 1.1 expired;
- B. New creditor's rights cannot recur;
- C. The pledged property has been closed or detained;
- D. The Debtor and Party B have been announced to bankrupt or withdrawn;
- E. Others regulated by laws.

Article VII Implementation of pledge right

7.1 Party A is entitled to implement the pledge right in case one of the following situations occurs:

- A. When principal creditor's right is expired (including expiry in advance), the debtor cannot settle;
- B. When one of the situations prescribed in item 3.7 under this contract occurs, Party B has not provided the corresponding guarantee;
- C. When the pledged value reduces below the warning line agreed in item 3.8, Party B has not appended the guarantee as required by Party A, or the pledge value reduces below the disposal value agreed in item 3.8;
- D. Party B or the debtor has been applied for being bankrupt, closing down, settlement and stopping business for internal rectification, and revoked business license or cancelled;
- E. Others regulated by laws.

7.2. Party A can auction, sell or cash the pledge object and be compensated by the cashed payment, or use the cashed payment of the pledge object to settle the principal creditor's right through negotiation with Party B when implementing the pledge right.

7.3 When the pledge object is cashed or the date of delivery is earlier than expiry date of the principal creditor's right, Party A can cash or draw the pledge object. The cashed payment is used for paying off the liabilities in advance, or deposited to Party A's specified account to guarantee the fulfillment of the liabilities. The drawn goods shall be delivered and registered by Article IV in this contract, to guarantee the fulfillment of the liabilities; the payment after auctioning or selling the pledge object is used for paying off the liabilities in advance, or deposited to Party A's specified account to guarantee the fulfillment of the liabilities.

7.4. If Party B can use the certificate of deposit or national bonds to cash or withdraw the right pledge, Party B authorizes Party A to cash or withdraw in advance when implementing the pledge right to pay off the liabilities by the obtained payment when the cashing or withdrawal date is later than date of pledge implementation agreed in item 7.1 by Part A, and the loss caused by this shall be assumed by Party B.

7.5 If the payment arising from the pledge object punishment is inconsistent with the currency in the primary contract, it shall be exchange to the currency in the primary contract by the appropriate exchange ratio published by Party A to pay off the liabilities under the contract.

Article VIII Statement and guarantee of Party B

Party B shall make the following statements and guarantees:

8.1 Party B is the owner of the pledge or the operation manager authorized by the State, the pledge has no dispute about ownership, usage right or operation right: all necessary authorizations or approvals have been obtained in accordance with the procedures and rights regulated in the memorandum of association for providing the pledge guarantee for Party A without violating laws and regulations as well as other relevant regulations.

To ensure the realization of Party A’s creditor’s rights, Party B shall provide the maximum amount pledge guarantee (counter guarantee) with free will. To determine the rights, obligations of the Both Parties, Party A and Party B shall sign this Contract through friendly negotiation in accordance with *Contract Law*, *Guarantee Law*, *Real Right Law* as well as other relevant laws and regulations.

Article 1 Guaranteed principal creditor’s right

1.1 The principal debt guaranteed by Party B shall be from May 7, 2013 to May 7, 2014 (including the start date and expiry date) within the maximum balance RMB 15,000,000.00 (capital letters: FIFTEEN MILLION AND ONE HUNDRED THOUSAND ONLY) (amount in capital letters shall prevail when it is consistent with the digital amount). Party A shall own the debt right against the Debtor in accordance with the contracts (including Foreign Currency Loan Contract, Foreign Exchange Transfer Loan Contract, Bank Acceptance Agreement, Letter of Credit Opening Agreement/Contract, Open Guarantee Agreement, International and Domestic Trade Financing Agreements, Forward Foreign Exchange Agreement as well as other financial derivative products agreements and other documents (hereinafter referred to as “Principal Contract”)) signed with Guangdong Lite Array Co., Ltd. (hereinafter referred to as “Debtor”), no matter whether the debt expired during the above period, or the debt has been exited before setting the maximum amount.

1.2 Above maximum balance is the sum balance in RMB calculated by different currencies in accordance with the foreign exchange middle price issued by Party A on the date when the main creditor’s rights undertaken by Party B is determined.

Article II Range of pledge guarantee

The maximum amount pledge guarantee range of Party B shall include the principal and the corresponding interest, compound interest, liquidated damages, damage awards, interest and damages, exchange rate loss (incurred due to exchange rate change), pledge storage fee as well as the expenses for realizing pledge right (including but not limited to legal cost, retaining fee, evaluation fee, auction fee, disposing fee and so on), but the expenses for realizing pledge right shall be deducted from the pledge object disposing fee, not included in the maximum balance described in the item 1.1.

Article III Pledge object

3.1 For pledge object, please see Pledge object List. As the attachment of this contract, Pledge object List has the same legal force as this contract.

3.2 The Pledge object List is just the agreement for pledged value and not considered as the valuation basis for Party A disposing the pledge object, and does not constitute any limit to pledge right execution of Party A.

3.3 The effect of Party A's pledge right refers to fruits produced by the pledge object, as well as the premium, indemnity and compensation caused due to pledge object damaged, lost or collected.

3.4 Party A is entitled to charge the fruits of the pledge object, and the fruits shall be first used as fees for charging fruits.

3.5 The premium, indemnity and compensation caused to Party B due to pledge object damaged, lost or collected shall be used for settlement of principal creditor's right in advance, or with Party A's permission, used for recovering the value of the pledge object, or deposited to Part A's specified account, to guarantee the fulfillment of liabilities under the contract. The undepreciated part of the pledge object shall still be used as the guarantee to the principal creditor's right.

3.6 If the pledge object may be lost or damaged due to improper keeping of Party A, Party B can require Party A to draw the pledge object, and also require settlement of liabilities in advance and returning of the pledged property.

3.7 Party A has the right to require Party B to provide the corresponding warranty, if Party A's rights will be harmed when the pledge object may be damaged or discounted obviously due to some reason outside the scope of Party A.

3.8 In accordance with the ratio between the pledged value and maximum balance described in item 1.1, the following warning line and disposal line are established for the pledge object under this contract:

Warning line = Pledge value/Maximum balance described in item 1.1 = %

Disposal line = Pledge value/Maximum balance described in item 1.1 = %

When the pledge value reduces below the warning line, Party B shall append the guarantee within the period required by Party A to supplement the pledged value gap caused by decrease of pledged value; when the pledged value reduces below the disposal line, Party A has the right to dispose the pledge object and will be compensated by the obtained payment.

Article IV Delivery and registration

4.1 Party B shall deliver the pledge object or right credential to Party A or its designated agent within 5 days since this contract takes effect. Party A or its designated agent shall issue the detention credential to Party B after accepting the pledge object or right credential, and the keeping fees of the pledge object shall be paid Party B.

4.2 If the pledge object under this contract shall be registered, Party A and Party B shall handle the pledge registration procedure to the concerning registration authority within 5 days since this contract takes effect; if change of registration for registered matters is required, Party A and Party B shall handle the change of registration in time. Unless otherwise specified, the registration charge shall be paid by Party B.

Article V Insurance

(This article applies to pledge of movable property)

5.1 Within 15 days since the signing of this contract, Party B shall handle the pledge insurance procedure as required by Party A. If the pledge insurance cannot be handled one time due to some reason of the insurance authority, Party B shall handle the renewal of insurance in time, to ensure the property insurance of the pledge object within the effective term of this contract cannot be uninterrupted.

5.2 Insurance Policy shall be specified: When an accident is arose, Party A, as a payee of priority for compensation (the first beneficiary), will directly get payment of insurance indemnity from the insurer. There shall be no terms for limiting Party A's rights and interests in the Insurance Policy.

5.3 Within the effective term of this contract, Party B cannot interrupt or cancel the insurance for any reason. If the insurance is interrupted, Party A is entitled to handle the insurance procedure on behalf of Party B, and all fees shall be paid by Party B.

5.4 Within the effective term of this contract, if insurance accident happened to the pledge object, the insurance compensation shall be disposed as agreed in item 3.5.

Article VI Determination of principal creditor's right

The creditor's rights of the maximum amount pledge guarantee are determined in case one of the following situations occurs:

- A. Period agreed in item 1.1 expired;
- B. New creditor's rights cannot recur;
- C. The pledged property has been closed or detained;
- D. The Debtor and Party B have been announced to bankrupt or withdrawn;
- E. Others regulated by laws.

Article VII Implementation of pledge right

7.1 Party A is entitled to implement the pledge right in case one of the following situations occurs:

- A. When principal creditor's right is expired (including expiry in advance), the debtor cannot settle;
- B. When one of the situations prescribed in item 3.7 under this contract occurs, Party B has not provided the corresponding guarantee;
- C. When the pledged value reduces below the warning line agreed in item 3.8, Party B has not appended the guarantee as required by Party A, or the pledge value reduces below the disposal value agreed in item 3.8;
- D. Party B or the debtor has been applied for being bankrupt, closing down, settlement and stopping business for internal rectification, and revoked business license or cancelled;
- E. Others regulated by laws.

7.2. Party A can auction, sell or cash the pledge object and be compensated by the cashed payment, or use the cashed payment of the pledge object to settle the principal creditor's right through negotiation with Party B when implementing the pledge right.

7.3 When the pledge object is cashed or the date of delivery is earlier than expiry date of the principal creditor's right, Party A can cash or draw the pledge object. The cashed payment is used for paying off the liabilities in advance, or deposited to Party A's specified account to guarantee the fulfillment of the liabilities. The drawn goods shall be delivered and registered by Article IV in this contract, to guarantee the fulfillment of the liabilities; the payment after auctioning or selling the pledge object is used for paying off the liabilities in advance, or deposited to Party A's specified account to guarantee the fulfillment of the liabilities.

7.4. If Party B can use the certificate of deposit or national bonds to cash or withdraw the right pledge, Party B authorizes Party A to cash or withdraw in advance when implementing the pledge right to pay off the liabilities by the obtained payment when the cashing or withdrawal date is later than date of pledge implementation agreed in item 7.1 by Part A, and the loss caused by this shall be assumed by Party B.

7.5 If the payment arising from the pledge object punishment is inconsistent with the currency in the primary contract, it shall be exchange to the currency in the primary contract by the appropriate exchange ratio published by Party A to pay off the liabilities under the contract.

Article VIII Statement and guarantee of Party B

Party B shall make the following statements and guarantees:

8.1 Party B is the owner of the pledge or the operation manager authorized by the State, the pledge has no dispute about ownership, usage right or operation right: all necessary authorizations or approvals have been obtained in accordance with the procedures and rights regulated in the memorandum of association for providing the pledge guarantee for Party A without violating laws and regulations as well as other relevant regulations.

8.2 In case it is a listed company or a holding company of a listed company, it shall perform the information disclosure obligation for this guarantee item in time in accordance with *Securities Act, Securities Act, Stock Exchange Listing Rules* as well as other laws and regulations.

8.3 Completely learned about the purpose of debts under the Principal Contract, providing the pledge guarantee for the Pledgee is based on free will. The expression under this Contract is really true. For the international and domestic trade financing, Party B shall acknowledge that the basis of financing is true without any fraud.

8.4 All necessary authorizations or approvals have been obtained for signing this Contract.

8.5 The pledge right may be set for the pledge object under this Contract without any restriction;

8.6 In case the pledge object has any flaw, full and reasonable description shall be made for the flaw. In case the pledge object has set the pledge right, it shall inform Party A truthfully.

8.7 The pledge object under this Contract shall be not made any disposal, such as real right guarantee, gifting or transferring.

8.8 The pledge object shall not belong to common property. In case it belongs to common property, approval has already been obtained from common owners in written.

8.9 In case the main creditor's rights guaranteed by this Contract is that Party A provides international trade financing to the debtor, Party B shall accept and recognize the international common practice of relevant businesses.

Article IX Promise of Party B

Party B shall make the following promises to Party A:

9.1 In case one of the following situations occurs, Party B may continue to perform the guarantee obligations under this Contract without the approval from Party B:

A. Party A changes the Principal Contract by consulting with the debtor, without adding the debt of the debtor or extending the time period;

B. Under the international and domestic trade financing items, Party A and the debtor make change for letter of credit related to the Principal Contract without adding the payment obligation under the letter of credit or extending the payment time period;

C. In case Party A has transferred the main creditor's rights.

9.2 Within the effective period of this Contract, the disposed pledge object shall not be presented, transferred or used by others without the approval from Party A.

9.3 Shall undertake all expenses produced by Party A for realizing the pledge right of this Contract, including but not limited to legal cost, retaining fee, evaluation fee, auction fee, disposing fee and so on.

9.4 Damage to Party A or the third party caused by the pledge object not due to the reason of Party A, Party B shall undertake compensation responsibilities.

9.5 When the pledge right has already or may be damaged by the third party, it shall inform Party A in time and help Party A to avoid the damage.

9.6 In case deposit receipt, certificate-type government loan, bank acceptance draft has been used for pledge, it shall not report the loss to stop paying in any way. In case accounts receivable has been used for pledge, it shall provide the required information about registering pledge, and sign the registering agreement and registering extending and change agreement with Party A.

9.7 Shall provide active coordination when Party A realizes the pledge right without setting any hinder to prevent Party A performing the pledge right.

9.8 In case one of the following events occurs, it shall inform Party A timely:

A. Change in registered name, memorandum of association, operating range, registered capital, legal representative, major stock rights change;

B. Stop production, dismiss, clearing accounts, out of business, cancellation of license, cancelled or petition for bankruptcy;

C. Already or may be involved in major case or economic dispute, lawsuit, arbitration or property is detained by law, closed down, held in custody or supervised;

D. As a natural person, Party B's effective ID Card No., dwelling place, working organization, contact method changed.

9.9 Sign the written notice issued by Party A in time.

9.10 In case there are other guarantees for the main creditor's rights of Party A, no matter this guarantee is provided by the debtor or the third party, Party A shall have the rights to decide the sequence to realize the guarantee, Party B shall promise not to put forward the counterargument. In case Party A gives up, changes or losses other guarantee rights under the Principal Contract, the guarantee responsibilities of Party B shall continue to be effective without becoming invalid or reduced for this.

9.11 Under domestic letter of credit, the buyer financing of domestic letter of credit, import letter of credit and import documentary credit/ import paying service, once one of the following situations occurs, Party B shall have the non-defense pledge guarantee obligation, Party B shall not put forward exemption or counterargument because any judicial authority or administrative organization issues any payment stopping order, restraining order or adopts detaining, closing, holding in custody and other measures or similar measures;

A. The person specified or authorized by Party A has paid in accordance with the requirements of Party A;

B. Party A or the person specified or authorized by Party A has provided due payment confirmation for the goods payment under domestic letter of credit or made acceptance for documents under import letter of credit in good faith.

C. The confirming bank of letter of credit has performed the payment obligations in good faith.

D. The negotiation bank of letter of credit has performed the negotiation obligations in good faith.

9.12 Under the shipping guarantee, endorsement of bill of lading, unauthorized withdrawal, Party B shall not put forward exemption or counterargument because the borrower refuses to pay the funds under letter of credit.

Article X Promise of Party A

Party A shall make below promises to Party B:

10.1 Party A shall keep secret for all related documents, financial data and other relative but undisclosed information provided by Party B under the duty of Contract, but shall exclude the additional rules of the laws and regulations.

10.2 Keep pledged properties properly.

10.3 The remaining from dispose of the pledged property income after paying off all the debt within the scope of the pledged collateral, Party A shall return the remaining part to Party B in time.

10.4 Debtor shall pay off all debts in terms of the Main Contract, or Party B shall pay for Party A all claims under the provisions of the Main Contract, Party A shall return the pledged property and its ownership certificate, invoices, other related information or the Pledgor right certificate to Party B in time.

Article XI Breach of contract

11.1 Either Party fails to perform any of the obligations, or breach any statements, guarantees and promises under this Contract since the Contract becoming effective, then such Party shall be in breach of the Contract. It shall compensate for the other Party if caused lost.

11.2 Except the contract specially specified, either Party breaches the contract, the other Party shall have the right to adopt any other measures in the laws and regulations of PRC.

Article XII Validity, amendment and termination

12.1 This Contract shall come into effect since the date when it is signed by both Parties, and shall be terminated till the date of Party A's debts fully paid off under the Main Contract.

12.2 Any changes in this Contract shall be in written form after negotiating by both parties. The amendments or agreements shall be a part of the Contract, have the equal legal effect to the Contract. The other parts shall be still valid except the changing part; the original articles are still effective before the amendments become effective.

12.3 Any invalid or unenforceable articles under this Contract shall not influence the other articles' validity and enforceability, nor influence the validity of the entire Contract.

12.4 The Contract's amendment and termination shall not affect the right of each Party to claim damages. Termination of the Contract shall not influence the contractual provisions relating to the effectiveness of dispute resolution.

Article XIII Settlement of disputes

The conclusion of this Contract, effectiveness, interpretation, implementation and settlement of dispute shall be governed by the laws of the People's Republic of China. In the event of any

dispute and controversy arising out of or relating to this Contract, the Parties shall resolve through consultations; if can not be resolved by consultation, then shall be settled according to the below method B:

A. The dispute shall be submitted to _____ Arbitration Commission, in accordance with its effective arbitration rules in the time of submitting arbitration application, for arbitration at _____ (arbitration place). The arbitration award shall be final and binding on the Parties.

B. The dispute shall be solved through litigation at Party A's local court.

Article XIV Others

14.1 Party B shall not transfer the entire or partial rights or duties under this Contract without Party A's agreement in written form.

14.2 Before confirming the creditor's rights of maximum amount pledge, Party A can transfer the pledge right of the maximum amount together if transfer the partial creditor's rights.

14.3 Party A fails or delays to exercise a right under this Contract, shall not operate as a waiver or change thereof, nor shall preclude any other future exercise thereof.

14.4 According to rules of the relative laws and regulations or other normative documents or the request of financial regulators, Party A shall have right to provide the relative information of the Contract and other related information to the People's Bank of China Credit Information Basic Database or other legal setting up credit database, for organizations or individuals with appropriate qualifications to query and use. Party A shall also have the right to query Party B's related information through the People's Bank of China Credit Information Basic Database or other legal setting up credit database for the purpose of the Contract's conclusion and implementation.

14.5 This Contract is executed in two originals, each Party and _____ has one original, shall be equally authentic.

Property Leasing Contract

Document Number: WSWY2014-001

Lessor (Party A): Dongguan Wing Shing Electrical Products Company Limited

Lessee (Party B): Dongguan Hwa O'Tai Electronic Technology Co., Ltd.

According to the relevant regulations of the State, and based on the desire of the parties for equality and mutual benefit, Party A rents its legally owned plant, dormitory and canteen (hereinafter collectively referred to as "Property") to Party B. The two parties have reached agreement and executed a Contract as follows:

1. The rental plant and dormitories:

1. Plant: Party A will rent the 1st floor, 3rd floor and 4th floor (area of 11,964.75 square meters) of the 11th plant, the 4th floor of the 12th plant (area of 3,988.5 square meters), the 1st floor, 2nd floor, 3rd floor and 4th floor (total area of 9,636 square meters) of the 14th plant and the 1st and 2nd floor of the Communications Office (total area of 864 square meters) in Dongguan Wing Shing Electrical Products Co., Ltd. facility to Party B. The total area of the production and office space rented is 26,453.25 square meters.

2. Dormitories: Party A will rent Block B apartment (1,171 square meters), the 7th and 8th caretaker's dormitories (a total area of 3,035.2 square meters), the 9th and 10th workers' dormitories (total area of 6,398.5 square meters) and canteens (area of 2,100 square meters) in the dormitories area in Dongguan Wing Shing Electrical Products Co., Ltd. facility to Party B. The total area of dormitories and canteen rented is 12,704.7 square meters.

2. Lease Term:

1. The lease is effective April 1, 2014 and terminates on March 31, 2019. The lease term is 5 years.

2. Upon the expiration of the lease, Party A is entitled to recover rental property, and Party B should vacate the property as scheduled. If it wishes to renew, Party B shall request in writing to Party A at least two months prior to the expiration of the lease, and if party A agrees, the lease contract will be re-signed. Party B will have the first right of refusal to lease under the same conditions.

3. Rent, deposits and other expenses:

1. Parties A and B agree that the initial monthly rent will be RMB400,000 (uppercase FOUR HUNDRED THOUSAND) payable by Party B to Party A. The rent in the first year is RMB400,000 a month, RMB 420,000 a month in the second year, RMB 441,000 a month in the third year, RMB 463,100 a month in the fourth year, and RMB 486,300 a month in the fifth year, which represents a rent escalator of 5% per year.

2. Both sides agreed that the rent be paid by bank transfer or cash.

3. Within three days of signing the contract, Party B shall deposit the equivalent of 2 months rent with Party A and sufficient funds to buy a brand new line of SMT placement equipment (5 million). The total deposit of RMB5.8 million (uppercase FIVE POINT EIGHT MILLION) will be paid to Party A. When Party B signs a one-time payment for a new line of SMT placement equipment contract with a third party, and after that third-party delivers the SMT placement equipment due by the end of April 2014, Party A will refund the first 20% of RMB5 million, namely RMB 1 million to Party B. When the SMT placement equipment can be completed and put into use, Party A should immediately set Party B as the mortgagee for the SMT placement equipment with respect to the Industrial and Commercial Administration Departments. The maximum amount of mortgage-backed debt is RMB10 million. The maximum amount of the mortgage registration with the determination date of amount of the guaranteed debt being the date of the expiry of the lease contract at which time Party A will refund 80% of RMB 5 million, namely RMB 4 million to Party B. Before the end of June 2014, Party B needs to buy (purchase can be made in a loan not exceeding three years) two further SMT placement machines to be installed in Party B's factory; After the two sets of SMT placement equipment's mortgage is paid off, Party A should immediately set Party B as the mortgagee for SMT placement equipment with respect to the Industrial and Commercial Administration Departments. The maximum amount of mortgage-backed debt is RMB 10 million. The maximum amount of the mortgage registration with the determination date of amount of the guaranteed debt being the date of the expiry of the lease contract. After the expiration or earlier termination of the contract, and within ten days after Party B settles all costs (including, but not limited to, maintenance, rent, utilities, lease, damage and damages from breach of contract, etc.), the deposit of RMB800,000 will be refunded without interest to Party B. If Party B has outstanding aforementioned costs, part or all of the deposit or, if required, Party B's SMT owned machinery will be assigned to Party A.

4. Considering that Party B needs time to obtain a business license and recruit staff to start production, Party A will waive a portion of rent for the first five months, namely free for the first month and 50% of the total RMB400,000 from the second month to the fifth month. The monthly rent is collected in full from the sixth month on.

5. Party B should, on a monthly basis pay the rent for the next month on the 25th of each month. Within 5 days after receiving the payment, Party A shall issue ordinary invoices. If payment is overdue from Party B, a daily overdue amount of 5% of unpaid rent will be charged. And if Party B exceeds the agreed deadline for more than five days, Party A is entitled to terminate the contract, and recover compensation for the lease and consequential loss and request Party B assume the liability for the breach.

6. Prior to the expiry date, if Party B terminates the contract in advance, Party A will retain the non-refundable deposit of 2 months (if Party B's deposits are insufficient, Party B must supplement, otherwise Party A is entitled to detain related equipment of Party B), and Party A will charge separately liquidated damages. Liquidated damages will be RMB600,000 if termination is one year in advance of the lease expiration, RMB1.2 million if two years in advance of the lease expiration, and RMB 1.8 million if three years. Time less than a half year is calculated as one year.

7. If the lease has not expired, and Party B does have any legitimate reason to terminate the contract, Party B shall pay the penalty outlined in clause 6.

4. Maintenance requirements and responsibilities:

1. Party B is renting the factory and office for production of communications products. Party B needs to register as an independent company. Registration capital, related costs and responsibilities are to be borne by Party B. If necessary, Party A can provide assistance, but this will not involve funding, loans or processing.

2. If Party B needs to use the plant for other purposes, Party B must get approval by Party A in writing, otherwise party A is entitled to terminate the contract early.

3. Party B is renting the dormitory and dining hall for employees only, and not for other purposes.

4. If there are damages or malfunctions to dormitories, the canteen and ancillary facilities during the contract period, Party B shall promptly notify Party A and be responsible for repair or compensation. If Party B refuses to repair or make compensation, Party A may also unilaterally terminate the contract or propose changes to the terms of the contract according to the situation apart from holding Party B accountable for the loss.

5. During the contract, if Party B needs to make improvements to the structure of the properties, which may affect the safety of the properties, it will be subject to the written consent and a written agreement from Party A; however, if the structural changes lead to safety issues or an accident, even after Party A's agreement, Party A does not assume any responsibility for such consequences and related legal or economic issues.

5. Sublease and return:

1. During the lease term, without the written consent of the Party A, dormitories and canteen shall not be sublet, subleased or in collaboration with third parties, or other disguised forms of property transferred and sublet to third parties.

2. After the expiry of the lease, plant, dormitory and canteen shall be in a normal state. For damage occurring during the lease (including the destruction, fire or other damages), Party A is entitled to request Party B to make compensation or repair depending on the extent of damage.

6. Other relevant conventions:

1. During the term of the lease while Party B utilizes the leased equipment from Party A to produce communication equipment products, Party B should be a law-abiding operator and shall not produce or sell those products that go against the national compulsory certification (3C); Party B cannot produce products with impersonation factory name or site. If found to have violated any laws, Party B must take full responsibility and accept the government punishment; Party B cannot be involved in any illegal activities such as smuggling, tax evasion, wage arrears, etc. Otherwise Party B shall be responsible for all the consequences and Party A will require Party B to compensate them according to the impact.

2. During the lease, Party B shall take proper measures to guard against fire, theft and ensure public health and security. Party A can inspect on site, and ask Party B to revise procedures when necessary.

3. During the lease, in the case of electricity increases or damage of electrical facilities caused by added machines, Party B shall pay all the costs and take full responsibility.

4. All vehicles of Party B will be checked by Party A's security while passing Party A's factory gates. As for suspicious objects, Party A is entitled to detain the objects until they are checked and assured.

5. Party A's stadium, library, staff training rooms and other places are free for Party B to use. If damaged, Party B will be responsible for repair or compensation.

6. During the lease, all accidents to Party B's personnel (including personal injury accidents, safety incidents, property, labor disputes, economic disputes, etc.) are the sole responsibility of Party B, not Party A.

7. Party B shall not fall behind with its staff's wages. Two weeks of arrears of wage will be deemed as a breach of contract. In this case, Party A has the right to unilaterally terminate the contract and retrieve the leased machine immediately. All the consequences arising from any unpaid wages will be borne by Party B and has nothing to do with Party A. If Party B's deliberate delay in paying wages causes serious problems, Party A is entitled to detain and sell Party B's relevant equipment (including the three sets of SMT placement equipment used as mortgage in this contract) as well as other property placed in Party A's factory, such as devices, finished product for consumers, semi-manufactured goods and raw material. The proceeds from those objects will be used as a deposit or used to pay wages of Party B's staff.

8. During the lease, if Party B breaches any term of the contract, Party A has the right to unilaterally terminate the contract, refuse to refund the deposit and claim liquidated damages and compensation for other losses. If Party B does not pay all rent arrears, liquidated damages, compensation, Party A is entitled to use the deposit to pay the rent arrears, liquidated damages, compensation. If the deposit is insufficient, Party A can detain and sell Party B's relevant equipment (including the three sets of SMT placement equipment used as mortgage in this contract) as well as other property placed in the Party A's factory, such as devices, finished product for consumers, semi-manufactured goods and raw material. The proceeds from those objects will be used to pay the rent arrears, liquidated damages and compensation.

9. Both parties can reach agreement in the annex on those matters that are not covered in this contract. Both parties are required to conscientiously fulfill all the terms of this contract. If one party defaults, he will undertake the corresponding responsibility according to relevant conventions.

10. After the termination of this contract, Party B shall leave and return all the plants and dormitories within 10 days and ensure that all the plants and dormitories are in good operation (except for normal wear and tear). Party B shall settle all the costs and finish the handling procedures. If Party B does not move out of the plants, dormitories, canteens after 15 days, Party A is entitled to forcibly clear the scene and recover the property. All items retained or forgotten shall be deemed to be abandoned by Party B, and Party A has the right to dispose of them. Party B shall not raise any objection.

7. Special Agreement

1. Party A's creditor's rights to Party B under this agreement (including principal debt, liquidated damages, compensation, claims costs, etc.) also include Party A's creditor's rights in the "*Equipment Leasing Contract*" signed by both parties.

2. A deposit equivalent to two months' rent, namely, RMB800,000, will be paid to Party A. During the lease, Party B should pay the rent, compensation, utility fee, liquidated damages and wages for Party B's staff in a timely manner to ensure that Party A can hold RMB800,000; if the deposit decreases due to failure to pay the above and Party B refuses to replenish the deposit even with a written summons by Party A, Party B's action will be deemed as having breached the contract. Thus, Party A would be entitled to unilaterally terminate this contract and claim B's responsibility in accordance with the relevant stipulations of the contract.

8.

Those matters which are not covered by the contract shall be settled through friendly consultations and negotiations.

If still no consensus can be reached, the two parties should seek legal action at the People's Court which has jurisdiction of Party A's location.

9.

This contract is in quadruplicate, two copies for each Party, and take effect from the date of signing and seal. It will expire after the settlement and the relevant lease transaction.

Equipment Leasing Contract

Document Number: GZXB2014-001

Lessor (Party A): Guangdong Lite Array Co., Ltd.**Lessee (Party B): Dongguan Hwa O'Tai Electronic Technology Co., Ltd.**

According to the relevant regulations of the State, and based on both parties desire to enter into an agreement with, equality and mutual benefit, Party A agrees to lease its equipment to Party B under mutually acceptable terms and conditions. Both parties have reached agreement and executed a Contract as follows:

I. Leased Equipment:

1. Party A will lease 10 SMT production lines and one pilot line which lines include high-speed SMT lines, whole-patch cord, automatic printing, reflow and matching feeder stations and other SMT equipment on the 1st floor, No.11 plant in Dongguan Wing Shing Electrical Products Factory Co., Ltd., 4 assembly lines on the third floor of No. 11 plant, No. 12 assembly lines on the 4th floor of No. 11 plant, 16 assembly lines on the 4th floor of No. 12 plant, including pipeline belt pulls, tables, paste screen clean studio, production computers, Barge Ma printers and other assembly/packaging production equipment; complete product quality testing equipment; public infrastructure including power supply lines and central air conditioning, split air conditioning, etc. (hereinafter referred to as the equipment) to Party B for its sole use.

2. Other ancillary equipment is listed in the Annex "*Dongguan Wing Shing Communications Equipment list*".

3. Party A warrants that the above leased production lines and supporting facilities are in good condition and can be used normally. During the transfer of equipment and production lines, Party A and Party B should be represented in person, and conduct an inspection of the production lines to ascertain whether they are working properly with written handover procedures; If Party B finds the production lines and equipment are not working, Party B should immediately notify Party A, who will be responsible for necessary maintenance before acceptance and final transfer to Party B. After production lines and equipment are transferred to Party B, Party A will no longer be responsible for production equipment maintenance (including labor and parts costs).

II. Lease Term:

1. The leasing period commences April 1, 2014 and terminates March 31, 2019. The lease term is 5 years.

2. When the lease expires, Party A will be entitled to recover the leased equipment, and Party B will return the equipment as scheduled. In the event Party B wishes to renew the contract for a further term, Party B shall request in writing to Party A at least two months prior to the lease expiring. If Party A agrees, the lease contract will be re-signed. Party B is granted the first right of refusal to lease under the same conditions.

III. Rent, deposits and other expenses:

1. The Parties agreed that Party A will rent initially the ancillary facilities and equipment for a monthly amount of RMB800,000 (uppercase EIGHT HUNDRED THOUSAND) to Party B, where the monthly SMT equipment rental initially is RMB700,000 (The rent in the first year is RMB700,000 a month, RMB630,000 a month in the second year, RMB567,000 a month in the third year, RMB510,300 a month in the fourth year, and RMB459,300 a month in the fifth year), and the assembly/packaging production equipment, product quality testing equipment, etc. is leased for a monthly rent of RMB100,000 under the lease term.

2. Both parties agree that the rent can be paid by bank transfer or cash.

3. Within three days from the execution of the contract, Party B shall deliver the equivalent of two months standard rental deposit to Party A, totaling RMB1,600,000 (uppercase ONE POINT SIX MILLION). Party B cannot move equipment out of Party A's factory without its written notice. After the expiration or earlier termination of the contract, and within ten days after Party B settles all costs (including, but not limited to, damage, rent, utilities and damages from breach of contract, etc.), the deposit will be refunded without interest to Party B. If Party B has any outstanding aforementioned costs, part or all of the deposit or Party B's own SMT machinery will be applied.

4. Considering that Party B needs time to obtain a business license and recruit staff to start production, Party A will waive all or a portion of the rent during the initial five months of the lease, namely free for the first month and a 50% discount off the total RMB800,000 from the second month to the fifth month. The monthly rent is collected in full from the sixth month on.

5. Party B will, on a monthly basis pay the rent for the next month on the 25th of each month. Within 5 days after receiving the payment, Party A will issue ordinary invoices. If payment is past due from Party B, a daily overdue amount of 5% of unpaid rent will be charged and if Party B exceeds the agreed deadline for more than 10 days, Party A will be entitled to terminate the contract, and recover compensation for the rent due and receive consequential damages and request Party B to assume the liability for the breach.

6. During the lease term, if Party B terminates the contract in advance, Party A will retain the non-refundable deposit of 2 months rent (if Party B gives insufficient deposits, Party B must supplement, otherwise Party A is entitled to detain related equipment owned by Party B), and Party A will charge separately liquidated damages. Liquidated damages will be RMB1.4 million if it is one year in advance, RMB2.8 million if two years in advance and RMB4.8 million if three years in advance of the lease expiry date. Time less than a half year is calculated as one year.

7. If lease contract does not expire, and Party B does not have any legitimate reason to terminate the contract, Party B shall pay the penalty set out in clause 6.

8. Water charge: Party B will use the necessary funding to install water meters on behalf of Party A. Party B must pay for the delivery of water for the previous month within 10 days from the beginning of each (next) month. Party B will pay for their own sewage treatment, water and sewage treatment fees in line with the water company regulations.

9. Electricity charge: During the lease period, Party B will be billed for its usage of Party A's transformers and electricity consumed by all kinds of activities and manufacturing processes based on electricity meter readings. Party B must pay the charge within 5 days of the confirmed usage of the previous month on the 10th of each (next) month. Party A must provide value-added tax invoices to Party B within 5 days after receipt of electricity payment. The fees are charged by the electricity supply company. (Party A shall provide Party B with usage of peak power.) The fee is based on electricity supply company's average standards. If Party A cannot issue VAT ticket to Party B due to taxing authority's regulations, both parties will agree otherwise (the fulfillment of the contract is not affected). The contents of the annex are a part of this contract, and have the same effects after the contract is signed and sealed by both parties.

10. Elevator: during the lease, all costs for the plant's elevators shall be paid by Party B (including elevators' electricity, maintenance, repair and annual maintenance). Party B is responsible for the operation of their own elevators, and assume all responsibility for security.

IV. Management and requirements of equipment with maintenance responsibility

1. During the lease term, equipment leased by Party B cannot be moved out of Party A's plant. All vehicles of Party B should be checked by Party A's security while passing Party A's factory gates. As for suspicious objects, Party A is entitled to detain the objects until they are checked and assured.

2. In principle, Party B cannot move the equipment out of Party A's plant. But due to special needs that require the two parties to swap the space of each other's SMT placement machine, Party B should get the written approval of Party A, and before the swapping, Party A can send experts to make sure that the value of Party A's placement machine is higher than that of Party B's. When the contract expires, Party B shall return all the equipment to the original place and status. Party B cannot get their placement machine back until Party A's machine is confirmed in normal operation. All costs incurred by the relocation of equipment should be paid by Party B, and Party B shall be responsible to repair and compensate any damages caused by the relocation of equipment.

3. To ensure the integrity of the machines, Party A can organize two annual inspections, respectively at end of June and December, without affecting the normal production of Party B. If Party A's machines are found missing, Party B should compensate according to the net book value in Party A's financial accounts.

4. The equipment leased from Party A can only be used for the placement and assembly of communications products. If used for other purposes, Party B must get the written approval of Party A.

5. Party B shall provide good security measures and management measures for the leased equipment. In the event of loss, man-made damage (crashed nose or bumped nozzle caused by man-made damage, for example, improper operation), Party B should be responsible for compensation and maintenance costs. If Party B refuses to repair or compensate, Party A can terminate or proposes to change the terms of the contract besides holding Party B responsible for the damage or breach of contract.

V. Sublease and return:

1. During the lease term, without the written consent of Party A, Party B cannot sublease, sublet or disguise to sublease, sublet in forms of collaboration with third parties.
2. When the contract expires, all the equipment should be returned in good operation. As for damages occurred during the lease term (including man-made damage, natural damage caused by fire or other accidents), Party B is required to pay compensation according to the net book value of the depreciated equipment in Party A's financial accounts (compensation criteria in Annex 2 "The Decreasing proportion of yearly depreciation of fixed assets").

VI. Other relevant conventions:

1. While Party B utilizes the leased machines from Party A to produce communication equipment products, Party B should be a law-abiding operator and shall not produce or sell those products that go against the national compulsory certification (3C); Party B cannot produce products with impersonation factory name or site. If violating these rules, Party B must take full responsibility and accept the government punishment; Party B cannot involve any illegal activities such as smuggling, tax evasion, wage arrears etc. Otherwise Party B shall be responsible for all the consequences and Party A will require Party B to compensate them for any costs they incur.
2. During the lease, Party B shall take proper measures to guard against fire, theft and ensure public health and security. Party A can inspect on site when necessary.
3. During the lease, Party B can add equipment according to production needs with the written consent of Party A. At the same time, Party B cannot move equipment out of the Party A's factory without its written notice.
4. During the lease, in case of electricity increase or damage of electrical facilities caused by added machines, Party B shall pay all costs and take full responsibility.
5. During the lease, if Party B breaches any term of the contract, Party A has the right to unilaterally terminate the contract, refuse to refund the deposit and claim liquidated damages and compensation for other losses.
6. Both parties are required to conscientiously fulfill all the terms of this contract. If one party defaults, he will undertake the corresponding responsibility according to relevant conventions.
7. Party B shall not fall behind with its staff's wages. Two weeks of arrears of wage will be deemed as breaching the contract. In this case, Party A has the right to unilaterally terminate the contract and retrieve the leased machine immediately. All the consequences arising from the unpaid wages will be borne by Party B and Party A will be held harmless. If Party B's deliberate underpayment of wages causes serious problems, Party A will be entitled to detain and sell Party B's relevant owned equipment (including the three sets of SMT equipment used as collateral in this contract) as well as other property placed in Party A's factory, such as devices, finished product for consumers, semi-manufactured goods and raw material. The proceeds from those objects will be used to settle wages due to Party B's staff or retained as a deposit.
8. After the termination of this contract, Party B shall return all the equipment within 10 days and ensure that all the equipment is in good operation (except for normal wear and tear). Party B shall settle all the costs and finish the handling procedures. If Party B does not pay all rent arrears, liquidated damages, compensation, Party A is entitled to use the deposit to pay the rent arrears, liquidated damages, compensation. If the deposit is not enough, Party A can detain and sell Party B's relevant equipment (including the three sets of SMT placement equipment used as collateral in this contract) as well as other property placed in the Party A's factory, such as devices, finished product for consumers, semi-manufactured goods and raw material. The money sold from those objects will be used to pay the rent arrears, liquidated damages and compensation.
9. Both parties can reach agreement in the annex on those matters that are not covered in this contract.

VII. Special Agreement

A deposit equivalent to two months' rent, namely, RMB1.6 million, should be paid to Party A. During the lease, Party B should repay the money spending on rent, compensation, liquidated damages and wages for Party B's staff in a timely manner to ensure that Party A can hold RMB1.6 million; if deposit decreases due to the above reason while Party B refuses to fill reduction in deposit even with a written summons by Party A, Party B's action will be deemed as having breached the contract. Thus, Party A is entitled to unilaterally terminate this contract and claim B's responsibility in accordance with the relevant stipulations of the contract.

VIII.

Those matters which are not covered by the contract shall be settled through friendly consultations and negotiations.

If still no consensus can be reached, the two parties should take legal action in the People's Court which has jurisdiction over Party A's location.

IX.

The contract is in four (4) originals, two (2) for Party A and two (2) for Party B. It will become effective after both parties sign and seal and will be automatically validated at the time when all the money has been settled and all lease affairs have been finished.
